Blains, and all Skin Discases.

Oaklayd, Ind., 6th June, 1859.

J. C. Area & Co. Gents: I keel it my duty to so knowledge what your Sarsquarilla has done for med Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore which was painful and loathsome beyond description. I tried rangy medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputsition that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small does of a testpoonful over a month, and used almost three bottless. New and healthy kiln soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I sm saying when I tell you, that I hold you to be one of the apoeties of the age, and remain ever gratofully.

Dr. J. B. S. Channing of New York City, writes; "I most cheerfully comply with the requested your agent in saying I have found your Sarsquarilla a niest excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Fanale Disease of the Scrofulous diathesis. I have cured many inveterate cases of Leucorriosa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangeous overain tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last respit before cutting, and it proved effectual. Syphilis and Mercurial Disease.

New Onizaks, 25th August, 1859.
Dr. J. C. Arm: Sir, I cliestfully.comply with the repuest of your sgent, and report to you some of the effects I have cared with 1t, in my practice, most of the complaints for which it is recommended, and have found its affects truly wonderful in the cure of Venercal and Mercurial Disease. One of my patients had Sphilitto ulcers n his throat, which were consuming his palate and the op of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had asten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by inercury was suffering from this poison in her boues. They had become so sensitive to the weather that on a damp day ahe suffered expreciating pain in her joints, and bones. Ehe, too, was cured entirely by your Sarsuparilla in a few weeks. I know from its formula, which your agent given me, that this Preparation from your-laboratory must be a great remedy; consequently, these truly remarkable results with it have not simptised me.

Fraternally yours, G. V. LARIMER, M. D.

I tried every thing, and every thing falled to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Erspy, advised me tarry your Sarsaparilla, because he said ho knew you, and any thing you made was worth trying. By the blessing of God it has cutted me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough.
