Town and County.

COUDERSPORT, OCTOBER 17, 1859.

Burglary.—The house of Mr. Henry J. Leach in Hector township, this county, was robbed of goods to the value of over $100 on the night of the 5th inst. Mr. L. offers a reward of $25 for the thieves. See advertisement.

D. Rulison, of the Quaker City Publishing House, 33 South Third St, Phila., has sent us a copy of a new publication by him entitled "A History of All Religions," by Samuel Smucker, L.L.D. We have looked over its pages and find that it contains a great variety of valuable religious history and statistics. It is sold at $1. and contains information that cannot be had for ten times that sum in any other form.

The "local" of one of our country exchanges gives the following schedule of tolls for the benefit of those who need and seek after "puffs:"

For a modest puff,	6 juleps.
A tolerably good one,	1 box cigars.
A good one,	1 pair boots.
A very good one,	1 vest and 2 shirts.
A "splendid" one,	1 cloth coat.
A perfect sockdolager,	a whole suit.

We are "open to conviction" on each of the above heads, except the first and second. In place of the first charge we beg leave to suggest the *oysters*, and for the second an additional subscriber to the JOURNAL.

The Genesee Farmer—A Rare Chance.—The publisher of this excellent agricultural journal offers to make a present of the remaining numbers of this year (November and December) to all who send in their subscriptions for next year previous to the first of December. Our readers can not do better than to avail themselves of this offer. The *Farmer* is one of the best and cheapest agricultural and horticultural journals published. It contains thirty-two royal octavo pages, is well illustrated, and filled with valuable information. No farmer or gardener should be without it. Price only fifty cents a year. Subscribe now, and thus get the remaining numbers of this year for nothing. Address JOSEPH HARRIS, Rochester, N. Y.

The Erie *True American* is disposed to poke a little fun at our friend Crosby's idea of running for Sheriff without any of the usual excuses and efforts. See What he says.

"Commend us to Crosby—to William Crosby, Esq., of Homer, Potter county, Pa. Mr. Crosby wants office, but he has not the means to bore for it! Mr. C. announces himself in the *Journal*, published at Coudersport, Potter county, as an independent candidate for Sheriff of the aforesaid county, in the unusual manner following to wit:

[Here he inserts the card of Mr. Crosby, as it appeared in the JOURNAL.—*Ed'r.*]

We never before heard of a candidate who did not become one "through the solicitations" of his friends. And then to think of man's being elected to an office without "canvassing the county" or "hiring" some one to do it for him. Crosby may do well in Potter, but he would be nowhere in Erie.

E. Cowan, Esq., editor of the Waren *Mail*, was here during the Senatorial Conference a few weeks ago, and gives the following account of his visit to our place, and his impressions of our citizens. He has our sincere thanks, both for our citizens and ourself for his handsome notice:

"Coudersport, situated on the Allegheny, nine miles from its source, is a beautiful village. It is cosily nestled among the hills, built compactly and with more than ordinary taste. Every thing around it bears the marks of a public spirited refinement and good order. A large and elegant Court House stands nearly in the middle of the village in the steeple of which is a town clock in sight of nearly every house or place of business. No taverns are licensed in the County, and though we were there in the crown of Court week, we didn't see or hear of a single fight or a man drunk, which is praise enough for any place. This, we take it, is somewhat owing to the fact that the Sons of Temprance are in good working organization there. They have a beautiful and well furnished Hall which was very kindly opened for the use of our conference. The *Journal*, T. S. Chase Editor and Publisher, is the main paper of the place, a fearless, high-toned, zealous Republican paper. The *Democrat*, published by C. B. Cotter, formerly of this place, is its opponent, and like the party it supports, is in a rather dilapidated condition.

"On the invitation of Mr. Chase, the quill-drivers in attendance had a social sit down together—a very pleasant tea-party. Hugh Young, of the Tioga *Agitator*; C. G. Williams of the Wellsboro *Democrat*; L. Rogers and W. A. Nichols of the McKean *Citizen*; T. S. Chase of the Potter *Journal* and E. Cowan of the Waren *Mail*—wasn't that a compound long to be remembered by each other? And ah! they tell stories, crack jokes, knock dull care into fits, and set the table in a roar. Yes, verily!

"The conference, though an unusually long and strong pull, was not marred by an unkind word. The four candidates were all there with their men—each anxious to win, but all anxious to help the party and the principles they profess. We found the delegates and candidates from the other counties all honorable and high minded gentlemen and thorough Republicans, whose acquaintance it will be pleasant to renew in coming years.

"Altogether, then, the trip and the conference were very pleasant to us. The country though which we passed is mainly new and wild—not yet half subdued by the hand of improvement which is pressing hard upon it; but it contains men of the right mettle who can neither be coaxed nor driven into supporting the party whose free-trade, pro-slavery doctrines would fetter its progress and lock up its untold mineral wealth."

JUDGE BLACK is a second Daniel. The law requires the public advertising to be given to two papers of the "largest permanent circulation in the District of Columbia." In order to make the President's organ one of these papers, he has decided that each daily subscriber shall count six!

The American Smoker is an article of great utility and benefit to Smokers' Persons afflicted with Bronchitis, Asthma, Dyspepsia, Liver complaints or Kidney affections, can procure SPONGES, MEDICATED for these various diseases by Old Dr. THOM. The American Trades Comp'y.

What they manufacture.

THE AMERICAN SMOKER,

Consisting of a great variety of unique and beautiful patterns of Cigar Tubes; also, several varieties of Pipe Tubes. The peculiarity about these articles is that each one is arranged so as to receive a damp sponge, through which the smoke of the burning cigar has to pass on its way to the mouth. This damp sponge not only cools the smoke, but extracts from it the nicotine or the poisonous property of the Tobacco, which renders the breath less offensive. Smokers will find the use of these Tubes a luxury never before attained except by using the Turkish water-jar. Their use will also greatly promote the health of the habitual smoker and preserve the sweetness of the breath.

THE AMERICAN CARPET HOOK.

Is a little contrivance for putting down carpets without tacks. This is a new article, which has never before been upon the market. But it possesses the merit of enabling a person to put down or take up a carpet of the largest size in general use in fifteen minutes, without any injury to the floor or carpet. It is very cheap—cheaper in the long run than tacks—and the great facility with which even a servant can take up and put down carpets, without the possibility of a mistake, renders it invaluable to the housekeeper.

THE AMERICAN PEN HOLDER & WIPER.

It is a neat invention for holding a wet sponge, into which the pen is thrust, always coming out clean and ready for use. A very convenient article for the Counting-House Desk and Library Table. 11-20

The American Trades Company, was organized November 3, 1857, with a Capital of one hundred thousand dollars. This Company was formed with a view of taking up inventors of small articles of general utility, who are unable to make independent arrangements for introducing their inventions, by an equitable arrangement with them for their rights by purchase out and out, or by a tariff on the articles manufactured and sold. The inventive genius of this country has long called for an Institution of this Kind. The American mind is so active, that thousands of things are invented, many of which would be really useful to the community, but which are never introduced, because the Inventors of them have no means to carry them out.

The capital of this Company will be devoted to the development of really useful inventions.

The Company have a Committee on Patents, whose duty it is to pass upon all applications, and from their large experience in such matters Inventors have a security that their inventions will not be misjudged, and the high character of the parties composing that Committee is a sufficient guaranty that plans and specifications may be submitted before patents are applied for, without any risk of advantage being taken of this circumstance, and when desired to do so, the Company will take out patents for others, securing for the inventor all of his invention that is patentable.

This Company respectfully invite inventors to submit to them their plans; and it will be furthering the objects of the Company if its officers and agents can be of any service to them.

Any one of the following modes is acceptable to this Company:

First: To manufacture any articles for which their machinery is adapted by contract, the inventors receiving the articles and paying for the same on delivery.

Second: They buy any patent which is approved of by their committee.

Third: They will manufacture and sell any article which they choose to adopt, giving to the Inventor such a proportion of the profits as may be agreed upon.

The extensive building, No. 22 and 24 Frankfort-st., New York, being about 60 feet front by over 100 feet deep, and 7 stories high above the sidewalk, is owned by the President of the Company, and is occupied in part by all the machinery, wareroom and offices of the Company, where all its business and sales are transacted.
