It is a fact that, at some period, every member of the human family is subject to discase of disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of good common scuse, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation hearing his name, which is not a new medicine, but one that has been tried for years, giving satisfac-tion to all who have used it. The Bitters operate powerfully upon the stomach, bowels, Just Received from New York and liver, restoring them to a healthy and vigorous action, and thus, by the simple pro-

Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BIT-TERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be it fallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scien-I am determined to sell goods as low as the value of this great preparation in the scale
