Horticultural.

From the Pittsburg Christian Advocate.

New Rochelle, or Lawton Blackberry.

DEAR DOCTOR—We furnished you an article *last spring on the above-named fruit, giving an account of its origin, characteristics* of the plant and fruit, the soil to which it is adapted, its season of bearing, and its extraordinary productiveness. The past season has done much to establish the reputation of this remarkable fruit. Wherever it has been cultivated, as far as we have heard, it has not only given entire satisfaction, but exceeded all that has been said in its favor. Many who at first looked on it with distrust, fearing it was another *Morus-multicaulis humbug*, and would not touch it, are now convinced of its great worth, and are going into its cultivation very extensively. It has been satisfactorily tested in this neighborhood, and most triumphantly sustained its high reputation. A great number of persons visited our grounds last summer during the fruiting season, among whom were not a few of those who were avowed unbelievers in it, and without a single exception, they were amazed and delighted with the vigor of the plants and the size, productiveness, lusciousness and beauty of the fruit, and affirmed that, though so much had been said in its praise, the half had not been told.

As this fruit is not only very palatable and wholesome—being generally regarded as medicinal—but can be devoted profitably to so many different purposes, the market will hardly ever be overstocked. A writer in the New York *Tribune* says five hundred acres of plants are needed in the immediate neighborhood of that city to supply the daily demand for berries.

As it was thought by some that we were extravagant in our praises of this fruit in our last article—though we were sustained by such men as Charles Downing, and eminent Pomologists of the country,—we ask the privilege of giving in this article the testimony of a few of those who have seen it in fruit during the past season—gentlemen who are every way competent to judge of its character, and whose opinions will be received as satisfactory wherever they are known.

William Addison, M. D., one of our best judges of fruits, thus speaks of it:

"In company with some friends I visited the farm of Mr. Knox last summer for the purpose of seeing the New Rochelle Blackberry in fruit, about which a great deal has been said, and against which I entertained a prejudice. It is but just to say that this prejudice has been completely removed. To the previous marvelous tales told in reference to this fruit I had listened with stolid indifference. To be perfectly frank, I did not believe a word of them. But, to be equally honest now, that opinion I had formed in ignorance is entirely changed. I found on Mr. Knox's grounds such a display of fruit as I was not prepared for, and but express the universal opinion of the company, that to all lovers of fruit this is an immense stride in the way of improvement.

"All who are familiar with the wonders cultivation will work will not be at all surprised at what may be effected by the intelligent labor of years; but here is a fruit that has suddenly attained an excellence that is truly wonderful.

"The New Rochelle Blackberry is not only a most delicious fruit, but a prodigious bearer. I cut off a branch about eighteen inches long, on which I counted seventy-six berries, all perfectly formed, and of extraordinary size and beauty.

"Those who had the privilege of examining this fruit on Mr. Knox's grounds are unanimous in their opinion that it has not been overpraised, and that in order to be appreciated it must be seen hanging on the plants in its abundant, rich and beautiful clusters."

M. W. Jacobus, D. D., Professor in the Western Theological Seminary, says:

"Last summer I went to see the celebrated New Rochelle, or Lawton Blackberry, in bearing. I found them altogether surpassing my expectation—the stalk tall and rank, hanging full of the largest berries, in all the various stages of ripening; and the yield was truly wonderful. I learned from a friend who had planted a small plot in the neighborhood, that they required very little care, and were constantly coming on through the season, so as to furnish the most prolonged supply.

"The berry is sometimes misjudged by being plucked as soon as it is black, without being allowed sufficient time to thoroughly ripen. If taken off prematurely it is sour; but when perfectly mature it is as LUSCIOUS AS IT IS LARGE.

"I am entirely satisfied that no fruit in our market will so amply reward cultivation—and in every garden a few of these roots would supply the table with a healthful and relishable berry, that needs only to be known to be valued everywhere."

The editor of the Pittsburg *Chronicle* gives the following notice of it:

"THE NEW ROCHELLE BLACKBERRY.—Accompanied by some gentlemen from the city, we yesterday paid a visit to the farm of Rev. Mr. Knox, In Lower St. Clair township; and though we had heard much of the success which had attended his culture of the New Rochelle Blackberry, and were consequently prepared to see it in a high state of perfection, we must confess that it more than met our anticipations; and that in size, yield, and flavor, it far excelled anything we had heard or read of it.

The New Rochelle Blackberry was first introduced here by Mr. Knox. He put down but a few plants at first, but their immense yield, and the superior quality of the berry, convinced him that it was just the thing for this district; and the following year, at a very great outlay, he set several acres of the plants. The result is easily told. Coming up to his warmest anticipations, he is now able to supply our market with this very desirable and beautiful berry in large quantities, and at a time, too, when Strawberries are not to be had, and Raspberries are out of date.

The blackberries grown by Mr. Knox are nearly as large as Plums, unusually sweet and palatable, and hang in most bountiful profusion on the bushes. On one small vine alone there were some six hundred berries—some green, others red, more almost ripe, and not a few fit for gathering. They begin to ripen early in July, and continue in season six or seven weeks, thus furnishing a delicious substitute for the Strawberry and Raspberry, to either of which they are not a whit inferior. They are said to be admirably adapted for preserves, and make excellent wine—their juicy nature rendering them in this latter particular unusually productive. They have become a great favorite in the market; and as the plant is an exceedingly hardy one and a heavy producer, we do not see why every man possessed of a piece of ground should not have his "New Rochelle Blackberry patch. It would furnish him a delicious berry in the season, and the surplus he might send to market, where they will ever command a remunerative price."

We have abundance of other testimony of a like character, and could say even more in its praise than we have; but let every one who has a piece of ground, if only large enough for a single plant, try it for himself, and he will be amply repaid.

Pittsburg, Pa., Feb. 22, 1859. J. KNOX.

WIFE, MISTRESS AND LADY.—This paragrph from the German most happily hits the attributes of wife, mistress and lady. It is just as true as writ:

"Who marries for love takes a wife, who marries for consideration takes a lady. You are loved by your wife, regarded by your mistress, and tolerated by your lady. You have a wife for yourself, a mistress for your house and its friends, a lady for the world. Your wife will agree with you, your mistress will accommodate you, your lady will manage you. Your wife will take care of your household, your mistress your house, your lady of appearances. If you are sick, your wife will nurse you, your mistress will visit you, your lady will inquire after your health. You take a walk with your wife, ride with your mistress, and join parties with your lady. Your wife will share your grief, your mistress your money, and your lady your debts. If you are dead, your wife will shed tears, your mistress lament, and your lady wear mourning."

LETTER FROM A BOARDING-SCHOOL MISS.—*Dear Mar:*—I am now being teached the Spanesh langwuage I wich my tutor says I learn it with grate fasility, ive improved amazingly in the english sints ive bin here I i speke and rite the real new stile now? and my compositshons are being very much admired among the pupils of the school. i come within won of getting the medle for being the best english scollar at the clothes of the last quarter, and i shood a done it but i was bein sick a bedd and couldent attend to my studys for a hole week? and so good behyndhand. buy the buy Mar! what shockin bad english yew do right! ime ashamed to sho yewr letter to the missesses among my akwaintainces for instents you say wile the wotter was bilin the other day etceterah and so forth now yew shood say wile the wotter was bein bilte—par too rites just as inkorreckly for instents he says in his letter french guds are fallin very fast instead of saying franch guds are bein fell. ime really shocked that you and hee dont keep paice with the march of modern improvement. but Ime bein called this minit to excite my spanesh lesson, so i must wind off. i superscribe miself your affectionate dawter.

PICTURES OF SLAVERY.

IN PRESS, and will be published January 15, 1859.

THE ROVING EDITOR;

OR,

Talks with Slaves in the Southern States:

BY JAMES REDPATH, of Kansas.

One neat vol., 12mo., 375 pp., Illustrated. Price $1.

This book is a narrative of three journeys afoot, between Washington and New Orleans; contains lengthy reports of confidential conversations with the slaves in Virginia, the Carolinas, Georgia, Alabama and Louisiana; lively descriptions of social Southern and plantation life; a graphic sketch of adventure in Missouri; and the most searching and thorough and reliable investigation of American slavery ever published in our country. The author has given a full and and fearless report of slave sentiment—a thing never hitherto attempted in America. Let every one who would know what Southern slavery is—slavery as seen by the slaves—read this volume of their oral evidence, and startling record of their hopes and future designs.

As to the author's skill as a writer, it will be seen that extremes have met and agree:—

"Redpath could not be dull, or tame, or slavish if he were to try: he has not an idle bone in him and if eccentric and humorous, 'tis all for humanity. He has a rare mind and nature: both full of grit, and will war against wrong and tyranny with all their might."—*Hon. J. C. Vaughn, in Leavenworth Times.*

"A vigorous writer."—*St. Louis Republican.*

"A d——d rascal, but the best writer we ever had out west."—*Gen. Stringfellow.*

DENTISTRY.

H. M. SHEERAR, Dentist, of Wellsville, Allegany Co., N. Y., respectfully announces to the people of Potter and the adjoining Counties in Penn'a, that he is permanently established in Wellsville, and is prepared to perform the various operations in Dentistry. Especial attention is solicited to his style of inserting ARTIFICIAL TEETH, superior to any other style known, called "Allen's Continuous Gum." All work warranted. Letters of inquiry promptly answered.

Nov. 10, 1858. H. M. SHEERAR.

CAUTION.

Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Morse's Indian Root Pills, signed *A. B. Moore.* All genuine Indian Root Pills have the name and signature of *J. J. White & Co.*, on each box.

...we present you with a likeness of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon the vital fluid.

When the various passages become clogged and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every nature; our strength is exhausted, our health wasted and destroyed, and nature is not assisted in throwing off the stagnant humors, the blood will become clotted, and cease to act, and then our hope of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasing to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely root out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot exist when the body becomes [illegible]

[illegible] people are so distressed when sick, and [illegible] so many die, is because they do not get a medicine which will [illegible] to the afflicted parts, and which will open the [illegible] passages, so the disease can be [illegible] a large quantity of food and other matter [illegible] lodged, and the stomach and intestines [illegible] clean, in the corrupted [illegible] fermentation [illegible] the blood, which throws corrupted matter through every vein and artery, until life is taken from the body by disease. Dr Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

Sold by SMITH & JONES, Coudersport; also by all Medicine Dealers in the county. A. J. WHITE & CO. Sole Proprietors, No. 50 Leonard St., New York: WM MUDGE & CO., (proprietors of Dr. A. Trask's Magnetic Ointment,) Earlville, Madison Co., N. Y., General Agents. 10:6–1y.

HOWARD ASSOCIATION,

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, several years ago directed their Consulting Surgeon, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE.

The Directors of the Association, in their late Annual Report express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermatorrhœa, Seminal Weakness, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or Self-Abuse, Disease of the Kidneys and Bladder, &c., and order a continuance of the same plan for the ensuing year.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, will be sent by mail, (in a sealed envelope,) FREE OF CHARGE, on receipt of TWO STAMPS for postage.

Address, for Report or treatment, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa. [11:24–1y.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and incisive.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY

DR. J. C. AYER & CO.

LOWELL, MASS.

Sold by SMITH & JONES and D. W. SPENCER, Coudersport; COREY & SON, Ulysses; A. B. HORTON, Cushingville; MANN & NICHOLS, Millport; C. H. SIMMONS, Oswayo, and by all Merchants and Druggists. [11:28

Eyes Open! Ears Open!

RIGHT ABOUT FACE!

HO! all ye that hath ears, let him hear, and he that hath eyes, let him come and see the wonders being done in Wellsville, the City of Tanneries, and especially at the Old Regulator, where thirty-two men and seven boys are wanted to work fifteen hours every day, (Sundays excepted,) and he that hath no money come! Bring a board, bring a shingle, bring a hog, bring a geese, bring a deer, bring a hide, bring a mink, bring a pelt, bring your butter—bring what you like, you shall not be turned empty away because you have not the filthy lucre to buy your bread. Thus endeth the first lesson. CLARK & PHILLIPS.
20.

EVERYTHING bought and sold at the Old Regulator, except Gas, Gas, Scandal and Blarney. Soft Soap and Soder, at sixpence a pound, must be had at *Some* Brothers, at *Some* Brothers, in this town.
20 CLARK & PHILLIPS.

CLARK & PHILLIPS render their thanks to all the good people of this Commonwealth for their most liberal patronage, and they do tender their *special* thanks to their competitors and any others, for their gentle barking for all time, concocted falsehood for all time, envy and jealousy; for no doubt it was meant for evil, but has proved our good. So go ahead. The more the better.
20 CLARK & PHILLIPS.

FLOUR, PORK and Beans, Horse Feed, Corn Meal, Oats, Shorts enough to supply a small nation, at the Old Regulator.
20 CLARK & PHILLIPS.

NO CHARGE FOR SHOWING THE NEW Goods just received at OLMSTED'S.

A PRIZE FOR EVERYBODY!

WHO SUBSCRIBES FOR THE

New York Weekly Press,

A BEAUTIFULLY

ILLUSTRATED

FAMILY NEWSPAPER!

IN LEWISVILLE,

ready to wait upon Customers.

N. B.—We have come to the conclusion that "READY PAY" is better for all parties, and we shall therefore do business on this system.

D. L. & M. H. DANIELS.

Ulysses, Nov. 4, 1858.–16tf.

MILLPORT HEAD-QUARTERS.

THE subscribers take this method of informing their friends that they are in receipt of, and are now opening, a choice and desirable stock of

STAPLE AND FANCY DRY GOODS,

to which they invite the attention of all who desire to make purchases. Our stock is large, has been selected with great care, and is particularly adapted to the wants of this section of our country. Our stock of Dry Goods consists of

DRESS GOODS, TRIMMINGS, RIBBONS,
EMBROIDERIES, PARASOLS,
CLOTHS, CASSIMERES,
VESTINGS, DOMESTICS,
SHIRTINGS,
LINENS, PRINTS,
HOSIERY, SHAWLS,

and a variety of other articles, too numerous to mention. We have also a complete assortment of

GROCERIES, HARDWARE AND CROCKERY;

all of which will be sold uncommonly cheap for ready pay, and for approved credit on reasonable terms as any other establishment.

MANN & NICHOLS.

Millport, Aug. 11, 186.—9:13 ly.

Z. J. THOMPSON,

CARRIAGE & WAGON MAKER, and REPAIRER, Coudersport, Potter Co., Pa., takes this method of informing the public in general that he is prepared to do all work in his line with promptness in a workman-like manner, and upon the most accommodating terms. Payment or Repairing invariably required on delivery of the work. ☞All kinds of PRODUCE taken on account of work. 1:33
