

**Corn and County.**

Election day passed off in this place without any very exciting incidents—and, except during the entire day, notwithstanding a lowering, threatening sky.

Married.—At the residence of the father on the 29th ult., by N. L. Reynolds, Mr. CHAS. L. HOYT, of Knoxville, Tioga Co. Pa., and Miss MARY daughter of Hon. G. G. COLVIN, ofingham, Potter Co., Pa.—Agitator.

The Fair.—A cursory examination of the articles and stock entered up to noon Wednesday, induces us to believe that the County Fair will equal, if not excel anything of the kind in this section of the State. Notwithstanding there is a falling, and the sky indicates a continuation of it, people are coming in from all sections of the county.

Making made inquiries in regard to the missing packages of the JOURNAL we find that in one instance the package was mis-directed by us, and in two of the other instances the failure was owing to the lateness of their publication one week—one day's difference in the publication making a week's difference in delivery at the proper post-office.—We have no desire to enlarge upon the small short-comings of the Buchanan

More and Better Corn.—The following from a much esteemed friend, will explain itself. The article referred to can be seen in our office:

SARAVIA, Potter Co., Pa., Oct. 5, 1858. S. CHASE, ESQ.: Dear Sir—At the request of Mr. Wm. M. I send you ten ears of corn, average specimens of a small crop raised on farm. Six of these ears have twelve each—the three smallest of them weighing over 540 grains to the ear. Mr. C. thinks his crop is but an ordinary one, and would not have spoken of it for your notice of Mr. Crosby's in your paper of last week.

Corn.—We were not a little surprised Friday morning on getting up to discover about one-half or three-fourths of each of snow laying on the boards and around us. We thought that Potomac was certainly ahead of "the rest" in this matter, but Saturday evening we received the New York dailies Friday evening, which contained the following telegram—knocking our "blow" into the middle of next week. Hornelsville can "take the blow."

The First Snow of the Season. HORNELSVILLE, N. Y., Thursday, Oct. 15, 1858.—Snow fell in this village last night to the depth of three inches. The snow, commencing at the lakes, extended along the Erie Railroad as far as Bend, and snow fell at almost all intermediate places.

All Pasture—October Buttery. We don't like to tell too many secrets; but when we say that October butter, if made, is the very best for Winter use of the whole season, we know what we are talking about. We say "rightly made," that is not simply in setting the milk, churning off the cream, churning and packing it, and then packing it down, depends, also, on keeping the cow dry while yielding her milk for the season. Some have a notion that mowings should never be Fall pastured. Such may be, or may not be. We think, however, that after the hay is cut off, and the meadow has lain open after showers of the season, provided it has a thick, close bottom, and not top-dressed since haying, and the grass has again got a good stocky growth, so good use can be made of that grass on the ground it grows on, as to feed with some sort of farm stock, which will be ready to have done, if at all, by the first of October. Then, if you have butter dairy cows, turn them in on the milk that is richer in cream than in the season, although the quantity of milk is less. The grass is fresh, and is off the grass in the morning, and before the frost melts or evaporates, the cows a snip of hay in the stables before they go out, and keep them all night, with a bite of hay before. Don't leave them in the field, they will not eat in a frosty night, and the milk will secrete less in the chilly season when under shelter. Then your cows are in a capital health and condition, and secrete milk uniform, and the quality of the best; and such milk must be good butter, if properly treated.

in the Spring. A good dairy cow should go dry about three months of the year, for she will bring you a better calf, and give more and better milk, on the average, for not being overworked.—American Agriculturist.

Letter from Mr. Sumner. The Boston Advertiser publishes the subjoined letter from the Hon. Charles Sumner to a gentleman of Boston:

Aix, SAVOY, Sept. 11, 1858. Look at the map of Europe, and you will find, nestling in the mountains of Savoy between Switzerland and France, the little village of Aix, generally known as Aix-les-Bains, from the baths which give it its name. There I am now. The country about is most beautiful, and the people simple and kind.

My life is devoted to my health. I wish that I could say that I am not still an invalid; but, except when attacked by the pain on my chest, I am now comfortable, and enjoy my baths, my walks, and the repose and incognito which I find here. I begin the day with douches, hot and cold; and when thoroughly exhausted, am wrapped in a sheet and blanket, and conveyed to my hotel and laid up in my bed. After my walk, I find myself obliged again to take to my bed for two hours before dinner. But this whole treatment is in pleasant contrast with the protracted sufferings from fire which made my Summer a torment. And yet I fear that I must return again to that treatment.

It is with a pang unexpressed that I find myself thus arrested in the labors of life and in the duties of my position. This is harder to bear than the fire. I do not hear of friends engaged in active service—like Trumbull in Illinois—without a feeling of envy.

CHARLES SUMNER.

**Just and Manly Sentiments.**

From an editorial letter by the Rev. John Duer, in the American Baptist, we extract the following correct views of Christian doctrine. Speaking of the superiority of practical righteousness over Church Ordinances he says:

"It has ever been a part of our belief that men could be saved without baptism, and equally so that unjust men, liars, swearers, &c., could not be saved; yet we have done vastly more to lead men to observe the ordinances than to be just and pure.

"We protest against thus excluding from the field of pulpit discussion the great sin of slavery. Millions of our fellow beings are suffering every outrage under it, and these wrongs must bring the just judgments of God upon us, as they did upon Pharaoh. The people in our churches are ignorant of the enormity of the crime (slavery), and still more ignorant of their duty in regard to it.—The subject is vastly more important than outward forms, which are useless until these inward principles are attained, as Christ has said, the first great commandment is, 'Thou shalt love the Lord thy God with all thy heart, and the second is like unto it, thou shalt love thy neighbor as thyself,' but he has not said, 'the second is thou shalt be baptized and observe the Lord's supper.'"

PLAIN TALK.—The Hon. Thaddeus Stevens, the People's nominee for Congress (Lancaster county) made a speech before the Convention and concluded, as follows:

If I should be elected, perhaps I may come in contact with the worthy President, who claims this city as his home; and oppose his measures and say something against him, but if saying that he is one of the meanest men that has occupied that place, in having violated all the pledges he has ever made, and that he is the greatest despot we ever had—fully equal to the most despotic of the Satraps of Asia, brings his displeasure upon me, then I shall say it. (Laughter and continued applause.)

CONSUL-GENERAL TO CONSTANTINOPLE.—The President has appointed Dr. James McDowell of Missouri, Consul-General to Constantinople. This gentleman is the oldest son of the late Gov. McDowell of Virginia.

**Teachers' Association.**

The next session of this Society will be held in the Court House at Coudersport, commencing on Monday, Jan. 15th 1858, and continuing five days. The days of the session will be devoted to Teacher's drills, which will be conducted by Teachers of known ability, while the evenings will be chiefly occupied with listening to Orations, Essays, Critical Reviews, Discussions, &c. Messrs. S. S. Greenman and Harlan Bird will deliver Original Orations. Misses Caroline Hawley and Jennie M. Lyman will read Essays, Rev. J. Hendrick, C. H. Allen Esq., and Miss Caroline, will read Critical Reviews of Brown's Weld's and Kenyon's Grammars. Arrangements will be made to render the expenses of those who may attend from a distance as light as possible. All friends of Education are cordially invited to favor us with their presence and aid, and all members of the Association are urgently requested to be present. W. A. MONROE, Secy. ULYSSES, Oct. 9, 1858.

**INFLAMMATION OF THE EYES**

Like all other inflammation, is caused by impurity of the blood, which causes all eruptive diseases, as Salt Rheum, Scabby Boils, Ulcers, &c. The blood being unhealthy, and of an impure nature, also occasions Dropsies. The blood becoming obstructed in the veins, the watery part of the blood in consequence is

thrown out from their extremities, and dropsy is the result. Many times it is occasioned by improper treatment of some former disease, and the vessels being filled by serous humors instead of blood. Free evacuations by these pills, open the passage into the bladder and carry off the corrupted humors, and renew them with pure and healthy blood, which will drive out of the body all inflammation, together with eruptions of the skin, and all dropsical complaints. They will be a shield to every form of disease to guard and keep you from the cold grasping hand of death, and cause life and strength to remain, and the countenance to brighten with the bloom of beauty and health.

"GET THE BEST."

**A NATIONAL STANDARD.**

Webster's QUARTO DICTIONARY. The entire work Unabridged.

"All young persons should have a standard Dictionary at their elbows. And while you are about it, get the best; that Dictionary is Noah Webster's—the great work, unabridged. If you are too poor, save the amount from off your back, to put it into your head."—Phrenological Journal.

From Professor Haven, of the University of Michigan. If called upon to sacrifice my library, volume by volume, the book which I should preserve longest, except the Bible, is the AMERICAN DICTIONARY OF THE ENGLISH LANGUAGE, BY DR. WEBSTER.

"Every farmer should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every mechanic should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon your table by the side of the Bible; it is a better expounder than many which claim to be expounders. It is a great labor saver; it has saved us time enough in one year's use to pay for itself; and that must be deemed good property which will clear itself once a year. If you have any doubt about the precise meaning of the word clear in the last sentence, look at Webster's thirteen definitions of the word.—Massachusetts Life Boat.

**OFFICIAL STATE RECOGNITION.**

Nearly every State Superintendent of Public Instruction in the Union, or corresponding officer, where such an officer exists, has recommended Webster's DICTIONARY in the strongest terms. Among them are those of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Ohio, Kentucky, Indiana, Illinois, Missouri, Michigan, Iowa, Wisconsin, Louisiana, California, North Carolina, Alabama, Minnesota, and also Canada.—TWENTY-THREE in all.

**STATE PURCHASES.**

New York has placed 10,000 copies of Webster's Unabridged in as many of her public schools. Wisconsin, 3,300—nearly every school. New Jersey, 1,500—nearly every sch'l. Michigan, 2,000, and made provision for all her schools. Massachusetts has supplied 3,580 schools—nearly all. More than ten times as many are sold of Webster's Dictionaries, as of any other series in this country. At least four-fifths of all the School-Books published in this country upon Webster as their standard, and of the remainder few acknowledge any standard. Published by G. & C. MERRIAM, Springfield, Mass.

**DYSPEPSIA AND FITS.**

DR. O. PHELPS BROWN, THE GREAT CURE OF CONSUMPTION, was for years so badly afflicted by Dyspepsia, that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young clairvoyant girl. This prescription, given him by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of Fits as of Dyspepsia. The ingredients may be found in any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage. Address DR. O. PHELPS BROWN, No. 21 Grand st., Jersey City, N. J. 7-3 mos., inside.

**BRANDRETH'S PILLS PURIFY THE BLOOD.**

Continued pain or uneasiness in any organ is generally cured by one or more doses of Brandreth's Pills. Thirty years' personal experience by the undersigned fully justify this assertion. Dr. James Lull, of Potsdam, N. Y., says:—"I have cured the deplorable costiveness of the bowels with Brandreth's pills, when every other remedy had failed, and the patient was given up to die. Skin diseases of an inveterate and painful character, such as erysipelas, salt rheum, tetter and summer-heat, I have seen eradicated by their use. I have cured the rheumatic, the epileptic, the paralytic and the consumptive with these excellent pills alone." In jaundice and all affections of the liver, dyspepsia, dysentery and diarrhoea, pruritus, scalding pains and inflammations, female obstructions, scorbutic and scrofulous, even gouty and neuralgic affections, have given way to the use of this medicine, and now, after twenty years' experience, my estimation of Brandreth's Pills continues to increase.

A young lady, beautiful and healthy, took cold, which caused a serious obstruction for two years; her health was broken down and her beauty departed. At length Brandreth's Pills were tried; eleven doses, of from two to four, were taken in fifteen days preceding the usual period. Regularity was restored, and her health and good looks recovered.

WORMS. Brandreth's Pills are the best vermifuge; they are infallible. A little child, six years old, for some weeks was drooping; his mother gave one of Brandreth's sugar coated pills, and the next day there came away a worm sixteen inches long, and as large as a child's finger. The child was well.

PLEURISY. A gentleman, away from home, was taken with pleurisy; the inflammation was terrible; every breath made him writhe with agony. Eight Brandreth's Pills were swallowed, and warm oil applied locally; the pills operated, and the pain was relieved; plenty of gruel was taken, and six more pills, and the second day the patient was cured.

These statements should have weight, and prevent the use of poisonous drugs, and stop the sad practice of bleeding. B. BRANDRETH, Office, 294 Canal street, Brandreth Building, at 25 cents per box, and the same sugar coated, 13 cents, warranted to keep as well as the plain. Sold also by SMITH & JONES, Coudersport.

**TO EVERY FEMALE IN THE UNITED STATES.**

MRS. MONTAGUE'S FEMALE CORDIAL. FOR THE CURE OF ALL THOSE PAINFUL DISEASES PECULIAR TO WOMEN.

Mrs. MONTAGUE, for many years afflicted with most of the diseases that are common to females, spending a large fortune in ten years in trying the different means of treatment for her relief, to no avail, was prevailed upon, by many of her friends to visit Cuba, December '48, for the purpose of regaining her former health. While there, she obtained a prescription from a Spanish Physician—

"Whose silver locks Were tending to the grave." With which, through the mercy of God, she was restored to her youthful health.

After her return she made known to hundreds of her female sufferers the effects of the remedy with equally as great success.

This extraordinary medicine is offered to the public for the relief and cure of all the painful and dangerous diseases peculiar to women, and that the female constitution is subject to.

To those suffering from Falling of the Womb or Uterine Weakness of any kind, the Female Cordial is especially recommended. It is warranted to cure this painful disease if persevered in.

In all spinal affections, pain in the region of the Pelvis, Lowness of Spirits, Hysteria, Sick-headache, and all those diseases arising from the peculiar formation of women, the Cordial will be found of an immense value.

This medicine moderates all excess, and removes all obstruction; it invigorates the debilitated constitution for the duties of life, and when taken in middle age proves a blessing. Modesty forbids us, in a public advertisement, to make full the details; but the wrapper around each letter will fully explain every case.

Merchants, females, or others, by sending a three cent stamp, can have any information respecting the operations of the medicine. Agents wanted in every village in the United States. Put up in half pint bottles; \$2.00 per bottle; 50 cent. off to the trade. All orders must be addressed to Dr. J. D. STONEROAD, (Sole Proprietor), Lewistown, Pa., Box 111. 11-1-1y.

A Card from Dr. James M. Jarrett of the New York Lung Infirmary.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivaled opportunities and advantages of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-Passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integuments. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjunct in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above disease, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaling Vapor, Medical Inhalers, &c., &c., will be forwarded by express to any part of the United States or the Canadas. Terms—My terms of treatment by letter are as follows, viz: \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance \$6 to be paid at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address

JAMES M. JARRETT, M. D., No. 820 Broadway, cor. Twelfth St., N. Y. P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be seen and inspected. 11-2-6mo.
