THE ANALGANATION OF LANGUAGES.—There is a growing tendency in this age to appro-priate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electiotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be clussissed under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which minution of nervous and muscular energy are Apoplexy, Gout, Rheumatism and all from chronic complaints, one trial of this res-febrile diseases. The inventor and manufacturer of "Jud. The inventor and management of Jun-son's Mountain Herb Pills," has spent the greater part of his life in traveling, having visited nearly every country in the world.
He spent over six years among the Indians of the Rocky Mountains and of Mexico, and id was thus that the "Mourtain Herr Pills" were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet. It is an established fact, that all diseases
