FOOR DOCTOR COOPER!

this Nigger 727 🗓

From the N. Y. Tribune, 8th. \$50 REWARD.—RANAWAY from the subscriber near Double Springs 'P. the partnership": O., Oktibbeha, Co., Miss., on the 8th inst., my negro Boy LITTLETON, said boy is of Copper Colour, about 5 feet 5 inches high, about 37 Years of age, with a shot in his right wrist on the inside of the arm, if not extracted, has a small scar over one of his eyes, not recollected. I never asked an office of any Governor or shouldered, has a rocking walking, inclined to run down his shoes, has several scars on the right leg and thigh, be makes some pretension to proper language as he can Read, Write and Cypher a little, he may have a pass of some sort and can tell any kind of a tale to suit his purpose, as he is anxious to get to

The above Reward will be given to any the State; and Lodged in any Jail so that I get him or for such information as will secure his recovery.

quest in the P. M., we put it in the most "conspicuous place" we know of. We teemed correspondent-if we may use .D., that none of the "dam scoundrels" of any co'or in this establishment, have any knowledge whatever of the "nigger" :Littleton, who is copper colored, nor of promise to let the Dr. knew. And be-

der the circumstances, in advertising this tive, who makes so many pretensions, has tion or two? We want to know about those scars, partly from moral, but chiefly from surgical motives. How came there to be a shot in Little-

ton's right wrist on the inside of the arm? The Boy, we presume, is not trusted with fire-arms, and if he were, we do not well see how he could shoot himself in that particular spot. Neither is it very likely that he could have been shot by any of his companious when sporting, as recreation of that sort, we believe, is not a favorite in his class of the happy proletaries of the sweet South. If he were a Northern white man and mechanic, one of our unhappy "mudsills." we should think he had been shot at with some murderous intention; but that, we know, is a thing they never do on the other side of the border...

Now, on one of his eyes is "a small scar." Is this also from a shot? Did a part of the charge that lodged in the wrist just fall short of a lodgment in the brain also? Or was it some other assailant of the citadel of life that failed to make a breach here in the walls?

"On the right leg and thigh," also, there are "several scars." Possibly, gun-shot That they are on the right side, also, favors that supposition. Perhaps it is these that cause "the rocking walk." for gun-shot wound are sometimes known to be inconvenient, and even crippling. But if the supposition be co rect that a charge of buck-shot has left these wounds and scars, propound to us the occa ion, good Doctor, of such shooting .-Here and there among us is a man who has brought home from war some honorable scars; here and there a man whom some accident has crippled; but we do not remember ever to have heard before of a case like this, where a wretch is scarred over half his body with marks of wounds, one of which, at least. was made
