| of her population, or the real grandeur of England in the variety and growing free- dom of her mighty industry? Indeed, dom of her mighty industry? Indeed, the best state must.be that which ofers the broadest field for the devclopment of the active energies of its citizens; which is distinguished for the variety and vigor of its iudustrial professions; and where it is casiest for every man to obtain the post in which his peculiar genias may find scope in creatise toil. <br> Free labor is the test of national supe-riority-not so much on account of what it produces, as for its results on the citi- zen. For ouly in such a condition of affairs can man receive the true education of all his pareers, and use his circumstances for the building ap of his manhood. Hence although the quantity and quality of production is an cridence of a prosperous people, yet a more striking proof is the effect of ths work on the population itself.
