remarkable. Anthony's Instantaneous Stereoscopic Views are the latest Photographic wonder. They are taken in the fortieth part of a second, and every hing, no matter how rapidly it may be woving, is depicted as sharply and distinctly as if it had been perfectly at rest. This give an additional value, for to the beauties of inanimate nature it adds the charm of life and motion. MOTHERS, READ THIS .- The following is an extract from a letter written by the pastor of a Baptist Church to the "Journal and Messenger," Cincinnati. Ohio, and speaks volumes in favor of that world-renowned medicine-MRS. WINSLOW'S SOOTHING SYRUP FOR CHIL-

AYER'S CATHARTIC PILLS.

Are you cick, feeble, and implaining? Are you out of complaining? Are you off of order, with your system de-ranged, and your feelings un-comfortable? These symp-toms are often the prelude to serious illness. Some fit of sixtuess is creeping upon you, and should be averted by a timely use of the right rem-

and should be averted by a timely; use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions

structed in health again.

They atimulate the functions of the body into vigorous not tivity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if, not relieved, react upon themselves and the surrounding organs, producing general aggravation, sinfering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyaut feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-stated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions, and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

Bilious Disorders - Liver Complaints. Billious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is yorthy the confidence of the profession and the people.

Department of the Interior, washington, D. C., 7th Feb., 1856.

Sire I have used your Pills in my general and höspital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldon found a case of billous discuss so obstitute that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

From Dr. J. G. Green, of Chicago.

Your Pills, have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alternative effect upon the liver makes them an excellent remedy, when given in small doses for bitious dysentery and diarrhau. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Too much cannot be said of your bills for the cure of costreness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiceness to originate in the liver, but your Pills affect that organ and cure the disease.
