

Agricultural, &c.

The Sheep and his Food.
The sheep, in a state of nature inclines to the hills, and in a domesticated state prefers the hilly lands, and in such localities will live and thrive where no other animal except the goat can. In winter the keeping of sheep costs comparatively less than that of cattle, as they need only sheds for shelter and will live on coarse fodder, two pounds of hay or its equivalent being sufficient per day for each sheep. There is no doubt of sheep being the best stock to bring up worn out lands, as they scatter their manure more evenly on the surface of the lands, and it causes the finer grasses to grow, and on hilly and rocky land, where manure cannot be applied, they are decidedly the best stock to keep in heart, and they kill out the brain and bushes on the pastures on which they are kept. No animal, it is contended, will return as much to the land in proportion to what it takes off as a sheep; and it is a rule that the greater part of the crop of the farm should be consumed at home, except in cases where manure is bought. With this class of stock, much depends on the object the farmer has in view, as to the choice of breeds. If wool is desired, the Spanish Merinos, or some of the sub-varieties are best; near a market where mutton is of more consequence, the English breeds are more profitable.

I have succeeded well by crossing the Pular Merino with the common sheep, and with Cotswold and South downs. The result was an increase and improvement in wool and weight of carcass. I imported the Panolar and Monteko Merinos, as reported by Col. Humphrey, the best sheep, all things considered, that have been introduced into this country. So far as my knowledge extends, they have proved the most hardy and consume the least food, compared with the English breeds, and the crosses have produced mutton equal to the best. There is no doubt at the present time that mutton can be produced at the present prices in market, at a greater profit than any other meat. Clover hay is more profitable for sheep in the winter than any other, especially to breeding ewes. Rowen or alfalfa may be fed to this part of the flock especially before dropping their lambs, as it enables the ewes to supply a larger supply of milk. Turnips and roots of various kinds, cut fine and mixed with wheat bran, mill-feed oats and buckwheat are fed with good results. Experiments have proved that wheat bran, at a rate of one pound to each per day, fed morning and evening to ewes with lambs, is one of the best kinds of food to produce a flow of milk. It produces no feeble action, is nutritious, and seems to exert a specific influence in producing milk. Chemical analysis shows that the fattening qualities of wheat are mostly contained in the bran. Corn whether whole or ground, I consider so far as food for ewes with lambs, and so far as milk is concerned, fed in any quantity, is dangerous. Where the farmer is feeding for mutton, corn fed whole or in a ground state, in moderate quantities, mixed with other food, and oat turnips, I consider as good and profitable.

In all cases let us return to the true principles of agricultural economy,—that he who produces the most at the least expense is most deserving, and the sheep that returns the greatest profit is the most valuable.

Amer. Stock Journal.

A SECOND DANIEL COME TO JUDGMENT.—I am not aware of any statute or code of morals which makes it infamous to forgive a woman.—*Daniel E. Stickle's Letter.*

Does he know of any statute or code of morals which makes it infamous to forgive a man?—*N. Y. Evening Post.*

OREGON HAS AGREED ON A STATE SEAL. Besides its name, there are on it an eagle, the words "The Union—thirty-three stars mounted in back ground, an antlered elk, an emigrant woman, a retreating British man-of-war, and an advancing American steamer.

The first American woman who ever went ashore in Japan was Mrs. Bailey, wife of Captain Bailey, of Philadelphia, master of ship Mary Ellis. She was surrounded and followed by a large crowd of Japanese, but all their movements were perfectly respectful.

AN OLD SNAKE.—On Monday Mrs. Hopewell Jackson, of East Granby, Ct., found a rattlesnake in the door, which disputed the right of way. She took a stick of wood, and after a brilliant conflict subdued the foe. The reptile was four feet long. Twenty summers had passed over his head, and seventeen rattles had grown to his tail.

To Housekeepers.

SOMETHING NEW.—B. T. BABBITT'S BEST MEDICAL SALERATUS.

Is manufactured from common salt, and is prepared entirely different from other Saleratus. All the deleterious matter extracted in such a manner as to produce Bread, Biscuits, and all kinds of Cake, without containing a particle of Saleratus when the Bread or Cake is baked; thereby producing wholesome results. Every particle of Saleratus is turned to gas and passes through the Bread or Biscuit while baking; consequently nothing remains but common Salt, Water and Flour. You will readily perceive by the taste of this Saleratus that it is entirely different from other Saleratus.

It is packed in one pound papers, each wrapper branded, "B. T. Babbitt's Best Medical Saleratus"; also, in picture, twisted loaf of bread, with a glass of effervescing water on the top. When you purchase one paper you should preserve the wrapper, and be particular to get the next exactly like the first—brand as above.

Full directions for making Bread with this Saleratus and Sour Milk or Cream Tartar, will accompany each package; also, directions for making all kinds of Pastry; also, for making Soda Water and Salt-Lime Powders.

MAKE YOUR OWN SOAP,
WITH
B. T. BABBITT'S PURE CONCENTRATED POTASH.

Warranted double the strength of ordinary Potash; put up in cans—1 lb., 2 lbs., 3 lbs., 6 lbs. and 12 lbs.—with full directions for making Hard and Soft Soap. Consumers will find this the cheapest Potash in market.

Manufactured and for sale by
B. T. BABBITT,
Nos. 68 and 70 Washington-street,
New York, and No. 38 India-street,
Boston. [11-44-1y*]

The American Trades Company.

What they manufacture.
THE AMERICAN SMOKER.
Consisting of a great variety of unique and beautiful patterns of Cigar Tubes; also, several varieties of Pipe Tubes. The peculiarity about these articles is that each one is arranged so as to receive a damp sponge, through which the smoke of the burning cigar has to pass on its way to the mouth. This damp sponge not only cools the smoke, but extracts from it the nicotine oil, the poisonous property of the Tobacco, which renders the breath less offensive. Smokers will find the use of these Tubes a luxury never before attained except by the Turkish water-jar. Their use will also greatly promote the health of the habitual smoker and preserve the sweetness of the breath.

THE AMERICAN CARPET HOOK.
Is a little contrivance for putting down carpets without tacks. This is a new article, which has never before been upon the market. But it possesses the merit of enabling a person to put down or take up a carpet of the largest size in general use in fifteen minutes, without any injury to the floor or carpet. It is very cheap—cheaper in the long run than tacks—and can be taken up and put down carpets, without the possibility of a mistake, renders it invaluable to the housekeeper.

THE AMERICAN PEN HOLDER & WIPER.
It is a neat invention for holding a wet sponge, into which the pen is thrust, always coming out clear and ready for use. A very convenient article for the Counting-House Desk and Library Table. 11-29

The American Trades Company, was organized November 8, 1857, with a Capital of one hundred thousand dollars. This Company was formed with a view of taking up inventors of small articles of general utility, who are unable to make independent arrangements for introducing their inventions, by an equitable arrangement with them for their rights by purchase out and out, or by a tariff on the articles manufactured and sold. The inventive genius of this country has long called for an Institution of this kind. The American mind is so active, that thousands of things are invented, many of which would be really useful to the community, but which are never introduced, because the inventors of them have no means to carry them out. The capital of this Company will be devoted to the development of really useful inventions. The Company have a Committee on Patents, whose duty it is to pass upon all applications for their large experience in such matters. Inventors have a security that their inventions will not be misjudged; and the high character of the parties composing that Committee is a sufficient guaranty that plans and specifications may be submitted before patents are applied for, without any risk of advantage being taken of this circumstance, and when desired to do so, the Company will take out patents for others, securing for the inventor all of his invention that is patentable. This Company respectfully invite inventors to submit to them their plans; and it will be furthering the objects of the Company if its officers and agents can be of any service to them.

Any one of the following modes is acceptable to this Company:
First: To manufacture any articles for which their machinery is adapted by contract, the inventors receiving the articles and paying for the same on delivery.
Second: They buy any patent which is approved of by their committee.
Third: They will manufacture and sell any article which they choose to adopt, giving to the inventor such a proportion of the profits as may be agreed upon.

The extensive building, No. 93 and 24 Franklin-st., New York, being about 60 feet front by over 100 feet deep, and 7 stories high above the sidewalk, is owned by the President of the Company, and is occupied in part by all the machinery, warehouses and offices of the Company, where all its business and sales are transacted.

THE NEW PLUS ULTRA OF SWING MACHINES.

THE PATENT LEVER SEWING MACHINE, MANUFACTURED BY THE GLOBE MANUFACTURING COMPANY,
339 Broadway,
New York.

May be truly regarded as the "plus ultra" of sewing machines, and all who are wishing to find a Machine which is capable of doing any kind of sewing for Tailors and Housewives, with a satisfaction heretofore unknown, should lose no time in ordering one of the PATENT LEVER MACHINES, which are ready to occupy a similar position towards other sewing Machines that a Patent Lever Watch (and everybody knows its value) occupies towards a Lapine or any other second rate watch.

This Machine makes the "Lock Stitch," which looks the same on both sides of the fabric, and cannot be ripped.

PRICE \$50.

In all respects equal to machines heretofore sold at a hundred dollars and upwards. Specimens of sewing done by the PATENT LEVER MACHINE, will be forwarded to any part of the country, upon receipt of a postage stamp.

N. B. An energetic and reliable agent is wanted in every town and village of the United States and Canada to sell the above named machine. An advantageous arrangement will be made with the right kind of merchant who is willing to have the exclusive agency. Address *Globe Manufacturing Company,* 339 Broadway, N. Y.

The American Smoker is an article of great utility and benefit to Smokers. Persons afflicted with Bronchitis, Asthma, Dyspepsia, Liver complaints or Kidney affections, can procure Sponges Medicated for these various diseases by Old Dr. Thompson. Sold by THE AMERICAN TRADES COMPANY, Nos. 22 and 24 Frankfort-st.

PLASTER for sale by P. A. STEBBINS.

Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which the blood becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is exempt from its attacks, nor is there one which it does not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, and filthy habits, the depressing vice, and above all, by the venereal infection. Will ever be its origin, it is hereditary in the constitution, descending from parents to children, and from the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or poisonous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, deprives the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by diseases which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined. To cleanse it from the system we must remove the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla

the most effectual remedy which the medicine skill of our times can devise for this evil, when prevailing and fatal m'd'y. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERYTHEMA and SKIN DISEASES, PIMPLES, PUSTULES, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TERTIARY and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPPEPSIA, DEBILITY, and indeed, ALL COMPLAINTS ARISING FROM VITATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth; for scrofula is a degeneration of the blood. The particular purity and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSICIAN.

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate the bowels of the human system, correcting its diseased action, and restoring its healthy vitality. As a consequence of the properties, the invalid, who is bowed down with pain or physical debility is astonished to find health and energy restored by a remedy so simple and invigorating.

Not only do they cure the every-day complaint of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish to my American Agents containing certificates of their cures and directions for their use in the following complaints: *Coughs, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in the Bowels, Constipation of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to need observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.

Sold by SMITH & JONES, and D. W. SPENCER, Coudersport; CORRY & SON, Uppesburg; A. B. HORTON, Cushingville; MANN & NICHOLS, Millport; C. H. SIMMONS, Oswayo; and by all Merchants and Druggists. [11-29]

MILLFORD HEAD-QUARTERS.

THE subscribers take this method of informing their friends that they are in receipt of, and are now opening, a choice and desirable stock of

STAPLE AND FANCY DRY GOODS,

GROCERIES, HARDWARE AND CROCKERY;
all of which will be sold uncommonly cheap for ready pay, and for approved credit on reasonable terms as any other establishment.

MANN & NICHOLS,
Millport, Aug. 11, 186.—9:13 1y.

Z. J. THOMPSON,
CARRIAGE & WAGON MAKER, and REPAIRER, Coudersport, Potter Co., Pa., takes this method of informing the public in general that he is prepared to do all work in his line with promptness, in a workman-like manner, and upon the most accommodating terms. Payment for Repairing invariably required on delivery of the work. All kinds of PRODUCE taken on account of work. [11-25]

MORSE'S INDIAN ROOT PILLS

Above we present you with a likeness of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has performed the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the man to discover the fact that all diseases arise from IMPURITY OF THE BLOOD, and that strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every kind; our strength is exhausted, our health we are deprived of, and nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accomplishes the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease that deadly enemy will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

CAUTION:
Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Dr. Morse's Indian Root Pills, signed A. B. Moore. All genuine Pills will hereafter have the name and signature of B. LAKE JUDSON, (successor to A. J. White & Co.), on each box.

All orders and letters relating to said Pills must be addressed to W. M. MUDGE & CO., (proprietors of Dr. A. Trask's Magnetic Instrument), Earlville, Madison Co., N. Y., General Agents for Dr. Morse's Indian Root Pills.

B. LAKE JUDSON, (successor to A. J. White & Co.), 50 Leonard Street, New York, Sole Proprietor. Sold by SMITH & JONES, Coudersport; also by all Medicine Dealers in the county. 10-16-1y.

HOWARD ASSOCIATION, PHILADELPHIA.

A Benevolent Institution, established by special enactment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, several years ago directed their Consulting Surgeon, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE.

The Directors of the Association, in their late Annual Report express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermatorrhoea, Seminal Weakness, Gonorrhoea, Gleet, Syphilis, the vice of Onanism or Self-Abuse, Disease of the Kidneys and Bladder, &c., and order a continuance of the same plan for the ensuing year.

An admirable Report on Spermatorrhoea, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs; by the Consulting Surgeon, will be sent by mail, (in a sealed envelope,) FREE OF CHARGE, on receipt of TWO STAMPS for postage.

Address for Report or treatment, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa. [11-24-1y.]

THE AMERICAN SMOKER.
Consisting of a great variety of unique and beautiful patterns of Cigar Tubes; also, several varieties of Pipe Tubes. The peculiarity about these articles is that each one is arranged so as to receive a damp sponge, through which the smoke of the burning cigar has to pass on its way to the mouth. 339 Broadway,
New York.

May be truly regarded as the "plus ultra" of sewing machines, and all who are wishing to find a Machine which is capable of doing any kind of sewing for Tailors and Housewives, with a satisfaction heretofore unknown, should lose no time in ordering one of the PATENT LEVER MACHINES, which are ready to occupy a similar position towards other sewing Machines that a Patent Lever Watch (and everybody knows its value) occupies towards a Lapine or any other second rate watch.

This Machine makes the "Lock Stitch," which looks the same on both sides of the fabric, and cannot be ripped.

PRICE \$50.

In all respects equal to machines heretofore sold at a hundred dollars and upwards. Specimens of sewing done by the PATENT LEVER MACHINE, will be forwarded to any part of the country, upon receipt of a postage stamp.

N. B. An energetic and reliable agent is wanted in every town and village of the United States and Canada to sell the above named machine. An advantageous arrangement will be made with the right kind of merchant who is willing to have the exclusive agency. Address *Globe Manufacturing Company,* 339 Broadway, N. Y.

The American Smoker is an article of great utility and benefit to Smokers. Persons afflicted with Bronchitis, Asthma, Dyspepsia, Liver complaints or Kidney affections, can procure Sponges Medicated for these various diseases by Old Dr. Thompson. Sold by THE AMERICAN TRADES COMPANY, Nos. 22 and 24 Frankfort-st.

PLASTER for sale by P. A. STEBBINS.
