"Aunt Molly," said Fanny Osborne one evening, "did you ever hear any one

pop the question?" Why, certainly, child, I heard your Uncle Charlie pop it, as you call it."
"Oh, res. of course," said Fanny, "but

Jy, "I did happen to once."

"O please tell me all about it." cried little mouse in the wall, on such an occa- disease; ninety out of every hundred cases

Panny was just turned of fifteen, and

your work, then, for I don't like to talk

to an idle listener." Fanny established herself, and Aunt States alone; and a correct calculation shows cured. Persons afflicted with a seated cough, Molly began. "It was about ten years that of the present population of the earth, which breaks them of their rest at night, will

should be well settled in life."

ince progressed slowly. Time and habit arrange these things beautifully, and gradually they came to be more familiar, so as even to call each other by their Christian names. I helped about that though, for I could not hear the formality of Mr. Morris and Miss Evaps. Just as I expected. Will became very much interested in Antone in the content of the single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions seut to any part of the United States and Canadas by partients communicating their symptoms by letter, and produced cures too numerous and too remarks he are available to be a viscotten. ject nearest his heart."

" How did you know that? Aunt Molly, inquired Fanny.
"Oh, from observation," replied Aunt

Molly, "and Annie did not help the matter any, for though she was quite friendly and social in his company, yet there was nothing in her manner that betrayed the Offers Great Inducements slightest interest in him. Well, one eyening Annie had been spending the afternoon with me, and we were about talked out, when Will came home from the store, SPENCER, on 3d Street, North side of Public Spending Annie had been spending the afternoon with me, and we were about talked of the store formerly occupied by D. W. SPENCER, on 3d Street, North side of Public Spending Annie had been spending the afternoon with me, and we were about talked out to spend the store, Spending Annie had been spending the afternoon with me, and we were about talked out to spend the store of the store o slightest interest in him. Well, one evenand I proposed their playing checkers. Uncle Charles had gove to a political meeting. I sat some distance off, sewing, and

with one eye watching the game. They were both good players, and for a long time moved silently, each apparently intent on the game. At length, as if conscious that her success was hopeless, Annie remarked, identifying herself with the man she was moving; "I see you are after me, Will."

"If I catch you," spoke Will with sudden energy, "will you leave me in undisputed possession?"

Annie looked up, startled by his manner, and seeing in his eager face the meaning he had placed upon her words, paused, blushed deeply, hestitated and presently replied: "Perhaps so; if you and Mary will promise never to tell any body that I

popped the question."

Will rose hastily, dropped the board—
the checkers ran all over the floor, and

WOODEN WARE,

congratulate you most sincerely," and now, if you will come out of your happy state and pick up these checkers I will be much

obliged to you." Will and Annie laughed heartily, and began picking them up with alacrity, and as Will took up the board to put it away he remarked "That was the pleasantest

game of checkers I ever played in my life.'s
Annie said nothing, but looked very rosy and smiling, "and now," said Aunt Molly, " are you satisfied!" K.

N. P. Willia says that the reason he nit like to drink water is because it has tas-Sed so strong of sinners since the deluge.

#### IMPORTANT DISCOVERY. CONSUMPTION AND ALL

DISEASES OF THE LUNGS AND THROAT ARE POSITIVELY CURABLE BY INHALATION.

HICH convers the remedies to the cavi-ties in the lungs through the air passa-ies, and coming in direct contact with the disease, neutralizes the tubercular matter, al-lays the cough, causes a free and easy expec-toration, heals the lungs, purifies the blood, one doesn't often tell their own experience. imparts renewed vitality to the nervous system, I mean, did you ever hear any one else?" giving that tone and energy so indispensable "a Well, yes," replied Aunt Molly, slow-for the restoration of health. To be able to state confidently that Consumption is curable by inhulation, is to me a source of unalloyed pleasure. It is as much under the control of Panny, "I would so much like to be a medical treatment as any other formidable can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., it was very natural that she should want for the Lungs are so cut up by the disease as to be nosted.

Molly began. "It was about ten years after I was married, and house keeping that consin Will Morris, uncle Benjamin's son, came to live with us; that is he was a partner in your uncle Charlie's store, and boarded with us. You never saw Will, did you?"

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, will, did you?"

Fanny nodded her head, and Aunt Molly went on.

"He was a whole souled, straight forward, substantial young man, not lacking in polish either; but very bashful, so much so, that I used really pity him sometimes, when we had young company. Aunie Evans was an old school mate of mine, and the first is more rational to expect great-Evans was an old school mate of mine, and Then surely it is more rational to expect greatjust after I went to house-keeping her parents moved to Oxford, and fived only a short distance from us. Annie used frequently to bring her work, and spend the lungs free and the breathing easy, after lihaling remedies. Thus, inhalation is a local remedy, nevertheless it acts constitution would go home with her. Those were raive times, Fanny; and we epjoyed them remedies administered by the stomach. To prove the powerful and direct influence of this raire times, Fanny; and we epjoyed them fully. Annie was a real woman; none of your nonsensical, love-sick girls, whose head are so full of beaux that they won't hold anything else."

Fanny blushed as Aunt Molly said this, but Aunty looked very demure, and conbut Aunty looked very demure, and continued.

"And knowing her, and loving her as I did, I felt particularly anxious that she ishould be well settled in life."

"And knowing her, and loving her as I did, I felt particularly anxious that she ishould be well settled in life."

"And knowing her, and loving her as I did, I felt particularly anxious that she ishould be well settled in life."

"And knowing her, and loving her as I did, I felt particularly anxious that she ishould be well settled in life."

"And knowing her, and loving her as I did, I felt particularly anxious that she ishould be well settled in life."

in the skin a few initutes after obing inhaled, he well settled in life."

"That means, with a good husband," remarked Fanny, roguishly.

"Certainly," said Aunt Molly; "and after Will came, and I become acquainted with him, I took it into my head that he and Annie would make a capital match.

But, somehow, after he came, Annie did hot come so often; and Will, who was very entertaining in his conversation when we were alone, in her presence, was silent, and awkward in his manner, as if under restraint; and Annie took but little into into co of him, only so far as politeness fequired, and requested me privately to arrange, that Uncle Charlie should still go home with her, that is, if he had no objections. So the young people's acquaint-and more progressed slowly. Time and habit is not concertion with certain pathplogical and more restraints and habit in and microscopic description with certain pathplogical.

In the skin a few initiates of in the blood in the blood in the blood. A convincing proof of the constitutional effects and make the immediately detected in the blood. A convincing proof of the constitutional effects and make the intention is the fact that sickness is allowed by breathing foul air—is not this positive cyclence that proper remedies and intention, is the fact that sickness is allowed by breathing foul air—is not this positive cyclence that proper remedies and throat, have been unstanced in the larges should produce the lungs should prove the constance of the lungs and throat, have been unstanced in the last spaces, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is no longer a fatal and notice of him, only so far as politeness ference and not the last spaces, which fully satisfies me that consumption, have the constant of the proper remedies, rarely being won for it an appreciation and notoriety by far exceeding the most sanguing expectations of its friends. Nothing but its intrinsic virginal match.

It matters not from what capso scn. by meil if requested, and orders [with re-mittaness,] promptly forwarded to any part of or obstinate the case, recovery ig certain, and id a shorter time than a permanent cure cap be et-fected by any other treatment, even after the discusse has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are please it without odor, causing no sickness and free from mercury or balsam. During twenty years of practice, I have resourd cians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret Diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula, and many other diseases, and should be a terror to the human family, As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but ruin the constitution with mercury which, with the disease, has tens the sufficier into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim mar-ries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofule, Tetter, Ulcers, Eruptions an other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to

an early grave. SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, chuses mental derangement, prevents the proper development of the system disqualifies for marriage, society, business and all carthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumution and a train of arils more to be to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a permanent and speedy cure can be affected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the usa of Patent Medicines, for there are so many ingenious snares in the columns of the public the system for life.
Three-fourths of the patent postrums new.

in use are put up by upprincipled and ignorant persons, who do not understand even the all phabet of the materia medica and are equally. to which too many of the young of both sexes as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequen-
