

JUNE FARM WORK-1861.

Farmer - There is scarcely a more important agricultural month in the whole year than June. It terminates the period in which most seeds can be sown, and introduces the indispensable work of cultivation.

Cultivation of the soil may appear tame and uninteresting work in these exciting times, and the temptation will be great to leave peaceful fields for the field of conflict, but remember that feeding the country is as necessary as fighting her battles.

Barley will usually yield a fair crop, if sown at this season, although earlier sowing is more preferable. It succeeds best on a gravelly soil, and may well occupy ground devoted to hoed crops last year.

Barns and sheds will soon be needed to receive the first fruits of the mowing grounds. Put platforms, bay-ways, &c., in order; clean out all rubbish, and repair floors and entrance ways, if needed.

Beans - Plant, where corn has failed, if seed of King Philip or other early variety, can not be had. They may also be put in on soil too light for corn.

Beets - Mangel Wurzel and Sugar varieties sown will have plenty of time to mature for winter feeding. A great saving of hay and grain will be effected, by having a good supply of these and other roots, to feed out in Winter and Spring.

Butter, if properly made during this month, may be laid down and kept throughout the season, or until the best prices can be had. Cleanliness and thorough working are the two essential points to be observed.

Cabbages - Plant out for late crops. Hoe and cultivate between the rows of those already set, at least once a week - the oftener the better.

Carrrots - In favorable seasons large crops have been obtained, when sown first part of June. Keep the rows well hoed, and thin to six inches apart.

Cattle - Young cattle, especially calves of the present season, need attention to keep them growing. Allow them the best pasture.

Cheese - Study to improve the quality, rather than to increase the quantity produced. "White-oak" cheeses are always a drug in market, while those of good quality are always in demand at good prices.

Corn - Turn every source to account as recommended in previous numbers. Throw weeds from the garden, etc., into the pig sty, and supply the swine with plenty of material, to work over at their leisure.

Peas - Sow or plant, if there be vacant ground. They make excellent food for swine, when fed green with the straw, or ripened and ground with oats, or when fed alone, cooked or soaked.

Potatoes - Keep well hoed until blossoming. Hill them only moderately.

Try top-dressing with ashes, to drive away insects, and prevent rotting. Poultry - Accustom them to lay in their appropriate places, by confining them in the poultry yard until afternoon.

Swine - Keep them growing with wash from the dairy, mixed with ground feed. Allow them the range of the orchard, to destroy grubs and worms in unsond fruit.

Tanner's Bark - Peel from hemlock and oak, as soon as it will run freely, and pile it so as to protect from rain. Tools, particularly for haying and harvesting, should all be in readiness before the season of use.

Vegetable Life Medicines - Are well known to be infallible. DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Ricketsness, Ill-Temper, Anxiety, Langour, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Worms - A boy not fond of fun and frolic may possibly make a tolerable war, but he is an intolerable boy.

Wives - Model wives formerly took a "stitch in time," but now, with the aid of a sewing machine, they take one in no time.

Love - Love is a compound of honey and gall, mixed in various proportions for customers.

Horses - Fast horses win cups by the use of their legs. Fast men lose their legs by the use of cups.

Men - Most men have in their souls no locomotives strong enough to draw a train of thought.

Writers - Many writers profess to teach people "how to live." Culprits on the scaffold would like to learn.

Men afraid of fire-arms - A man afraid of fire-arms, if he gets in liquor, is apt to imagine everything he sees a revolver.

Tradesmen - Tradesmen often lose their customers as field sportsmen do their fingers - by high charges.

When a woman wishes to be very affectionate to her lover, she calls him a naughty man.

The first of all virtues is innocence; the second is modesty; and neither departs without being quickly followed by the other.

To cite the examples of history, in order to animate us to virtue or to arm us with fortitude, is to call up the illustrious dead to inspire and to improve the living.

A religion that never suffices to govern a man, will never suffice to save him; that which does not sufficiently distinguish him from a perishing world.

A young gentleman from the "recoral" districts lately advertised for a wife through the papers, and got answered from eighteen husbands, stating that he might have theirs.

Persons who practice deceit and artifice always deceive themselves more than they deceive others. They may feel great complacency in view of the success of their doings; but they are in reality casting a mist before their own eyes.

Every sinful outward word and deed, and every secret thought and purpose of the mind, reacts upon the mind itself and leaves its own impression there as upon an ineffaceable tablet.

Two gentlemen noted for their fondness of exaggeration, were discussing the fare at different hotels. One observed that at his hotel he had tea so strong it was necessary to confine it in an iron vessel. "At mine," said the other, "it is made so weak it has not strength to run out of the teapot."

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON. An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

In anxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrophulous Tuberculosis, Salt Rheum, Menses, Whites, Chlorosis, Liver Complaints, Chronic Headache, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for unlike the old oxide, it is vigorously tonic without being exciting and overbearing; and gently, regularly aperient, even in the most obstinate cases of constiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkable, effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action; by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Constiveness.

In unheated Diarrhoea, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrophulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory - in the latter, however, more decidedly - it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects - Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 60 pills, price 50 cents per box: for sale by druggists and dealers. Will be sent free to any address on receipt of the price.

Repairing done in good style. Surcings, Martingale-rings, Hames, and Hame straps, &c., kept constantly on hand.

Agricultural Implements, such as PLOWS, SCRAPPERS, CULTIVATORS, CORN-SHRELLERS, HOPE-RAKES, DOG-POWERS, &c.

THEIR WORK is well made and the material good. Good and substantial EAVES-TROUGHS put up in any part of the County - Terms easy. Ready Pay of all kinds, including Cash, seldom refused.

MOFFAT'S LIFE PILLS AND PLEASANT BITTERS. THESE MEDICINES have now been before the public for a period of Thirty Years, and during that time have maintained a high character in almost every part of the Globe.

The following are among the distressing variety of human diseases in which the Vegetable Life Medicines are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Ricketsness, Ill-Temper, Anxiety, Langour, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

RHEUMATISM, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, scallous, cloudy, and other disagreeable complexions.

PILELS - The original proprietor of these Medicines was cured of Piles of 35 years standing, by the use of the LIFE MEDICINES alone.

FEVER AND AGUE - For this scourge of the Western country, these Medicines will be found a safe, speedy, and certain remedy.
