The Ladies of Coudersport and vicinty will give a Pic Nic Supper to the Volunteers, at the Court House on Saturday Afternoon at 4 o'clock. This is into participate. Donations for the table are solicited. The men of Cape. Jones' Company expect to leave on Monday, It is not as yet full, some twenty more men are needed to make up the full complement. Young men of Potter it is for you to say whether it be filled from our own county! Do not believe the lies of those who tell you that the company has Fortifications near Washington been raised for mere speculation, and that after you reach Camp your Captain will leave you and be appointed to some office under the Government, while you will Washington are named as follows: be put under a strange commander and treated like slaves; these are base lies circulated by interested persons for pri vate effect, or told by those who are in heart opposed to the success of the Government. Those who have raised the command are men against whose character nothing can be said that is not consistent with honor. The men can expect Word. to receive the very best treatment and as good food as most will have if they re-creek, Fort Scott. main at home through the winter.

The clothes of the soldiers who left with Major Kilbourne are at Glassmire's Hotel for distribution to the friends of the owners.

There has been as yet no decisive movement of the Army at Washington. A report is in circulation of a fight between a party of Rebels and Billy Wilson's Zouaves in which the latter were worsted. No great loss on either side. Fremont has not been superseded and it is thought will retain his command. Reports from the South show great suffering among all classes for the common necessaries of life, what provisions they did have were very expensive.

Reports have been current for several days past that Gen. Banks has crossed the Potomac, and even hard fighting is rumored; but no such information had officially reached Washington.

Some of the acts of Fremont that needed the name of the authorities at Washington to make them legal have been made so by Secretary Cameron who is now sojourning in St. Louis.

#### J. Richter Jones' Regiment.

To the Citizens of Potter County :

In the present crisis of our affairs, I opine that the time for excitement and sensation is post, spread eagleism has had its day, and the patriotic men who now enlist do so from high and pure motives, based upon a candid statement of facts, and a true and honest desire to serve their country and families. In recrniting men, which is the service on which I am now here, my plan is always merely to state to a man honestly and fairly the nature of the service in which he is about to be engaged, and the character and standing of the company and regiment to which he is to be attached. If this suits him he will enlist, and if not I am perfectly willing that he should stay at home.

Col. J. Richter Jones' Regiment, of Philadelphia, is different in tone from Fort Greble.

Sarsaparilla FOR PURIFYING THE BLOOD. And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affectious, such

Blains, and all Skin Discuses.

J. C. Aten & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for mei llaving inherited a Scrothlous infection, I have suffered from it in various ways far years. Sometimes it burst out in Ulcers on my lands and arms; souledimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was palafut and loathsone beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the dospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincianati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the bach, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel which any system. You can well believe that I feel which any gone when the letter and the land and the land and the stome of the age, and remain ever gratefully.

Dr. Robert M. Preble writes from Salem, N. Leucorrheen or Whites, Overlan Tumor, Uterine Ulceration, Female Diseases, Uterine Ulcerations, Fernale Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarrapadilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Fanale Diseases of the Scrofulous dialhests. I have curred many inveterate cases of Lencarica by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangerous sortiain tumor on one of the cinales in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsuparilla. Our physician thought nothing but extipation could afford relief, but he advised the trial of your Earsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

New Omeans, 25th August, 1850.

Dr. J. C. Affer: Sir, I cheerfully comply with the remest of your agent, and report to you some of the effects I have realized with your Sairaparilla.

I have curred with it, in tip practice, most of the complaints for which it is recommended, and have found its iffects truly wonderful in the cure of Venezad and Merical and Section of the complaints for which it is recommended, and have found its iffects truly wonderful in the cure of Venezad and Merical and the complaints of the complaints for which it is recommended, and have found its iffects truly wonderful in the cure of Venezad and Merical and the top of his mouth. Your Sairaparilla, itsendily taken, the properties of the same his order was attacked by secondary symptoms in his nose, and the ulceration, had inten away a considerable part of it, so that I believe the disorder would soon, reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again; not of course without some disaffuration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered extructating jain in her joints and bones. She, too, was urred entirely by your sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Prequation from your haboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised hie.

the Bones.
A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this nenedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the digents below pauted are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia Many romarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus reservoires disorders which would be supposed beyond its teach. Such a remedy has long been required by the necessities of the people, and we are confident that this will so for them all that medicine can do.

in advanced Stages

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for roughs and olds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerops disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not so more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
