DR. MORSE the inventor of MORSES IN DIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength health and life depended upon this vital fluid. it was in this way that the Indian Root Pills

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and discussed; thus causing all pains, sickness and distress of every name; our strength is exhibited at the faul humors which their hadsted, our health we are deprived of, and if nature is not assisted in throwing off the stagnature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act, and thus our light of life will and cease to act. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely. Morse's In-dian Root Pills, manufactured from plants dian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclose the passage to the lungs, and thus, in a longer, for eleansing the blood. Keep about the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and uncloses the passage to the lungs, and thus, in a lasting health. Bouncer or later something through the sake in pimples, ends it when you find it is structed and altoggish in the reins; clean whenever it is foul, and your feelings whenever it is foul, and you feelings whenever it is foul, and your feelings whenever it is foul, and your feelings whenever it clogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phiegm, and other humors from the lungs by copious spitting. The third is a Di-oretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in

but become united with the blood, for they and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all we call this compound Sarsaparilla, and interest in the life of the body, which is the blood, becomes perfectly healthy; consequently all we call this compound Sarsaparilla, and interest the life of the various extraction and clear. sickness and pain is driven from the system, for they cannot remain when the body becomes so pere and clear.

The resson why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the affected perts, and which will open the natural passages for the discuse to be cast out; hence, a large quantity of food and other mat-ter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus wadergoing disagreeable fermen-tation, constantly mixing with the blood, which throws corrupted matter through every vein and artery, until life in taken from the body by disease. Dr. Morse's PILIS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for his great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blocd. Therefore, it will be shown, especially by those who use these Pills that they will so cleanse and purify, that dis ease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.
