**D. MOTT'S**  
**CHALYBEATE**  
**RESTORATIVE**  
**PILLS OF IRON.**

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:—

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrophulous Tuberculosis, Scurvy, Menstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a projected travel to a distant land. Some very signal instances of this kind are attested to female Sufferers, emaciated victims of apparent marasmus, senseless exhaustion, critical changes, and that complication of agonizing and despondent aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for persons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary, for unlike the old oxide, it is vigorously tonic without being exciting and overheating; and gently, regularly aperient even in the most obstinate cases of constiveness without ever being so gastric purgative, or inducing a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effective and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes a single box of these Chalybeate Pills has often sufficed for the most obstinate cases, including the attendant Catarrhes.

In undischarged Diarrhoea, even when advanced to Dysentery, continued, emaciating, and unprofitably treated, the effects have been equally decisive and astupishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrophulous Tuberculosis, this medicated Iron has far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too candidly invited to this **caldy and restorative**, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swelling, and stiffness of the joints and muscles.

In Intermittent Fevers it is not necessary to have a great remedy and energetic restorative, and its progress in the new settlements of India, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects—Good appetite, complete digestion, rapid acquisition of strength, with an unusual impetus for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box: for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

**ROHRER'S PRACTICAL CALCULATOR.**  
A Book of Plain Rules and Calculations for Business Operations, by MARTIN M. ROHRER, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.

This Work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of Editions in rapid succession, and is pronounced by all classes of business men to be the HANDY BOOK of reference, pertaining to calculations, that has ever been published.

Every Example in the book is worked out in full and stated in a plain manner, so that when a practical case arises, those referring to the work will find no difficulty in readily solving it; in a word, the general management of the CALCULATOR is so simple, that any one who knows how to add, subtract, multiply, or divide, can easily solve any ordinary example that arises in business, or arrive at the true result of an estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other works of the kind, and is a key to practical business calculations—it is in the hands of the business man, who the key to mathematical works is in the hands of the tencener in the school-room—it facilitates time and insures correctness.
