Be Your Own Man.

EDITOR OF JOURNAL.—A scrap of ad- m... worthy of publication in your paper, and send it for you to print, ad libitum.

POTTER, Aug. 19, 1858.

"Stand up here young man, and let us talk to you.—You have trusted alone to the contents of father's purse, or to his fair fame for your influence or success in busi- ness."

"Women govern us; let us render them perfect; the more they are enlightened, so much more shall we be. On the cultivation of the mind of women depends the wisdom of men. It is by women that Nature writes on the hearts of men."

Tom on his wife could not bestow One tear of sorrow when she died; Her life had made so many flow, That all the briny fount was dried.

An English writer, (remarks an ex- change), says American ladies of the present day feel or affect a spirit of independ- ence. We certainly have seen, at fash- ionable parties, many a lady, who we thought might very appropriately recite Smollett's fine lines to Independence:

"Thy spirit, Independence, let me share, Lord of the lion-heart and eagle eye, Thy steps I follow with my bosom bare."

A DROLL PRESIDENT.—In a late num- ber of the Albany Evening Journal, Thur- low Weed tells us what a droll President we have got, in the following concise words:

"He entered the White House, with a promise of freedom to Kansas on his lips, and a scheme for enslaving it in his pocket. He declared war against circu- lating notes and in six weeks was issuing them himself. Before the ink was dry with which he pledged "Economy," he had drained the treasury of its last dollar. Before the printers were done stereotyping his inflexible determination never to bor- row, he was in Wall street soliciting a loan.

"He congratulated the country on the final end of slavery agitation, and he has been agitating it ever since. He ordered Paulding to stop the filibusters, and then recalled him for doing it. Walker of Nicaragua he pronounced an outlaw and tendered him the hospitalities of the White House. Walker of Kansas he furnished with written instructions, and turned him out for obeying them.

"He withheld the troops from Utah, where he proclaimed there was war, in order to keep them in Kansas, where he insisted all was peace. He sells Forts at the west for a tithe of their cost, in order to buy sites at the east at ten times their value—his subordinates in both cases pocketing the difference. He is contin- ually asking for new steam frigates; but he will not use those he has either on the coast of Africa or in the Gulf of Mexico. He sends out a steamer, ostensibly to catch the Styx, but with private orders in the captain's desk to do nothing of the sort. Claiming to be the most frugal of Presidents, he has spent more than any of his predecessors. Assuming to be above party prejudices, he makes partisan- ship the basis even of his invitations to dinner."

TRUE POLITENESS.—As to politeness, many have attempted to define it. I be- lieve it is best to be known by description—definition not being able to comprise it. I would, however, venture to call it "be- nevolence in trifles," or the preference of others to ourselves in little daily, hourly occurrences in the commerce of life. It is a perpetual attention to the wants of those with whom we are, by which atten- tion we either prevent or remove them. Having, ceremonious, formal compli- ments, stiff civilities, will never be polit- ness—that must be easy, natural, unstud-

ied, manly, noble; and what will give this but a mind benevolent and perpetually attentive to exert that amiable disposition in trifles to all you converse and live with.—Lord Chatham.

A TOWNSEND INCIDENT.—A little boy had died. His body was laid out in a darkened room, waiting to be laid in the cold, lone grave. His afflicted mother and bereaved little sister went in to look at the sweet face of the precious sleeper, for his face was beauti- ful even in death. As they stood gazing on the face of one so beloved and cherished, the little girl asked to shake his hand. The moth- er at first did not think it best, but the child repeated the request, and seemed anxious about it; she took the cold, bloodless hand of her sleeping boy, and placed it in the hands of her weeping sister. The dear child looked at it a moment, caressed it fondly, and then looked up to her mother through tears and love, and said: "Mother, this hand never struck me!" What could have been more touch- ing and lovely?—Exchange.

INTELLECTUAL WOMEN.—There is something refreshing about the society of an intellectual woman. She rarely drops into the senseless jargon of "small talk," and in her conversation aims to amuse and edify her friends. Sheridan has said—"Women govern us; let us render them perfect; the more they are enlightened, so much more shall we be. On the cultivation of the mind of women depends the wisdom of men. It is by women that Nature writes on the hearts of men."

EPICURAM. Tom on his wife could not bestow One tear of sorrow when she died; Her life had made so many flow, That all the briny fount was dried.

MORSE'S INDIAN ROOT PILLS

CAUTION. Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Morse's Indian Root Pills, signed A. B. Morse. All genuine Indian Root Pills bear the name and signature of A. B. Morse & Co., on each box.

Above we present you with a likeness of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

The various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and dis- eased; thus causing all pains, sickness and distress of every name; our strength is ex- hausted, our health we are deprived of, and if nature is not assisted in throwing off the stag- nant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's In- dian Root Pills, manufactured from plants and roots which grow around the mountain- ous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and un- clogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throw- ing off phlegm, and the other humors from the lungs by copious spitting. The third is a Di- uretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out boundlessly by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, be- comes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fer- mentation, constantly mixing with the blood, which throws corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and ab- solutely surprised, in witnessing their passing effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that dis- ease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

Rules and Regulations LIST OF AWARDED JUDGES OF THE FIRST ANNUAL FAIR OF THE

Potter Co. Agricultural & Horticultural Society, TO BE HELD AT COUDERSPORT, PA., Wednesday and Thursday, October 13th & 14th, 1858.

RULES AND REGULATIONS:

I. All Animals, to be entitled to compete for Premiums, shall have been bred and owned in the County, by the persons presenting them, at least four months previous to the Annual Fair, and all animals, except breeding stock, shall have been bred and raised in the County; but when Working Oxen or Matched Horses or Mares are entered for Premiums, they shall be eligible if one was raised in the county.

II. No person or persons shall be permitted to compete for a Premium on any article of Domestic Manufacture, or Butter or Cheese, unless the same shall have been made or manufactured by such person or persons, or his or their family or families, within the year that it shall be offered for a premium.

III. Exhibitors must become members of the Society and have their articles and animals entered on the Secretary's book on or before the day next preceding the opening of the Exhibition; and all articles and animals must be brought within the enclosure as early as noon of the first day of exhibition, in order that they may be suitably arranged. The Managers do not intend to ASSURE any exhibitor who NEGLECTS these requirements, that his articles can be submitted to the Judges. While every effort will be made to secure the examination and proper notice of every article on exhibition, justice to those who comply with the rules of the Society requires that they shall in all cases first receive attention.

IV. Articles or animals removed before the close of the Exhibition (except by permission of the President) can not receive a Premium, though awarded.

V. Should any individual enter an animal in any other name than that of the bona fide owner, the person making such entry shall not be allowed a premium should one be reported by the Judges, and shall be precluded from competing at any future exhibition of the Society.

VI. Persons entering stock of the age of three years and under, shall furnish the Judges evidence of the time when the animals were dropped, to be filed by them with the Secretary; and the ages of animals above this, to be given on making their entries.

VII. The Judges shall in all cases withhold premiums where the animal or arti- cle is not worthy, though there be no competition.

VIII. No premiums are to be awarded to Bulls, Cows, or Heifers that have been fitted for the butcher—the intention of the Society being to promote the rear- ing of superior animals for breeding purposes.

IX. Whenever it shall appear to the Judges that articles of superior merit have been presented, not noticed in the Premium List, they shall make special report thereof to the Board of Managers.

X. It is particularly desired that no persons shall be present while the Judges are examining the Stock referred to them, except those taking charge of the animals, unless by special request.
