

Edwin and County.

COUDERSPORT, JUNE 9, 1859.

Messrs. Hull & Burt are preparing to give a grand Ball at their new Hotel in Coudersport on Independence Day. Tickets will be for sale by them on Saturday, June 12, at \$2.

Making and flying kites seems to be the predominant occupation of our "Young America" at the present time, and some are very successful in sending them up towards the heavens—yes, verily, much higher than their thoughts are likely to venture. However this may be, the winds are favorable, and a well-down kite looks grandly beautiful in its aerial wanderings.

We learn that upon invitation of a number of the ladies of this place, Mrs. E. H. N. Gridley will open her Millinery establishment in the store formerly occupied by L. F. Maynard in this place, to continue through Court Week. Persons desiring to purchase bonnets cheap and have them trimmed to their own taste, or get all cases done over cheaper than ever before, will have an opportunity at that time. The comes by earnest solicitation, and will doubt do well.

Farmers should remember the Agricultural meeting on Tuesday evening of Court week. It will be an important one, and should be well attended.

We trust, also, that the Temperance meeting on Monday evening of Court will not be forgotten. An able speaker will be secured; but the main object is to get a comparison of notes from the different sections of the county, through a free-and-easy expression from all who have anything to say.

The Scientific American.—The publishers of this widely circulated and popular journal of mechanics and science, announce that it will be enlarged on the 1st of July and otherwise greatly improved, containing sixteen pages instead of eight, the present size, which will make it the largest and cheapest scientific journal in the world. It is the only journal of its class that has ever succeeded in this country, and maintains a character for authority in all matters of mechanics, science and the arts, which is excelled by any other journal in this country or in Europe. Although the publishers will incur an increased expense of \$8000 a year by this enlargement, they have determined not to raise the price of subscription, relying upon their friends to indemnify them in this increased expenditure by a corresponding increase of subscribers. We trust that mechanics and others interested in so useful a journal, will exert themselves to aid in the realization of the publishers' expectations.

Destructive Fire at Germania.—We regret to learn that a week ago Tuesday a very destructive fire occurred at Germania, the settlement of the Pennsylvania (German) Land Association in Coudersport township, this county. The fire broke out in a house belonging to Wm. G. Grier and occupied by a German, whose name we did not learn, who escaped out of a window, the fire having originated, it is believed, in the cellar, and is supposed to have been the work of an incendiary. He lost about \$1,000 worth of household furniture. The fire extended to another house, a stable, and the store recently occupied by Mr. Andrew Jackson, (formerly of this place), all of which were destroyed. We learn that the total loss was about \$8,000,—a large share of which will be borne by the Company.

Notwithstanding this fire occurred a week ago, and we have made strenuous efforts to inform ourselves of the particulars, we are only able to get hold of the above reports. Our friends throughout the county will do us and the reading public a great favor by furnishing us by letter with the particulars of all events of interest occurring in their neighborhoods, and it is in this way only that country editors are enabled to keep up with their information. Had some of our friends at Germania furnished us with the detailed particulars of the fire by last Saturday's mail, we could have sent out to the reading world an account of it which could have been depended upon; but, as it is, we are compelled to notice the simple fact and rely upon our own judgment in sifting information from flying reports.

Long to be Remembered.—the freeze of Saturday night. All day Saturday the wind blew coldly over, and, be it remembered, that on the 4th day of June, SNOW FELL at Coudersport, though sufficient to be perceptible in the morning. The sky was cloudy until after dark, when the clouds hastily departed, leaving

a bright clear sky and a bitter cold atmosphere for gardeners and farmers to "dream on." And Sabbath morning! Oh, fearful morn! and long to be remembered for these scenes of devastation then apparent. A combined frost and bitter winter-like freeze had cut down crops of all kinds, even to the best protected hot-beds in our village. As far as we have been able to gather information up to this time, (Tuesday), we learn that the entire crops and fruits of this and the adjoining counties are cut off, and the hardest trees and shrubbery considerably injured.

This is a severe drawback upon our farmers, and will be likely to cause pinching times next fall and winter. We trust however, that so far as is practicable, our farmers will replant their corn and other summer crops. Be not disheartened by the disaster, but go to work determinedly that you may retrieve at least a part of the loss.

WEDNESDAY.—Since the above was written, we learn from the telegrams to the New York papers of Monday, that the frost extended through the State of New York, and northern Ohio—doing great damage to fruits and growing crops generally.

A heavy thunder storm occurred here Tuesday night, and a steady rain is still falling this morning, which is calculated to give new courage to farmers, by reviving their grass and grain crops, and resuscitating the corn that was not killed at the root, of which we learn there was considerable. All vegetables so fortunate as not to be above ground before the freeze will now come forward rapidly.

THE AMERICAN TRADES COMPANY. What they manufacture. THE AMERICAN SMOKER. Consisting of a great variety of unique and beautiful patterns of Cigar Tubes; also, several varieties of Pipe Tubes. The peculiarity about these articles is that each one is arranged so as to receive a damp sponge, through which the smoke of the burning cigar, has to pass on its way to the mouth. This damp sponge not only cools the smoke, but extracts from it the nicotine oil, the poisonous property of the tobacco, which renders the breath less offensive. Smokers will find the use of these a luxury never before attained except by using the Turkish water-jar. Their use will also greatly promote the health of the habitual smoker and preserve the sweetness of the breath.

THE AMERICAN CARPET HOOK. Is a little contrivance for putting down carpets without tacks. This is a new article, which has never before been upon the market. But it possesses the merit of enabling a person to put down or take up a carpet of the largest size in general use in fifteen minutes, without any injury to the floor or carpet. It is very cheap—cheaper in the long run than tacks—and the great facility with which even a servant can take up and put down carpets, without the possibility of a mistake, renders it invaluable to the housekeeper.

THE AMERICAN PEN HOLDER & WIPER. It is a neat invention for holding a wet sponge, into which the pen is thrust, always coming out clean and ready for use. A very convenient article for the Counting-House Desk and Library Table.

THE AMERICAN TRADES COMPANY, was organized November 8, 1857, with a Capital of one hundred thousand dollars. This Company was formed with a view of taking up inventors of small articles of general utility, who are unable to make independent arrangements for introducing their inventions, by an equitable arrangement with them for their rights by purchase out and out, or by a tariff on the articles manufactured and sold. The inventors of this country have long called for an institution of this kind. The American mind is so active, that thousands of devices are invented, many of which would be really useful to the community; but which are never introduced, because the inventors of them have no means to carry them out.

COURT PROCLAMATION. WHEREAS the Hon. Robert G. White, President Judge, and the Hon. Joseph Mann and G. G. Colvin, Associate Judges of the Courts of Oyer & Terminer and General Jail Delivery, Quarter Sessions of the Peace, Orphans' Court and Court of Common Pleas for the County of Potter, have issued their precept, bearing date the eleventh day of June, in the year of our Lord one thousand eight hundred and fifty-nine, and to me directed, for holding a Court of Oyer and Terminer and General Jail Delivery, Quarter Sessions of the Peace, Orphans' Court, and Court of Common Pleas, in the Borough of Coudersport, on MONDAY, the 20th day of June next, and to continue one week.

Notice is therefore hereby given to the Coroners, Justices of the Peace and Constables within the county, that they be then and there in their proper persons, at 10 o'clock A. M. of said day, with their rolls, records, inquiries, examinations, and other remembrances, to do those things which to their offices appertain to be done. And those who are bound by their recognizances to prosecute against the prisoners that are or shall be in the jail of said county of Potter, are to be then and there to prosecute against them as will be just.

Dated at Coudersport, June 11, 1859, and the 83d year of the Independence of the United States of America. A. C. TAGGART, Sheriff.

CHEWING TOBACCO, Important Improvement. In putting up FINE CUT CHEWING TOBACCO, has been adopted by Messrs. E. GOODWIN & BRO., of New York City.

TOBACCO, OF THE BEST QUALITY, is selected, neatly wrapped in TIN FOIL, and PATENT PRESSED. The great advantages of this over other brands consist in the size of the packages, rendering it more convenient to carry in the pocket, and being PRESSED SOLID it keeps MOIST and FRESH, and improves in quality as it is used; while in other brands, as soon the package is opened the quality rapidly deteriorates—the tobacco growing dry—and littering the pocket to the great annoyance of the consumer. The Dressing which which the Fine Cut Tobacco undergoes in the process of manufacture, frees it from all grit or impurities so objectionable in the use of Plug Tobacco. Chewers will do well to give the Patent Pressed a trial, and judge for themselves.

For sale by H. WESTCOTT & Co., who receive it direct from the Manufacturers. [32-44.] E. GOODWIN & BRO., 207 & 209 Water street, New York.
