

Miscellany.

Give us More Mutton.

Mutton, we said; not that mass of thin, dry muscle, tough enough for raw rides, but a succulent offered to us in the shambles as the product of a sheep's carcass. The article, if designed for tiller tops, is admirably adapted to its office; but if designed for the table, it is a notable perversion of the gifts of Providence. We have quite enough of this article.

Wilmot's Vote.

It will be remembered that a mean party effort was made, by the Loco Foco leaders in Judge Wilmot's judicial district, last winter, to legislate him out of office, alleging that the people there did not want him. Well, the Republicans this fall renominated him for Judge, giving the people a fair chance to say whether he was the corrupt and incompetent man he was denounced to be.

Table with 3 columns: Name, Wilmot, Patrick. Rows include Bradford, Susquehanna, and totals.

Wilmot's majority only 4,530—over two to one—and 265 more majority than he had for Governor, on a heavier vote last fall.—Lewisburg Chronicle.

Among the most strenuous advocates of the outrage was the Locomotive Gazette and Clinton Democrat who professed to be deeply desirous that the afflicted people of that district should be relieved.

Mrs. Stowe's New Serial.—The reading public will be glad to learn that the story, entitled "The Minister's Wooing," commenced in the Atlantic Monthly for December, is the beginning of a serial novel from the pen of Mrs. Harriet Beecher Stowe, and that portions of it will appear from month to month until it is completed.

An Important Feature.—The great demand which exists for its graduates, and the high salaries which they command are the best possible guarantee of the practical and business value of those who attend the Iron City College.

Letters on Phonetics.—No. 3.

Perhaps some of our readers would be glad to see some of the curious changes that can be rung upon our alphabet. The word referred to in our last letter will afford us a clever specimen. One of the many million ways of spelling the word "scissors" is the following: schissors.

The Potter Journal.

COUDERSPORT, PA., Thursday Morning, Dec. 10, 1853. T. S. CHASE, EDITOR AND PUBLISHER.

Judge Douglas has been thrown off the Senate Territorial Committee, of which he was Chairman, and Greene, Mo., appointed in his place—by the special demand of President Buchanan. The bachelor's spite is beyond comparison.

A Good Fee.—The Crawford County Commissioners settled the account of S. N. Pettis, Esq., for his services as Attorney in the various cases growing out of the Railroad Bonds, on last Saturday, and drew an order in his favor on the Treasurer for \$4,452 40.—Exchange.

The municipal election in New York City, a week ago Tuesday, resulted in a complete triumph of the Republican Candidates. The vote for Controller stood as follows: Robert T. Hawes, Rep., 32,000; Russell, Am., 11,500; Pursler, Adm.-Dem., 18,000—a clear majority of 2,500 votes for the Republican Candidate.

Slavery Agitation.—The administration press throughout the country have always blamed the agitation of the "frenzied question" of Slavery in Congress and elsewhere, upon the "Black Republicans."

subject, and are determined that it shall be the subject of debate this winter. We are glad of it, and hope the Republicans will give it the attention it deserves now, when they can do so without incurring the charge of being the real agitators.

The President's Message.

Some men will go almost any length to acquire notoriety. Murders have been committed with no other object—suicides without number for no other reason than that the world might talk the self-destroyer's name into the newspapers.

The Presidency.

In our last issue we gave this subject some consideration, and promised to recur to it again. We then stated some reasons why a certain proposed ticket did not accord with our view, and we now desire to add one or two other reasons, as a text for which we give the following extract:

Wash. Do.—A correspondent of the Pittsburg Commercial Journal suggests the name of William H. Seward, of New York, as the Republican candidate for President in 1860, with James Pollock, of Pennsylvania, for Vice President.

strength by removing the supposed sectional features of the party. There is an interest, and a large one, at the South, of which slavery is not the cardinal principle, and its perpetuation the great and only object.

Freedom in Vermont.

The Green Mountain State has the honor of being the first in the Union to legislate efficiently, in opposition to the Dred Scott decision. We hope the day is not distant when our own Commonwealth will enact as good a law, and when no slave can be held in chains on our soil.

BUCKWHEAT AS FOOD.

Pierre has recently been making some investigations of buckwheat, from which we condense the following interesting result: Buckwheat cakes are equal to pure white bread as regards the phosphates or bone making material and nitrogenous principles which they contain, and are superior to bread in fatty matters.
