

Cahn and County.

COUDERSPORT, NOVEMBER 15, 1860.

Prof. C. W. Sanders, A. M., of N. Y., will lecture to the congregation in the Baptist Church in Ulysses, next Sunday morning at the regular hour of service. At 2 in the afternoon he will lecture to the children and youth.

Send us the News.—Now that the election is over, we do not expect to devote ourselves so exclusively to politics, but will endeavor to pay closer attention to home news. We would thank our friends to keep us advised of any matters of interest in their localities.

We have received from the publisher, R. M. DeWitt, of New York, a copy of "The Revelations of a Slave Staggler," from which we published an extract a few weeks since. It is a graphic account of the life of one who was engaged for nearly fifty years in the slave-trade, and contains 100 large pages of closely printed matter that is peculiarly interesting and at the same time revolting to a humane heart and mind. Price 25 cents, in paper cover. Address R. W. DeWitt, 13 Frankfort street, New York.

Wanted—Three Fat Turkeys.—We want one for Thanksgiving, two weeks from to-day—one for Christmas—and one for New Year's day. What three of our turkey-raising subscribers will bring them right along now, so that we may be sure of the dinner set apart by the Governor, the one in commemoration of Christ's advent, and the anniversary dinner of the New Year? In our opinion an editor is as much entitled to a good dinner occasionally as anybody. Who'll bring the turkey's to us instanter? We pause for—the turkeys.

We would call the attention of our readers to the advertisement of the Ulysses Academy, the Winter Term of which commences Dec., 4th. The advertisement sets forth the advantages of the institution so fully that no commendation is required from us. We learn that a new Bell is among the new things lately added. Mr. Cooper, the principal, is an active and untiring worker, and deserves success. We learn that the school embraces double the number of students it did one year ago, and we rejoice at this evidence of its prosperity. A Teacher's Institute, conducted by Prof. Charles W. Sanders, is in session this week, and is, we learn, very successful thus far, a large number of teachers being present from all parts of this and adjoining counties.

Peterson's Magazine.—We are in receipt of this popular Lady's Magazine for December. It is a splendid number.—"Peterson" has a circulation of 100,000. It will be greatly improved in 1861. It will contain 1000 pages of double column reading matter; 14 steel plates; 12 colored steel fashion plates; 12 colored patterns in Berlin work, embroidery or crochet, and 800 wood engravings—proprietorately more than any other periodical gives. Its stories and novelets are by the best writers. Its fashions are always the latest and prettiest. Every neighborhood ought to make up a club. Its price is but TWO DOLLARS a year, or a dollar less than Magazines of its class. Subscribe for it and save a Dollar. To clubs, it is cheaper still—viz: three copies for \$5, or eight for \$10. To every person getting up a club the Publisher will send a magnificent premium. Specimens sent gratis to those wishing to get up clubs. Address, post-paid, CHARLES J. PETERSON, 306, Chestnut Street, Philadelphia.

Reported for the Potter Journal.—Potter County Teacher's Institute.—The Potter County Teacher's Institute convened in the Ulysses Academy, Monday Nov. 12th 1860, at 9 o'clock A. M. under the direction of Prof. C. W. Sanders, A. M., of New York; the able and distinguished educator and well-known author of Sanders' popular series of School Books; reading the Scriptures and Prayer by Prof. Sanders. Music by the choir. W. Gilliland and Miss H. M. Jones, were elected Secretaries. After a few introductory remarks by Prof. Sanders, in regard to the necessary regulations for the Institute, the necessity of familiar intercourse between himself and the members, and the necessity of a hearty cooperation on the part of teachers, he introduced the subject of "Language," speaking of its origin and importance to man as a means for the communication of his thoughts and emotions. Man is the only animal that conveys thought by means of articulate sounds—the lower order by means of inarticulate sounds. He next spoke of the importance of teachers acquiring a thorough knowledge of the properties and powers of those twenty-six "mysterious characters," called the alphabet. Of the general classifications of vowels and consonants, he considered the vowels by far the most important, as they form the

basis of every syllable and word in the English language.

The vowels are divided into two classes—regular and irregular. The regular vowels are those which are always vowels, viz: a, e, o. The irregular vowels are those which are sometimes vowels and sometimes consonants, viz: i, u, y. The question was asked "If the vowels are the most important letters why are they not placed first in order in the Alphabet?" Answer to be given to-morrow. Mr. Sanders then spoke of the importance of learning to sing, not only as a past-time, but also as the best means of developing the vocal powers. He next took up the subject of "Elocution" and gave a thorough drill in Articulation, in which all members of the Institute participated. He also dwelt upon the necessity of teachers requiring their pupils to read and talk distinctly. Adjourned until 2 P. M. Afternoon session, 2 P. M.—First exercise—drill in practical Arithmetic by Prof. J. A. Cooper, Principal of the Academy. Prof. Sanders followed with an exercise from his Elocutionary chart the members giving all the vowel sounds in concert. The afternoon session closed with an exercise in Orthography—the class writing a long list of words and mutually correcting each other's errors. Between each of the drills a short recess was given, followed by singing from the Robin Red Breast one of Mr. Sanders' Juvenile Singing Books.

The number of names already registered is 58. In consequence of the inclemency of the weather and state of the roads many teachers were detained to-day who will probably be in attendance to-morrow.

The regular lectures and discussions with which it is intended the evenings shall be occupied were omitted to give the teachers an opportunity to attend Prof. Marsh's Musical Concert. The performance of the pieces were such as fully to justify the high encomiums bestowed upon them by Prof. Sanders during a brief but appropriate Lecture upon Music. Hereafter the exercise will consist of daily drills under Profs. Sanders, Campbell, Lewis and Cooper.

The evenings will be occupied by lectures and discussions as previously announced. The Institute will continue until the 24th. All interested in the cause of Education are cordially invited to attend.

W. GILLILAND, Sec'y.

H. M. JONES, Sec'y.

THE MIGHTY HEALER.

Let not disease, with its fangs, pray upon you, until the cold hand of death hurls you to an untimely grave. Shake off the feeling of despair and hopelessness; so liable to come upon the invalid. The plant born of the Sun we place within the reach of all. We cure not what may be the specific form of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, the stomach and the vital organs, JUDSON'S MOUNTAIN HERB PILLS will pass, mingling with the blood, search out and grasp and then expel all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with its glorious beams first causes the morning dew to rise as mist, then growing stronger, casts his burning rays upon it—and behold 'tis gone—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to Judson's Mountain Herb Pills.

To Consumptives.

THE Advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a curing cure for Consumption, Asthma, Bronchitis, &c. The only object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address

ALL IN BOTTLES.

I beg leave to call the attention of the citizens of the United States to the above Wines and Liquors, imported by Udoolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated SCHEMAM SCHNAPPS. Mr. Wolfe, in his letter to me, speaking of the purity of his Wines and Liquors, says: "I will stake my reputation as a man my standing as a merchant of this country, residence in the City of New York, that all the Brandy and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a fac simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves. For sale at Retail by all Apothecaries and Grocers in Philadelphia. Geo. H. ASHROB, No. 823 Market St. Phil. Sole Agent for Philadelphia.

Read the following from the New York Courier:

EXORCIS BUSINESS FOR ONE NEW YORK MERCHANT.—We are happy to inform our fellow-citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, although it will repay any stranger or citizen to visit Udoolpho Wolfe's extensive warehouse, Nos. 18, 20 and 22, Market street, and Nos. 17, 19 and 21, Market street. His stock of Schemam is ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases—Vintages of 1836 to 1856; and ten thousand cases of Madeira, Sherry and Port Wine, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wine, &c., in casks, under Custom-House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successful with his Brandy and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their orders direct to Mr. Wolfe, until every Apothecary, in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and Liquors.

We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors.—Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imitations, ruinous alike to human health and happiness. NATURAL TEETH PRESERVED TO OLD AGE.

Shart's Charcoal Tooth Soap.

NO ONE ARTICLE is more deservedly popular as a means of cleansing and preserving the Teeth than Charcoal Soap. In this beautiful article of Tooth Soap the Charcoal is rendered so perfectly fine as to be in reality but the superfine dust of that most valuable substance—not a particle of grit is used in the composition which could possibly injure the enamel of Teeth. It is united with articles that remove the tart, and prevent its further accumulation.

This Soap is the best known means of preserving the teeth, curing Sore Gums, and Sore Mouth.

One box will last one year at a cost of only 15 cents.

Directions.—Wet the brush and rub two or three times lightly over the Soap, then thoroughly brush the Teeth, and rinse the mouth with pure water.
