ANTHONY'S FIRS, and indeed the whole class of complaints arising from Impurity or

vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tel you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves fluch, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparation pretending to be concentrated extracts of it contain but little of the virtue of Sarsavarille

Daring late years the public have been mis-led by large bottles, pretending to give a quant of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa, rilln, but often no curative properties whaterer. Hence, bitter and painful disappointment has followed the use of the various extracts of

Sarsuparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
