Scrofula, or King's Evil is a constitutional disease, a corruption of the blood by which this fluid becomes vitiated, weak, and poor. Being in the circulation, is pervades the whole body, and may bent out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously enused by mercurial disease, low living, diordered or unhealthy food, impure hir, fifth and filthy habits, the depressing vices, and above all, by the venereal infection. What ever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions most only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrolulous in their nature, are still rendered fatal by this mint in the system. Most of the consumption which decimates the human family has its origin directly are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com hined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Egueriva and Skin Diseases, Sr. Anthony's Fire. Rose, or Envirence, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and Salt Rheum, Scald Head, Ringworm, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPLY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITLA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in ruth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid without which sound health is impossible i contaminated constitutions.
