

Agricultural.

We invite original local articles in this department, believing that the publication of observations and experiments in regard to the Agricultural and Horticultural peculiarities of this region will mutually benefit our farmers. *Ed. JOURNAL.*

What the Birds Do.

Farmer, read over the list given below of what a few families of birds are doing every day for the public good, and then say honestly whether you don't know several fellows in your neighborhood going about with their guns who lately not serving the community as well as the little feathered families, celebrated by Mr. C. M. Clay, of Kentucky, in the following article, which he communicated to the *Country Gentleman* of Albany, from which we take it. Twenty-five billions of caterpillars and insects destroyed in one year on a single farm of thirty acres is a pretty good year's work. That period many well-known men, so from doing any public or private good, really spreading mischief by their presence—are they not?—quite equal in value to the benefits conferred by the given insects of the beautiful and useful birds. *Ed. JOURNAL.*

At daybreak I estimate that four hundred songsters break forth into one grand billion of winged song on my thirty acres of fruit and pleasure grounds. Among these I note the catbird, the thrush, the blue, black, and red birds, the bell martin, the dove, lark, and quail, the sparrow and humming bird, robin and jay, the house wren and barn swallow, and many varieties of orioles, woodpeckers, sapsuckers, &c. To-day, my mind ranging upon the use of birds, I look my position about fifteen feet from the nest of an oriole, built in the top of a peach tree twelve feet high, to observe their habits. The nest is formed of blades of blue grass, worked into basket form on the limbs of the peach tree acting as braces. This variety has the female of a dusky bluish yellow—the male black-headed and blackish wings, with a brick-dust or robin red breast color on the breast and sides. There are four young ones well fledged, which every now and then stand upon the edge of the nest and try their wings. I lay upon the green sward a long time and observed the movements of the parents, with my watch in hand. They made a visit about every four minutes, on an average, varying in time from two to six minutes. They would light upon the black locust-tree, the vine, the grass, and other places, clinging at times to the most delicate and extreme point of the leaves. I observe plainly green and brown grasshoppers, caterpillars, and smaller flies; sometimes one and sometimes as many as six were plainly fed to the young ones, whose heads I could see above the nest. They would also carry back the refuse matter from the nest, dropping it fifty or more yards off, which some thing I saw the brown thrush, which has a nest in a climbing rose about forty yards off, also doing; they having four young ones.

2 birds making a visit every 3 minutes—1 in 2.
90 minutes divided by 2—30 visits in an hour.
4 worms on an average—120 worms to the hour.
6 working hours—720 a day.
200 pairs on the ground—1,000 a day.
200 pairs in 30 days—4,200,000 a month.
200 pairs in 3 months—353,600,000.
300 pairs old ones, do, by 2—707,200,000.
400 crows, do, by 3 do.—1,414,400,000.
400 do, eating 4 times, by 4—5,657,600,000.
Crows and birds together—3,364,800,000.
Double the estimate of birds and crows, which I think fair on my farm, and we have 6,364,800,000—25,459,200,000.
That is to say, twenty-five billions four hundred and fifty-nine millions and two hundred thousand caterpillars and other insects destroyed in one year! If these estimates seem large, we must remember that the circulation and respiration of birds are extremely rapid; and of the consumption of food rapid in proportion.
Here is no 'sickly sentimentality,' plain economical facts, based upon observation. Shall we spare the crows and other birds a little corn and fruit; or shall we kill them, and revive the famines of the East and the ravages of other days? Shall we fire on them in the morning, or join in their universal jubilation?

SMUT—PICKLING SEED—WHEAT. Smut in wheat is caused by a parasitic fungus, which breaks out on the ear and fills the starch and gluten of the grain, and fills it with a fetid black powder. Smut is usually caused by sowing seed to which, though invisible, the spores of the fungus are attached, and the remedy for the evil consists in destroying these spores before sowing the seed wheat. Moistening the grain with chamber lye, and then drying it with quick lime, is perhaps the oldest and most popular English remedy. Salt and water instead of lye is also used, drying the wheat with lime as in the former case. But the best remedy yet discovered is to wash the seed wheat with a solution of blue vitriol (sulphate of copper). For each bushel of seed, dissolve about three ounces of blue vitriol in one quart of hot water. Let it cool before using. Spread the wheat out on a floor about six inches thick, and sprinkle the solution equally over it, and then mix thoroughly with shovels until the wheat has acquired a uniform degree of dampness. It will be ready for sowing in two or three hours, but it is better to perform the operation a day or two before sowing. When treated in this way, lime should not be used, as it decomposes the vitriol and does harm rather than good. *Genesee Farmer.*

MORE CONNECTICUT WHEAT.—The sample of wheat mentioned in the note below is composed of short, plump grains, apparently thin skinned and white; and we should think it worthy of attention from those disposed to grow wheat in a district where wheat-growing has been interrupted for many years, under the impression that the wheat-producing quality of the soil was exhausted. But if such a soil as the one described will produce forty bushels per acre, it is certainly worth while for Connecticut farmers to try what can be done at raising crops of wheat upon better soil.

Windsorville, Conn., July 25, 1859.
I send you a small sample of wheat I have raised this year from imported seed, yielding about forty bushels to the acre, on land not manured or any fertilizers used—the Napoleon wheat. *J. H. B. WORTH.*
It would have been more satisfactory if Mr. Pillsbury had stated whether this was Spring or Winter wheat. It looks like the latter.
Washington, D. C., July 25, 1859. It is quite a common custom for carmen and hostler to "founder" noble horses, by the erroneous practice of dashing of cold water on their legs when they are dirty. In regard to this practice Sir George Stephens the eminent veterinary surgeon says, "Wherever it is necessary to wash horses' legs, do it in the morning. Most groomers, acting on a different principle, wash them as soon as the animal comes in. I am convinced this is a bad practice. When the roads are dirty, and the weather wet, and the legs already soaked, washing can do no harm; but to drench the legs with water the moment a horse enters the yard, heated with exercise, is to my mind, as unnatural and absurd as to jump into a shower-bath after playing an hour at cricket. My plan is, rubbing down with straw and a dry brush, and the next morning wash as clean as soap and water can make them. Pick and wash the soles as soon as the horse comes in."
We publish the following for the encouragement of our farmers. It is extracted from a letter to the *Cleveland Herald* from Turcarawas Co., Ohio, respecting the condition of the crops in that section. He says:
"I saw yesterday some wheat, as good as ever grew, that had been killed by the frost, that blossomed again, producing four grains in a row, of fine plump kernels as ever grew, yielding, it is supposed, from thirty to forty bushels to the acre."
GREAT YIELD OF RYE.—Samuel Ewing, Esq., of Buffalo Valley, informs us that he this year, gathered on his farm in Buffalo township, from one kernel of Rye, eleven stalks, from which he shelled out seven hundred and fifteen grains—averaging 65 grains to each head, the highest number being 70, and the lowest 56. An increase of 714 per cent, as over Scripture measure—but you see the real old Buffalo in Union county is the place. *Lewisburg (Pa.) Chronicle.*

The papers that are in the habit of pitching into everything are the easiest edited in the world. It is only well-weighed and matured editors that possess that wisdom and true independence which consists in refusing to "pitch in"; that magnanimity which can withstand a public clamor, that can scorn personalities, and that can treat public questions with dignity and soberness equal to secure respect for the press. *—Erie Observer.*
A hachelor says, "a woman will cling to the chosen of her heart like a fly to a 'Catechism-alive,' and you can't separate her without snapping strings no art can mend, and leaving a portion of her affections on the upper leather of your soul. She will sometimes see something to admire; and when loudness is once fastened on a fellow, it sticks like a penny-stamp to an eyelid, or a tax-gatherer to your house door."
RAILROAD WESTWARD.—Engineers have started on a survey of the Kansas Central Railroad. This road extends from Wyandotte, at the junction of the Kansas with the Missouri river, to Fort Riley. The entire distance is one hundred and fifty miles. This is the first railroad survey west of the Missouri river, and constitutes another link in the great railroad chain that shall, ultimately, link the States on the Pacific to their elder sisters upon the Atlantic.

NEW JEWELRY STORE.
R. H. BUTTERWORTH having located himself in this Borough, in the store of J. B. SMITH, on the corner of Second and Main streets, has opened a JEWELRY ESTABLISHMENT, for the purpose of REPAIRING WATCHES, CLOCKS, and JEWELRY.
Having some years' experience in the business, I feel confident in giving the public GENERAL SATISFACTION. The patronage of the public is solicited. Please give me a call. All work warranted or no pay.
A general assortment of Watches, Clocks and Jewelry on hand and for sale. Coudersport, June 30, 1859.—48.

Auditor's Notice.
NOTICE is hereby given that the Auditor appointed by the Court to make distribution of the proceeds of the sale of real estate in the case of Warren Carter vs. W. T. Jones, No. 174, June Term, 1859, and in the case of Paul & Taylor vs. W. T. Jones & A. F. Jones, of Sept. Term 1859, No. 144, will attend to the duties of his appointment at the Office of the Prothonotary in Coudersport, on Saturday, the 13th day of August next at one o'clock, P. M. All persons interested in the said distribution, will attend promptly at said time and place, fully prepared if possible to present and substantiate their claims without unnecessary adjournment or delay.
H. J. OLMSTED, Proth'y. Coudersport, July 29, 1859.—48.

FARRIERY.
DR. W. HAWKINS, Veterinary Surgeon, would respectfully inform the inhabitants of Coudersport and its vicinity, that he has located himself at the House of D. F. Glassmire, where he will be pleased to treat all cases incident to that noble animal, the Horse. Horses' tails put up in the latest and most approved principles. Castration skillfully performed.
Office to S. M. Mills, D. F. Glassmire and N. J. Mills. [46-17]

BOOK STORE:

Main above Third St., COUDERSPORT, PA. M. W. MANN, Proprietor.

- BOOKS, MAPS, GLOBES, BLANKS—DOCKETS—LEDGERS—DAY-BOOKS—RECEIPT-BOOKS; MEMORANDUMS, PASS-BOOKS, DIARIES, PORTFOLIOS, HERBARIUMS, LETTER-BOOKS & INVOICE-BOOKS; Greek, Latin, French and German Text-Books. All School Books used in the County kept on hand, or immediately procured when desired. Magazines or any Periodicals supplied when desired. A good assortment of Paper, Envelopes, Pens and Inks. Also, of Wall-Papers, Drawing Materials, Water Colors, &c. BIBLES, TESTAMENTS, PRAYER & HYMN BOOKS, of various kinds. MUSIC-BOOKS AND SHEET-MUSIC. States, Rulers, Back-Gammon Boards Chess Men, &c., &c. [11-34]

To Housekeepers.

SOMETHING NEW.—B. T. BABBITT'S BEST MEDICINAL SALERATUS. Is manufactured from common salt, and is prepared entirely different from other Saleratus. All the deleterious matter extracted in such a manner as to produce Bread, Biscuit, and all kinds of Cake, without containing a particle of Saleratus when the Bread or Cake is baked; thereby producing wholesome results. Every particle of Saleratus is turned to gas and passes through the Bread or Biscuit while Baking; consequently nothing remains but common Salt, Water and Flour. You will readily perceive by the taste of this Saleratus that it is entirely different from other Saleratus. It is packed in one pound papers, each wrapper branded, "B. T. Babbitt's Best Medicinal Saleratus; also, picture, twisted loaf of bread, with a glass of effervescing water on the top. When you purchase one paper you should preserve the wrapper, and be particular to get the next exactly like the first—brand as above. Full directions for making Bread with this Saleratus and Sour Milk or Cream Tartar, will accompany each package; also, directions for making all kinds of Pastry; also, for making Soda Water and Seidlitz Powders. MAKE YOUR OWN SOAP, WITH B. T. BABBITT'S PURE CONCENTRATED POTASH. Warranted double the strength of ordinary Potash; put up in cans—1 lb., 2 lbs., 3 lbs., 6 lbs. and 12 lbs.—with full directions for making Hard and Soft Soap. Consumers will find this the cheapest Potash in market. Manufactured and for sale by B. T. BABBITT, Nos. 68 and 70 Washington-street, New York, and No. 28 India-street, Boston. [11-34-17-3]

WHO SELLS THE AMERICAN SMOKER? WHY EVERY DRUGGIST—AND CIGAR DEALER— If they don't now, they will hereafter. Don't fail to engage one. THE CALUMET OF PEACE! THE CALUMET OF PEACE! THE CALUMET OF PEACE! WHAT IS IT? WHERE IS IT? IT IS THE AMERICAN SMOKER. See advertisement. QUIET NERVES, QUIET NERVES! NO EXCUSE FOR NERVOUS HUSBANDS. HUSBAND GO BUY THE AMERICAN SMOKER. THIS IS TO BE THE ORDER OF THE DAY. From every wife who has a smoking husband—and no good husband who wants to have peace in the family will fail to obey the order. [11-29] See advertisement. See advertisement.

Special Notice to the Ladies. SUMMER FASHIONS. MRS. GRIDLEY tenders her thanks to the citizens of Potter and adjoining counties, for their generous patronage. She would say to the public, that she has on hand a splendid assortment of Millinery Goods, which she will sell retail or wholesale at the lowest rates, especially to those in the trade, at a small advance from N. Y. prices. All orders promptly attended to. P. E. GRIDLEY will deliver Bonnets to any place ordered. Bleaching and Repairing done up in the latest style, with taste. The large quantity of work to be "done over" will be delivered at the earliest moment. Ladies please call or send in your orders. Shop located 3 1/2 miles west of Lewisville. E. H. N. GRIDLEY. Ulysses, May 3, 1859.—38.

HO, YE HUNGRY!! WM. H. KILGORE would inform the citizens of Coudersport and vicinity that he has established a MEAT MARKET in the Basement of J. B. Smith's Store, where he will supply the public with Fresh Beef and Mutton every Tuesday and Friday morning, and Fresh Venison whenever practicable. By low prices, promptness and regularity he hopes to deserve and receive a liberal patronage. Coudersport, June 27, 1859.—45-1mo.

Auditor's Notice. NOTICE is hereby given that the Auditor appointed by the Court to make distribution of the proceeds of the sale of real estate in the case of Jacob Head vs. N. J. Dike, of June Term, 1857, No. 219, will attend to the duties of his appointment at the Office of the Prothonotary in Coudersport, on Monday, the 15th day of August next, at one o'clock, P. M. Those interested will attend if they think proper. H. J. OLMSTED, Proth'y. Coudersport, July 20, 1859.—48.

PLASTER for sale by P. A. STEBBINS.

The American Trades Comp'y

What they manufacture. THE AMERICAN SMOKER. Consisting of a great variety of unique and beautiful patterns of Cigar Tubes; also, several varieties of Pipe Tubes. The peculiarity about these articles is that each one is arranged so as to receive a damp sponge; through which the smoke of the burning cigar has to pass on its way to the mouth. This damp sponge not only cools the smoke, but extracts from it the nicotine oil, the poisonous property of the Tobacco, which renders the breath less offensive. Smokers will find the use of these Tubes a luxury never before attained except by using the Turkish water-jar. Their use will also greatly promote the health of the habitual smoker and preserve the sweetness of the breath.

THE AMERICAN CARPET HOOK. Is a little contrivance for putting down carpets without tacks. This is a new article, which has never before been upon the market. But it possesses the merit of enabling a person to put down or take up a carpet of the largest size in general use in fifteen minutes, without any injury to the floor or carpet. It is very cheap—cheaper in the long run than tacks—and the great facility with which even a servant can take up and put down carpets, without the possibility of a mistake, renders it invaluable to the housekeeper.

THE AMERICAN PEN HOLDER & WIPER. It is a neat invention for holding a wet sponge, into which the pen is thrust, always coming out clean and ready for use. A very convenient article for the Counting-House Desk and Library Table. [11-29]

The American Trades Comp'y was formed with a view of taking up inventors of small articles of general utility, who are unable to make independent arrangements for introducing their inventions, by an equitable arrangement with them for their rights by purchase and out, or by a tariff on the articles manufactured and sold. The inventive genius of this country has long called for an institution of this kind. The American mind is so active, that thousands of things are invented, many of which would be really useful to the community, but which are never introduced, because the inventors of them have no means to carry them out. The capital of this Company will be devoted to the development of really useful inventions. The Company have a Committee on Patents, whose duty it is to pass upon all applications, and from their large experience in such matters inventors have a security that their inventions will not be infringed; and the high character of the parties composing that Committee is a sufficient guaranty that plans and specifications may be submitted before patents are applied for, without any risk of advantage being taken of this circumstance, and when desired to do so, the Company will take out patents for others, securing for the inventor all of his invention that is patentable. This Company respectfully invite inventors to submit to them their plans; and it will be furthering the objects of the Company if its officers and agents can be of any service to them. Any one of the following modes is acceptable to this Company: First: To manufacture any articles for which their machinery is adapted by contract, the inventors receiving the articles and paying for the same on delivery. Second: They buy any patent which is approved by their committee. Third: They will manufacture and sell any article which they choose to adopt, giving to the inventor such a proportion of the profits as may be agreed upon. The extensive building, No. 22 and 24 Frankfort-st., New York, being about 60 feet front by over 100 feet deep, and 2 stories high above the sidewalk, is owned by the President of the Company, and is occupied in part by all the machinery, workroom and offices of the Company, where all its business and sales are transacted.

IN EVERY BODY'S MOUTH! IN EVERY BODY'S MOUTH! IN EVERY BODY'S MOUTH! WHAT'S IN EVERY BODY'S MOUTH? WHAT'S IN EVERY BODY'S MOUTH? WHY 'THE AMERICAN SMOKER.' WHY 'THE AMERICAN SMOKER.' STUDDED WITH DIAMONDS. STUDDED WITH DIAMONDS. WHAT'S STUDDED WITH DIAMONDS. WHY, PRESIDENT BUCHANAN'S AMERICAN SMOKER, which has been ordered by THE AMERICAN TRADE COMPANY, 22 & 24 Frankfort Street, New York.

THE NEW PLUS ULTRA SWING MACHINES. THE PATENT LEVER SEWING MACHINE, MANUFACTURED BY THE GLOBE MANUFACTURING COMPANY, 339 Broadway, New York. May be truly regarded as the "new plus ultra" of sewing machines, and all who are wishing to find a Machine which is capable of doing any kind of sewing for Tailors and Housewives, with a satisfaction heretofore unknown, should lose no time in ordering one of the PATENT LEVER MACHINES, which are so constructed as to occupy a position towards other sewing Machines that a Patent Lever Watch (and everybody knows its value) occupies towards a Lapid or any other second rate watch. This Machine makes the "Lock Stitch," which looks like a regular hand-made stitch, and cannot be ripped. PRICE \$50. In all respects equal to machines heretofore sold at a hundred dollars and upwards. Specimens of work done by the PATENT LEVER MACHINE, will be forwarded to any part of the country, upon receipt of a postage stamp. N. B. An energetic and reliable agent is wanted in every town and village of the United States and Canada to sell the above named machine. An advantageous arrangement will be made with the right kind of merchant who is willing to have the exclusive agency. Address: *Globe Manufacturing Company, 11-30, 339 Broadway, N. Y.*

TAKE NOTICE! If you want to get your Watches or Clocks put in good running order, take them to DAYTON'S. You will find him on hand to do your work on short notice, and in a workmanlike manner, at No. 2, PHENIX BLOCK, opposite Parmelee's Drug and Book Store. Jewelry neatly repaired, and work done on short notice, cheap for cash. JOHN B. DAYTON. Wellsville, April 17, 1859. 40-5mo.

Ayer's Sarsaparilla

Above we present you with a likeness of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country. It was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased, thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sulfuriferous, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectoant, that opens and unblocks the passages to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear. Hence, when people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which is the blood. Therefore, it will be shown especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

CAUTION: Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Dr. Morse's Indian Root Pills, signed A. J. Morse. All genuine Pills will hereafter have the name and signature of B. LAKE JUDSON, (successor to A. J. White & Co.), on each box. All orders and letters relating to said Pills must be addressed to WM. JUDGE & CO., (proprietors of Dr. A. Trask's Magnetic Oil, &c.) Earlville, Madison Co., N. Y. General Agents for Dr. Morse's Indian Root Pills. B. LAKE JUDSON, (successor to A. J. White & Co.), 50 Leonard Street, New York, Sole Proprietor. Sold by SMITH & JONES, Coudersport, also by all Medicine Dealers in the county. 10-46-17.

HOWARD ASSOCIATION, PHILADELPHIA. A Benevolent Institution, established by special endorsement for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases. THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, several years ago directed their Consulting Surgeon, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. The Directors of the Association, in their late Annual Report, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermatorrhoea, Seminal Weakness, Gonorrhoea, Gleet, Syphilis, the vice of Onanism or Self-Abuse, Disease of the Kidneys and Bladder, &c., and order a continuance of the same plan for the ensuing year. An admirable Report on Spermatorrhoea, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, will be sent by mail, (in a sealed envelope), FREE OF CHARGE, on receipt of TWO STAMPS for postage. Address, for Report or treatment, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa. [11-24-17.

DR. J. C. AYER & CO. LOWELL, MASS. Ayer's Cherry Pectoral, has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recite the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need do more than assure the people its utility is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills, FOR THE CURE OF Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Flat Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetters, Tumors, Salt Rheum, Worms, Gout, Neuralgia, as a Diarrhoeic Pill, and for Purifying the Blood. They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic. Price 25 cents per Box; Five Boxes for \$1.00. Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC, which they give with all full descriptions of the above complaints, and the treatment that should be followed for their cure. Do not be put off by unprincipled dealers with other preparations that make more profit on Demand Ayer's, and take no others. The sick want the best aid there is for them, and they should have it. All our Remedies are Sold by SMITH & JONES, and D. W. SPENCER, Coudersport; COBBY & SON, Ulysses; A. B. HORTON; Cushingville; MANN & NICHOLS, Millport; C. H. SIMMONS, Oswayo; and by all Merchants and Druggists. [11-28]
