

Edwin and County.

The scarcity of change and small notes in this vicinity is a great inconvenience to our business men.

The prospect for a large attendance at the County Fair next week are good; indeed, we are informed that the people of the county are preparing to attend in numbers that will surprise the most sanguine friends of the exhibition.

Read the article on our first page headed "The Old Homestead," ye who have tender recollections of such—and ye who have not will not want occasion for tears to regret that your life has been thus far without so pleasant a memory.

We are glad to learn, as our readers no doubt will be, that the Trustees of the Normal School Academy have re-engaged Mr. J. Hendrick's services as Principal for another year.

We have received a pamphlet of 173 pages, entitled "The Dudley Observatory and the Scientific Council—Statement of the Trustees." It is a long and ably prepared review of the late controversy between Mr. Gould and the Trustees above named, but has no particular interest for others than scientific men.

Books.—J. P. Brehmer, of Eulalia, has excelled Mr. Crosby's specimens of eggs, by leaving two ears of mixed white and yellow, the longest of which measured 12 inches in length, has 14 rows of eggs, counting 637 grains in all. The smallest is 11 inches long, same number of eggs and has 580 grains. Can any of our farmer friends beat Uncle Peter?

After our paper had gone to press last week, we received a complimentary copy of a "Horse Fair" to be held at Eulalia, N. Y., on Wednesday, Thursday and Friday of last week. We placed the same in the hands of a special reporter; this week we have received his report, which is no doubt as correct as it is interesting. The "Horse Fair" is a hum-

ble pleasure in calling the attention of our readers to the fact that the Norwegian friend, Henry Andresen, of Coudersport township, is the proprietor of "Pure Vegetable Norwegian Salve," which is said to possess powerful healing qualities. Mr. Andresen will be present at the County Fair next week, when we will give the people of this county the opportunity to pass upon his merits. It is highly commended by his physician residing in this county, and many of our leading citizens.

The beauty—we may well say the splendor—of the autumnal scenery in and about our village—indeed, throughout the county—is the especial subject of remark among strangers and "the natives." As a fond of looking upon the beauties of nature, as also the less dignified and more beautiful beauties of Art; but we regret that our bump of Descriptiveness is exceedingly diminutive, and that those who wish to see our good dame Nature in her green summer's dress, and robe of blue, yellow garb, in obedience to the behests of Supreme Fashion, must see them for themselves. We can give them that the sight is grandly free!

A meeting of the Board of Managers of the Agricultural Exhibition, held on Oct. 4, 1858, the following persons were appointed a Committee of Arrangements for the Agricultural Exhibition:

- F. W. Knox, Chairman; W. B. Gordinier, A. H. Butterworth, Miles White, C. Chauderberger, Mrs. T. Ives, F. W. Knox, "D. F. Glassmire, "Ira Canfield, "J. W. Butterworth, "Sam'l Haven, "J. B. Smith, "Isaac Renson, "V. C. Jones, "S. F. French, "Miss Charlotte Haven, "A. J. Spafford, "Ira Butterworth, "Mary Barclay, "Helen Barlow, "M. Hopkins, "C. A. Metzgar, "Ida Butterworth, "Pauline Radiger, "Mary Lyman, "C. Armstrong, "Rachel Taggart.

Report, (Continued).—That building which stands in the north-west part of the Borough is the summer mill of H. H. Dent, and has proved to be an addition to our industrial resources. That snuff colored dwelling house

which "reposes in simplicity and beauty at the base of the surrounding mountain"—directly east of Mr. Canfield's barn—is the summer residence of Thomas Lenihan Esq. (formerly of Kerry, Ireland, but now of Sweden, Pa.). That rat-colored building which stands on the east end of 5th street was erected for a Tannery, and the ground bark, when no longer fit for use, was immediately floated from it to the Gulf of Mexico. There are several tender historical recollections connected with this building. It was converted into a hospital a few years ago, when the measles and small-pox visited the town, under the direct superintendence of Dr. Covey M. D., an eminent physician (though some people said, sneeringly, he was nothing but a "yarb doctor"), assisted by Col. Jerome Goodrich Esq.—Alas! Time has wrought many changes, and if the "vision" of this old Tannery should happen to "burst upon the eye of a stranger" it would knock said stranger blind in a minute, if he did not see it was now a stable. That little white cottage which is a *finale* to 2nd street and which romantically overlooks the Blacksmith shop and Ashery, was recently built by Mrs. Miles, and is occupied at present by her and her son, Col. Emerson Miles Esq. as an autumn residence. That other building which "surprisingly greets the eye of the traveller from those points hitherward" is the Ashery, a fine building in its time, with a shingled roof and a *ye trough* now *slightly* decayed. We must not forget to mention the new house now being built by Mr. John Coslowski, Esq., on the banks of the winding Allegheny amid "scenery, the beauty of which is beyond the power of pen to paint"; also, the winter residence farther up the river of Tobias Ernst, Esq. That circular building (drab-colored—Doric [we guess] style) was erected by "Col." (?) H. H. Dent, for a smoke house. There are several other buildings in the N. Y. Architectural style which we may notice at some future time.

For the Potter Journal.

An "Inquiry" Answered. Mr. Editor: As you had the kindness to allow a Director to make an inquiry through the columns of your paper, you also allow me to answer that inquiry. The Book Committee yet maintains an existence, and is in the discharge of its duties. We are truly rejoiced to know that there is one Director (not but what there are others, indeed, we are confident there are many such) who anxiously awaits the report and is ready to act thereon as soon as it is made. The Committee expected to report, partially at least, before this time, but certain unavoidable circumstances rendered it impossible to do so. The report will be made without much farther delay.

J. W. BIRD, Sec'y of Com. Coudersport, Oct. 8, 1858.

A Lady wished a seat. A portly, handsome gentleman brought one and seated her. "Oh, you're a jewel," said she. "Oh, no," replied he, "I'm a j-weller—I have just set the jewel." Could there have been anything more gallant than that?

Political Announcements.

County Treasurer. To the Electors of Potter County: From my own inclinations, and the advice of my friends, I am induced to offer myself as an Independent Candidate for the office of COUNTY TREASURER, subject to your decision at the ballot-box. NELSON CLARK. Eulalia, Sept. 22, 1858.

Assembly—Anti-Lecompton.

To the Electors of the Representative District composed of the Counties of Tioga and Potter:—I am a Candidate for the office of Representative in the next General Assembly. Should I be elected, my constituents may rest assured that, to the best of my ability, they will be represented upon the principles of the Declaration of Independence and the Constitution of the Union; and especially that the People of the Territories (including Kansas) have the same right to resist the enforcement of Slavery upon them against their will, that our Fathers had to resist the Stamp Act of George III, and throw his Tea into Boston Harbor. If this be Treason, make the most of it. JNO. M. KILBOURNE. Pike, Potter Co., Pa., June 30, 1858.

The Best, Cheapest, and most Successful Family Paper in the Union.

HARPER'S WEEKLY.

Price Five CENTS a Number; \$2 50 per Year. We would not so often call attention to Harper's Weekly if we were not well satisfied that it is the best family paper published in the United States, and for that reason and that alone, we desire to see it undermine and root out a certain kind of literature too prevalent, which blunts the morals of its readers, vitiates their taste for sensible reading, and is altogether bad in its effects.—New London Advertiser.

As Harper's Magazine has done much to drive out the yellow-covered literature, so we should be glad to see this new Weekly take the place of those papers which depend for excitement on poor, trashy novels.—New York Eccelest.

Harper's Weekly abounds in original matter, spicy, piquant, instructive, and entertaining. It has, and deservedly, a very large and increasing circulation. It is a tip-top family paper.—Boston Journal.

It (Harper's Weekly) is the proper size for binding, and an excellent opportunity afforded for any one who wishes to preserve the history of the country as it is made, to do so by filling Harper's Weekly.—Poniac (Mich.) Jacksonian.

Its fresh leaves, its clear type, its entertaining variety, its severe but judicious criticisms upon the follies of the times, its elegantly-written and instructive articles, and its able correspondence all combine to make it the model newspaper of our country, and one that every family must prize. Its condensed weekly summary of Foreign and Domestic Intelligence is altogether superior to that contained in any other journal. Being published too, in a form for preservation and binding, if taken care of as it deserves to be, it will be found in future years as welcome a companion for the family and fireside as the day on which it was first perused.—McConnellsville (O.) Inquirer.

Its illustrations are far ahead of any journal of the kind in the country. Its pen portraits of distinguished living men are of themselves worth the price of the volume.—N. Y. Christian Advocate and Journal.

Fresh, sparkling, and vigorous. Its circulation is probably the greatest success ever achieved by any publication at such an early period of its existence.—Brooklyn Eagle.

The best family paper we ever saw. Its pages embrace a great variety of reading matter, and its articles on the leading topics of the day are written with an ability which would credit to the "Thunderer" of the British press.—The London Times.

It is ahead of any of our pictorial sheets.—New London Advertiser.

Harper's Weekly gains readers and popularity with every issue, because it aims at and hits that average requirement for family reading which this enterprising house so well comprehends. Its articles are brief, timely, and devoid of partisanship; it is as versatile in subjects as it is even in tone, besides being unparagonably cheap.—Boston Transcript.

Back Numbers of HARPER'S WEEKLY, as well as Covers for Binding the Volume just completed, can be furnished by the Publishers.

TERMS. One Copy for Twenty Weeks, \$1 00. One Copy for One Year, 2 50. One Copy for Two Years, 4 50. Five Copies for One Year, 9 00. Twelve Copies for One Year, 20 00. Twenty-five Copies for One Year, 40 00. An Extra Copy will be allowed for every Club of TWELVE or TWENTY-FIVE SUBSCRIBERS.

BRANDRETH'S PILLS PURIFY THE BLOOD.

Continued pain or uneasiness in any organ is generally cured by one or more doses of Brandreth's Pills. Thirty years' personal experience by the undersigned fully justify this assertion. Dr. James Lull, of Potsdam, N. Y., says:— "I have cured the deplorable constiveness of the bowels with Brandreth's pills, when every other remedy had failed, and the patient was given up to die. Skin diseases of an inveterate and painful character, such as erysipelas, salt rheum, tetter and summer-heat, I have seen eradicated by their use. I have cured the rheumatic, the epileptic, the paralytic and the consumptive with these excellent pills alone."

In jaundice and all affections of the liver, dyspepsia, dysentery and diarrhoea, pleurisy, sudden pains and inflammations, female obstructions, scorbutic and scrofulous, even dropsy and neuralgic affections, have given way to the use of this medicine, and now, after twenty years' experience, my estimation of Brandreth's Pills continues to increase.

OBSTRUCTION. A young lady, beautiful and healthy, took cold, which caused a serious obstruction for two years; her health was broken down and her beauty departed. At length Brandreth's Pills were tried; eleven doses, of from two to four, were taken in fifteen days preceding the usual period. Regularity was restored, and her health and good looks recovered.

BRANDRETH'S PILLS are the best vermifuge; they are infallible. A little child, six years old, for some weeks was dropping; its mother gave it one of Brandreth's sugar coated pills; the next day the worms came away as well as the iches long, and as large as a child's finger. The child was well.

PLEURISY. A gentleman, away from home, was taken with pleurisy; the inflammation was terrific; every breath made him writhe with agony. Eight Brandreth's Pills were swallowed, and warm oil applied locally; the pills operated, and the pain was relieved; plenty of gruel was taken, and six more pills, and the second day the patient was cured.

ELECTION PROCLAMATION.

PURSUANT to an act of the General Assembly of the Commonwealth of Pennsylvania, entitled "An Act relating to the elections of this Commonwealth," approved the second day of July, A. Also, that in the fourth section of the Act of Assembly, entitled "An Act relating to elections and for other purposes," approved 7th April, 1849, it is enacted that the aforesaid 13th section shall not be construed so to prevent any military officer or Borough officer from serving as Judge, Inspector, or Clerk of any general or special election in this Commonwealth.

It is further directed that the meeting of the return judges at the Court House in Coudersport to make out the general returns, shall be on the first Friday succeeding the general election, which will be the 15th day of October.

A Card from Dr. James M. Jarrett, of the New York Lung Infirmary.

My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivaled opportunities and advantages of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-Passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integuments. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjunct in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported; and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case, Inhaling Vapor, Medical Inhaler, &c., &c., will be forwarded by express to any part of the United States or the Canadas. Terms: My terms of treatment by letter are as follows, viz: \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance \$6 to be paid at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address

JAMES M. JARRETT, M. D., No. 329 Broadway, cor. Twelfth St., N. Y. P. S.—Physicians and other visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be seen and inspected. 11:2-5mo
