

Column and County.

Flour is going up, up, up!—in price. See our Price Current. We trust there will be no occasion for it to go up any higher—however fast eaters may put it down.

The place to buy good and cheap Goods in Coudersport, is at Stebbins'. He sells "piles" of them, and at reduced prices, and you can depend upon getting good bargains at his store—at least, "they say" so. All you have to do is to call and convince yourselves that this is so. You will find "the Boys" on hand, ready and willing to show the Goods, whether you wish to buy or not.

The Iron City College, Pittsburgh, Pa., has done more in three years to popularize the science of accounts, than any other institution in the country. Advertisers the most extensively—pays the most liberal salaries—employs the best talent—gives the most thorough and practical education to graduates, and is rewarded by having the largest institution of the kind in the Union, numbering at this time upwards of 350 students.

Philadelphia sent two new weekly papers to our table last week. The *Red, White and Blue*, a blood and thunder paper, except as a moral-extinguisher, the character of which is expressed in its name, is before us. Also, *The Pennsylvania State Journal*, an eight-page paper, which is of a different character and gives better promise of good results. We welcome it to our table, as we believe that the promises of the initial number are not of a vain character.

Having been the first to give publicity to a rumor that Mr. Cobb, late of the *Agitator*, was about to transfer his talents to the *Century*, we take pleasure in publishing the following denial, made upon his authority we presume, regretting, on behalf of readers of the *Century*, the necessity of our doing so:

CONNECTION.—A statement to the effect that the late editor of this paper, Mr. H. Cobb, Esq., has transferred his labors to the *Century*, is being extensively copied by our exchanges. We are authorized to say that no foundation whatever exists for this rumor. Mr. Cobb has not yet transferred his labors to any paper.—*Times Agitator*, March 3.

RAISING DEER.—Some of the farmers of Northern Ohio, and on the borders of Indiana, have commenced the breeding and raising of deer the same as they do sheep, and they bring them to market in the same manner; hence the abundance of venison.—*Exchange*.

There is a suggestion in the above for deer-breeder farmers of Potter county, where we have so many wild deer, by which they can, by beginning now, prevent the "running out" of so valuable an animal to city epicurians. Our farmers should feed deer on their farms, which they would fatten and kill for the city markets. Besides, they could then do the winter work of their farms before it is time to commence Spring and Summer work—which latter course is the natural consequence of scouring the woods for wild deer. There are other reasons, (which we do not room now to state,) why herding deer would be advantageous to the farmers of Potter county.

The Weather.—Spring has fairly opened—say our weather seers and signifiers—and sugar-makers are busy with their work. The weather is tolerably good for the business, but the crop will probably be as large as last season. That which we have already tasted indicates no decrease in the quality of the sugar. May's crop reach last year's figures, is our best wish.

Members throughout the county—the branches of the Allegheny and Susquehanna both—are "rafting-in," building racks, and in other respects getting ready to start for market. Log-haulers are withdrawing their teams, and are anxiously awaiting an opportunity to change their location to "log-driving." The "log" of logs will not be more than half as large as last year; and the "run" of logs will fall considerably below last year's—but we hope the price will make up for the deficiency in quantity.

P. S.—Mad in the streets of our village, as deep as that all efforts to find sugar have failed. A sugar-snow fell last night, and was accompanied with frost enough to render the mud unworkable for teams, except those which necessarily on the road.

In the legislative proceedings of the county, among "petitions presented," the following:
Dr. MANN, one from citizens of Potter county for an alteration in the law regulating the collection of poor tax.
One from same, for a change in the law in said county.

Also, one from same, asking that the act approved the 8th of May, 1854, authorizing the school directors of the counties of Chester and Delaware to select sites for schools, be extended to the county of Potter.

Also, one from same, asking for the repeal of the act approved April 20, 1858, regulating the sale of intoxicating liquors.

Same day, Mr. MANN read in place a bill to authorize the school directors of Potter county to select sites for school houses.

On the 3d inst., Mr. CAMBELL, from the Committee on Vice and Immorality, reported, as committed, an act supplementary to an act regulating the sale of intoxicating liquors, so far as relates to Potter county. We trust Mr. MANN will call this bill up and secure its passage at once.

Let us that will be free from the accursed law of 1858, have our liberty immediately.

The "American Presbyterian" Defended.

For the *Potter Journal*.
FRIEND CHASE—Dear Sir: Justice to the *American Presbyterian* impels me to make the following statement, which, with your consent, I wish to have published: When that piece upon "Divorces in Northern Pennsylvania" made its appearance, the editors of that paper were informed of its incorrectness, and advised to make some retraction. This they cheerfully did in their next issue. Their article should have been handed in, but was neglected, and now the paper containing it cannot be found in my file; and no wonder, as I am habit of giving away my papers. But as near as I can remember, it went off like this: "Glad that it is not so bad as was represented; regret that there is any cause for such a report; that it looks well on the part of the people to repel the slander;" and concluded by saying, "We agree with the *Potter Journal* in..." here followed a sentence on slander, founded upon the 9th commandment, which I do not remember. Perhaps some one will yet forward the article.

I thought the *American Presbyterian* fully acquitted itself, and this may satisfy the other correspondent, whose piece was returned, as it was unnecessary to publish both, and doubtless mine arrived first. H. B. BURN.

[We publish the above with pleasure, while, at the same time, we cannot acquit the editors of the *Presbyterian* entirely; inasmuch as it was their duty to have sent us a copy of their paper containing their notice, which we would have republished here out of courtesy to them as well as justice to our citizens who were so vilely slandered through its columns. The editors were also discourteous to Mr. Brown, in taking neither public or private notice of his communications. They ought at least to have recognized them explanatorily in their newspaper, or by a private note to their author.—ED. JOUR.]

THE BOWELS AND THEIR FUNCTIONS.

As perfect health is the greatest blessing that we can enjoy, without which all other blessings are of little consequence, we deem it of great importance to point out the way for you to enjoy it. The bowels must be kept in a state by which they are enabled to carry off the useless matter; they are the main channel by which nature has appointed to carry away that which is unnecessary. And it is impossible to tell what a large amount of sickness has been caused by constipation, or costiveness; in other words, by not keeping the bowels regular; it is the cause of unnatural irritation of the mucous membranes of the bowels. Having lost their natural strength, they cannot object to what is required of them. Hence, the bowels become inflamed, and unless you find a speedy relief a thousand other complaints are ever ready to drag you through a miserable and wretched life. Such medicines must be given as will cleanse the stomach and bowels, and restore their natural strength. To accomplish this there is no compound so valuable as these Pills; all other medicines sink to utter insignificance when compared to them; it seems as though the Author of Nature had designed them for this as well as all other complaints. From two to five Pills a day will increase strength and appetite, and cleanse the stomach and intestines from whatever is injurious.

The American Trades Company, was organized November 8, 1857, with a Capital of one hundred thousand dollars. This Company was formed with a view of taking up inventors of small articles of general utility, who are unable to make independent arrangements for introducing their inventions, by an equitable arrangement with them for their rights by purchase out and out, or by a tariff on the articles manufactured and sold. The inventive genius of this country has long called for an institution of this kind. The American mind is so active, that thousands of things are invented, many of which would be really useful to the community, but which are never introduced, because the Inventors of them have no means to carry them out. The Capital of this Company will be devoted to the development of really useful inventions. The Company have a Committee on Patents, whose duty it is to pass upon all applications, and from their large experience in such matters Inventors have a security that their inventions will not be misjudged; and the Committee is so sufficient guaranty that plans and specifications may be submitted before patents are applied for, without any risk of advantage being taken of this circumstance, and when desired to do so, the Company will take out patents for others, securing for the inventor all of his invention that is patentable. This Company respectfully invite inventors to submit to them their plans; and it will be furthering the objects of the Company if its officers and agents can be of any service to them.

Any one of the following modes is acceptable to this company:
First: To manufacture any articles for which their machinery is adapted before contract, the inventor receiving the articles and paying for the same on delivery.
Second: They buy any patent which is approved by their committee.
Third: They will manufacture and sell any article which they choose to adopt, giving to the inventor such a proportion of the profits as may be agreed upon.
The extensive building, No. 22 and 24 Frankfort-st., New York, being about 60 feet front by over 100 feet deep, and 7 stories high above the sidewalk, is owned by the President of the Company, and is occupied in part by the machinery, warehouse and offices of the Company, where all its business and sales are transacted.

The American Trades Comp'y
What they manufacture.
THE AMERICAN SMOKER,
Consisting of a great variety of unique and beautiful patterns of Cigar Tubes; also, several varieties of Pipe Tubes. The peculiarity about these articles is that each one is arranged so as to receive a damp sponge, through which the smoke of the burning cigar has to pass on its way to the mouth. This damp sponge not only cools the smoke, but extracts from it the nicotine oil, the poisonous property of the Tobacco, which renders the breath less offensive. Smokers will find the use of these Tubes a luxury never before attained except by using the Turkish water-jar. Their use will also greatly promote the health of the habitual smoker and preserve the sweetness of the breath.

THE AMERICAN CARPET HOOK.
Is a little contrivance for putting down carpets without tacks. This is a new article, which has never before been upon the market. It possesses the merit of enabling a person to put down or take up a carpet of the largest size in general use in fifteen minutes, without any injury to the floor or carpet. It is very cheap—cheaper in the long run than tacks—and the great facility with which even a servant can take up and put down carpets, without the possibility of a mistake, renders it invaluable to the housekeeper.
THE AMERICAN PEN HOLDER & WIPER.
Is a neat invention for holding a wet sponge, into which the pen is thrust, always coming out clean and ready for use. A very convenient article for the Counting-House Desk and Library Table.
11-29

The American Smoker is an article of great utility and benefit to Smokers. Persons afflicted with Bronchitis, Asthma, Dyspepsia, Liver complaints or Kidney affections, can procure SPONGES MEDIATED for these various diseases by Old Dr. THOMP. Sold by THE AMERICAN TRADE COMPANY, Nos. 22 and 24 Frankfort-st.

TO EVERY FEMALE IN THE UNITED STATES.
MRS. MONTAGUE'S FEMALE CORDIAL,
FOR THE CURE OF ALL THOSE PAINFUL DISEASES PECULIAR TO WOMEN.
Mrs. MONTAGUE, for many years afflicted with most of the diseases that are common to females, spending a large fortune in ten years in trying the different means of treatment for her relief, to no avail, was prevailed upon by many of her friends to visit Cuba, December '48, for the purpose of regaining her former health. While there, she obtained a prescription from a Spanish Physician—
"Whose silver locks
Were tending to the grave."
With which, through the mercy of God, she was restored to her youthful health.

After her return she made known to hundreds of her female sufferers the effects of the remedy with equally as great success. This extraordinary medicine is offered to the public for the relief and cure of all the painful and dangerous diseases peculiar to women, and that the female constitution is subject to, from the suffering from "Prolapsus Uteri," "Leucorrhoea," "Amorrhoea," "Menorrhagia," "Dysmenorrhoea—Chlorosis," a speedy cure can be obtained.
To those suffering from Falling of the Womb or Uterine Weakness of any kind, the Female Cordial is especially recommended. It is warranted to cure this painful disease if persevered in.
In all spinal affections, pain in the region of the Pelvis, Lowness of Spirit, Hysteria, Sick-headache, and all those diseases arising from the peculiar formation of women, the Cordial will be found of an immense value. This medicine moderates all excess, and removes all obstruction; it invigorates the debilitated constitution for the duties of life, and when taken in middle age proves a blessing. Modesty forbids us, in a public advertisement, to make full the details; but the wrapper around each letter will fully explain every case.
Merchants, females, or others, by sending a three cent stamp, can have any information respecting the operations of the medicine. Agents wanted in every village in the United States. Put up in half pint bottles; \$2.00 per bottle; 50 per cent. off to the trade. All orders must be addressed to

ANNOUNCEMENT EXTRAORDINARY!
No Humbug.
A LADIES' FASHIONABLE FURNISHING STORE IN POTTER COUNTY.
MRS. E. H. N. GRIDLEY has established a fashionable and extensive Ladies' Furnishing Store, at Ulysses, Potter Co., Pa., three miles West of Lewisville, where she will take pleasure in furnishing Millinery, Mantua-making, and Ladies' Apparel generally, in better style and at much lower rates than ever before offered in this county. Mrs. G. receives the fashions from New York regularly, and is therefore enabled to make or repair Bonnets, &c., in the latest style and with unexceptionable taste and durability. All articles warranted to be as represented. She desires the public to call and assure themselves of the correctness of her statements.
Messrs. Larabee & Co., will receive and supply orders to customers at Lewisville.
T. E. Gridley will receive and promptly fill orders, throughout this and the adjoining counties, at shop prices.
Special arrangements made for Holiday supplies.
In connection with the above, T. E. GRIDLEY would announce to the public of Potter and the adjoining counties, that he will regularly visit them, prepared to furnish all articles of Female and Male Attire, and Family Goods in general, warranted to be precisely as
