

Column and County.

Some of our Lumbermen who have just returned from Pittsburg, Cincinnati, and other towns along the Ohio river, report that there is very little demand for lumber, and that what is sold brings very little cash.

A hope—(fearful hope, it is, too, for those whose clouds overhead look ominous)—is given by the radiance and warmth of to-day's (Tuesday's) sun. Monday night's rain fell in torrents. To-day, however, our farmers and gardeners wear smiling countenances, and weather-seers are confident that our month of intermittent rain storms is at an end.

A little hint to our farmers suggested itself to our mind a day or two since, and which, if acted upon, may result in some profit. Just about these days a specimen of caterpillar, peculiar to orchards, is spinning its webs over the apple-trees and preparing to become the pest of the farmer as well as of the housewife.

Peterson's Philadelphia Counterfeit Detector, for June, has been sent us by the publishers, T. B. Peterson & Brothers, 306 Chestnut St., Philadelphia. It is fast gaining the reputation of being the best Bank Note List in the Union.

The American mind is suggestive, inventive, energetic. It scales the rugged pathways on the side-hill of Science with almost indolent ease—stopping by the way to pululate the idea which has suggested to it that the right kind of a plow would soon turn that side-hill into a nice little farm for growing Artichokes—and arrives at the summit with wonderful rapidity and seeming fullness of breath.

There is some talk of a good old fashioned celebration of Independence Day in this place. The Sabbath Schools of this village have determined to celebrate it, and desire all the Sabbath Schools throughout the county, that can make it convenient, to join them.

We would call the attention of our readers to a communication on the 4th page of this paper entitled "The Oil of Grass." It contains some excellent suggestions in regard to the importance of stock-raising. Every man and woman, boy and girl, in the county should read it—but do not let the reading of it suffice. Action is what will cause it to bear fruit.

DISEASE OF THE STOMACH. The stomach is the most liable to get out of order. Hence how important that no diseased matter clog its operation, which would cause nausea, and distress by our food. It also weakens the brain, destroys the memory, creates pain and dimness, and various affections in the head.

WORMS. In a quantity of corrupted matter, there is always to be found a nest of worms. They cannot, neither will they stay anywhere else. Weak stomach and bowels are subject to them, as they have not sufficient power to digest their food.

cannot, neither will they stay anywhere else. Weak stomach and bowels are subject to them, as they have not sufficient power to digest their food. Hence a large heap of matter is lodged, and worms must be the result. A few doses of these pills will destroy their nest, and drive them out of the system.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood is affected, becomes thick, corrupted and diseased; thus causing skin eruptions, sickness, and distress of every name; our strength is exhausted, our health we are deprived of, and nature is not assisted in throwing off the stagnant humors, the blood will become clogged and cease to act, and thus our light of life will forever be blown out.

A GREAT BOOK FOR AGENTS. Published this Day, Feb. 9, 1858. Fifty Years in Chains: OR, THE LIFE OF AN AMERICAN SLAVE, WRITTEN BY HIMSELF. 430 Pages, Cloth. Gilt Back. Price \$1. This is the title of one of the most interesting biographies of the day. It is a plain history of an American slave in the far South, who, after two or three escapes and recaptures, finally, an old man, found freedom and rest in one of the Northern States.

WHAT THE PRESS SAY. The story is told with great simplicity, but with much power and pathos. Whoever takes it will find it difficult to lay it down until it is finished.—National Era, Washington, D.C. A narrative of real experience like this above will have far more effect against slavery than the ingeniously wrought novel, however true to life its pictures may be.—Am. Eagle. Here is a book of facts stronger than fiction, and a thousand-fold more thrilling; a simple tale of life-long oppression, revealing truly the workings of the "peculiar institution" in our country. To the story-loving we would say, here is a story worth reading.—Mission Record. A THOROUGH CANNYSSEER IS WANTED. In each county in the free States, to engage in the sale of the above work immediately. Such can easily clear from \$50 TO \$100 PER MONTH.

The work is beautifully printed and bound, and is as large as the books that sell for \$1.25; but as we mean to sell at least ONE HUNDRED THOUSAND COPIES, through agents, we have made the retail price ONE DOLLAR. A SAMPLE COPY of the book will be sent by mail, postage paid, on receipt of the price, and our private circular to Agents, with terms, etc. Address H. DAYTON, Publisher, 35-36mo. No. 29 Ann-street New York.
