

# Colvin and County.

We desire to call the especial attention of landholders and others desiring the services of a first-class civil engineer, surveyor and draughtsman, to the card of C. L. Hoyt, of Bingham, who is a graduate of one of the best civil engineers in the State of New York, and whose letter of commendation he bears with him. Mr. Hoyt, we believe, resides with Judge Colvin, in Bingham township.

The Knickerbocker Magazine for March, is the only periodical as yet upon our table. Its contents are very good, and the illustrations are continued; we think they will add much to the popularity of the favorite of long-standing.

We have not yet been favored with a copy of the Atlantic Monthly, for March, though we perceive by our exchanges that it has been "out" several days, and the four or five subscribers we obtained for it, have received their copies. We may not have any claim upon it in regard to exchange, though for the life of us we cannot see why.

SUFFERERS from Scrofula and Scrofulous affections, clean up! Why wear your Pimples, Blotches, Ulcers, Sores? Why have the life twisted out of you by Dyspepsia, Rheumatism and Gout? Why suffer Syphilitic and Mercurial diseases to rot the bones in your body, or the flesh off your bones? Why let your sluggish blood drag, and scatter its distempers through your veins? AYER'S COMPOUND OF Sarsaparilla cures these complaints, and cleanses them out of the system. Use it faithfully and you bring to society a healthier, cleaner, and far more acceptable member.—*Democrat, Baltimore, Pa.*

### FERNET THE FREE SCHOOL SYSTEM.

The following is a "true copy" of a petition presented to the Legislature last week from Columbia county:

"Know all men by the present that all who since this pittissbau go in for to through out the superintend of schools witness our haunts and seels."

The legislature doubtless considered the source, and very properly threw the petition under the table.—*Harrisburg Telegraph.*

### BLOWING OUT A CANDLE.

There is one small fact in domestic economy which is not generally known, but which is useful as saving time, trouble and temper. If the candle be blown out holding it above you, the wick will not smoulder down, and may therefore be easily relighted again; but if blown upon downward, the contrary is the case.—*Scientific American.*

### Special Notices.

#### WHY WILL YOU DELAY?

Why will you neglect that disease which is taking such deep root, and which gives you warning by that hacking cough, that you are fast ripening for eternity? Why encourage that pain in the side, the raising of blood, those night sweats, or that difficult breathing, which silently whisps in your ear that something must be done to save you from the grave of the consumptive? Why act so carelessly by permitting that disease to destroy your health, and hasten you to the tomb from whence no traveler ever yet returned?

#### SILENCE THAT DREADFUL COUGH!

Or death must carry you to your silent grave. Why delay while there is yet hope? Consumption is caused by impure humors of the blood being deposited in the cells of the lungs. Hence, the lungs are like a spring of water, when rolled up by the dirt or mud, if clear water constantly flows through the springs, impurities or mud will be conveyed away by the pure water. Just so with the blood when kept in a clean or pure state; as it constantly flows through the lungs, it carries away all corrupt matter, and perfect health will be the result. From two to four Pills taken every night or every other night, or enough to keep the bowels regular will in a reasonable time cure consumption. The reason these pills are used more than all others, is because they are made of purifying vegetables, and cleanse the body from all corrupt matter, and drive out disease of every description, quicker and in a milder way than any other Pills.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.

### The American Trades Company.

was organized November 8, 1857, with a Capital of one hundred thousand dollars. This Company was formed with a view of taking up inventors of small articles of general utility, who are unable to make independent arrangements for introducing their inventions, by their rights by purchase out and out, or by a tariff on the articles manufactured and sold. The inventive genius of this country has long called for an institution of this kind. The American mind is so active, that thousands of things are invented, many of which would be really useful to the community, but which are never introduced, because the inventors of them have no means to carry them out. The capital of this Company will be devoted to the development of really useful inventions. The Company have a Committee on Patents, whose duty it is to pass upon all applications, and from their large experience in such matters Inventors have a security that their inventions will not be misjudged; and the high character of the parties composing that Committee is a sufficient guaranty that plans and specifications may be submitted before patents are applied for, without any risk of advantage being taken of this circumstance, and when desired to do so, the Company will take out patents for others, securing for the inventor all of his invention that is patentable. This Company respectfully invite inventors to submit to them their plans; and it will be furthering the objects of the Company if its officers and agents can be of any service to them.

Any one of the following modes is acceptable to this Company:

First: To manufacture any articles for which their machinery is adapted by contract. The inventors receiving the articles and paying for the same on delivery.

Second: They buy any patent which is approved of by their committee.

Third: They will manufacture and sell any article which they choose to adopt, giving to the inventor such a proportion of the profits as may be agreed upon.

The extensive building, No. 22 and 24 Frankfort-st., New York, being about 60 feet front by over 100 feet deep, and 7 stories high above the sidewalk, is owned by the President of the Company, and is occupied in part by the machinery, warehouse and offices of the Company, where all its business and sales are transacted.

### The American Trades Comp'y.

What they manufacture.

THE AMERICAN SMOKER, Consisting of a great variety of unique and beautiful patterns of Cigar Tubes; also, several varieties of Pipe Tubes. The peculiarity about these articles is that each one is arranged so as to receive a damp sponge, through which the smoke of the burning cigar has to pass on its way to the mouth. This damp sponge not only cools the smoke, but extracts from it the nicotine oil, the poisonous property of the Tobacco, which renders the breath less offensive. Smokers will find the use of these Tubes a luxury never before attained except by using the Turkish water-jar. Their use will also greatly promote the health of the habitual smoker and preserve the sweetness of the breath.

### THE AMERICAN CARPET HOOK.

Is a little contrivance for putting down carpets without tacks. This is a new article, which has never before been upon the market. But it possesses the merit of enabling a person to put down or take up a carpet of the largest size in general use in fifteen minutes, without any injury to the floor or carpet. It is very cheap—cheap in the long run than tacks—and does not require any glue, which even a servant can take up and put down carpets, without the possibility of a mistake, renders it invaluable to the housekeeper.

THE AMERICAN PEN HOLDER & WIPER. It is a neat invention for holding a wet sponge, into which the pen is thrust, always coming out clean and ready for use. A very convenient article for the Counting-House Desk and Library Table. 11-29

The American Smoker is an article of great utility and benefit to Smokers. Persons afflicted with Bronchitis, Asthma, Dyspepsia, Liver complaints or Kidney affections, can procure Sponges Medicated for these various diseases by Old Dr. Thompson. Sold by THE AMERICAN TRADE COMPANY, Nos. 22 and 24 Frankfort-st.

### Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, STYPLIUM AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOUBLEDUEX, DEBILITY, DYSENTERIA AND INDIGESTION, ENYSEPLASIS, ROSE ON ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flooded the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Price, \$1 per Bottle; Six Bottles for \$5.

### Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Do not be put off by unprincipled dealers with cheap preparations they make more profit on Demand Ayer's, and take no others. The sick want the best aid there is for them, and they should have it.

### TO EVERY FEMALE IN THE UNITED STATES.

MRS. MONTAGUE'S FEMALE CORDIAL. FOR THE CURE OF ALL THOSE PAINFUL DISEASES PECULIAR TO WOMEN.

Mrs. MONTAGUE, for many years afflicted with most of the diseases that are common to females; spending a large fortune in ten years in trying the different means of treatment for her relief, to no avail, was prevailed upon by many of her friends to visit Cuba, December 48, for the purpose of regaining her former health. While there, she obtained a prescription from a Spanish Physician— "Whose silver locks Were tending to the grave." With which, through the mercy of God, she was restored to her youthful health.

After her return she made known to hundreds of her female sufferers the effects of the remedy with equally as great success.

This extraordinary medicine is offered to the public for the relief and cure of all the painful and dangerous diseases peculiar to women and that the female constitution is subject to.

To those suffering from Falling of the Womb or Uterine Weakness of any kind, the Female Cordial is especially recommended. It is warranted to cure this painful disease if persevered in.

In all spinal affections, pain in the region of the Pelvis, Lowness of Spirits, Hysteria, Sick-headache, and all those diseases arising from the peculiar formation of women; the Cordial will be found of an immense value.

This medicine moderates all excess, and removes all obstruction; it invigorates the debilitated constitution for the duties of life, and when taken in middle age proves a blessing. Modesty forbids us, in a public advertisement, to make full the details; but the wrapper around each letter will fully explain every case.

Merchants, females, or others, by sending a three cent stamp, can have any information respecting the operations of the medicine. Agents wanted in every village in the United States. Put up in half pint bottles; \$2.00 per bottle; 50 per cent. off to the trade. All orders must be addressed to Dr. J. D. STONEROAD, (Sole Proprietor), Lewistown, Pa., Box 111. 11-1-57.
