

THE POTTER COUNTY JOURNAL
is the only paper published in Potter county, circulates among an intelligent class of people, and is thus an excellent medium for both City and Country Advertising.
Transient Advertisements and those from a distance must be Cash or have responsible reference.
All communications, to be received, must be directed to the Editor, and contain the name of the writer. No attention paid to anonymous communications.
TERMS.—One copy one year, \$1; Six copies \$5; Twelve copies, \$10; Twenty copies, \$18, with one to the person raising the Club. The money must accompany the names.
Condensed: Wednesday Evening, Nov. 13, 1861.

We have some poetic effusions on hand—will be attended to next week.

Sergeant A. WILSON of Col. J. Richter's Regiment has returned and will remain in the county during the coming week for the purpose of obtaining a few more recruits. The men from this county who have joined the Regiment, appear well pleased with their position.

See advertisement of the **SCIENTIFIC AMERICAN** in another column. To men engaged in any kind of Scientific business, or those interested in Patents, it is a most desirable journal. Independent of its being the best conducted it has always carried with it a degree of reliability such as no other paper of the kind ever had.

Those who have promised Grain on subscription will please arrange so as to have it here by the 30th of December next, and those owing Wood will bring it in at an early day. We still continue to take on subscription, all kinds of grain, wood, butter, and all kinds of produce, not excepting Cash.

TO THE LADIES—Ladies, if you only knew how much difference there is between a good and a poor article of Saleratus, you would never use any other but O. B. DeLand & Co.'s Chemical Saleratus. It is truly what it claims to be, the "housewife's favorite," and we are happy to see that our lady friends are finding it out and using nothing else.

The most forcible comment to Gov. Curtin is the fact that while Pennsylvania has furnished many thousands more men than Massachusetts, yet it has left the latter State four hundred thousand dollars more than Pennsylvania. "Them's the sings what speaks!"—A mistake occurred in our last week's article in regard to the number of men Pennsylvania had furnished more than was required. It was printed twenty-six men when it should have been twenty-six thousand men!

GODY'S LADY'S BOOK, for November, has come to hand. The steel engraving, "the new boy," is finely executed, presenting a group of innocent children. The two page fashion plate for November is rich—five full size ladies and two girls, all decorated in the best and most fashionable "duds." The other embellishments are lucid and numerous. We furnish the periodical and the Journal, one year, for \$3.00. A single copy of the Magazine costs \$3; two copies one year, for \$5; three copies for \$6; eight copies one year, and an extra copy to the person sending the club, \$15. See advt.

IMPORTANT TO VOLUNTEERS—The Act of the 15th of May, 1861, section 12 expressly forbids any volunteer leaving the State, except he shall be accepted by the Governor of the State under a requisition from the President. It has therefore been decided by the authorities that persons enlisting in independent regiments, accepted barely by the War Department, are not entitled to commissions from the State; their families are not to receive the benefit of the funds raised by their respective counties, and in case of their death the pension of \$8 a month for 5 years, allowed by the State, will not be made to their widows and minor children.

KNIT MITTENS FOR THE SOLDIERS—An officer from West Point, who commands one of the finest regiments in the service, suggests that woollen mittens for the soldiers will be greatly needed when the cold weather begins. Will not all who can employ themselves in this way help to furnish five hundred thousand pairs. They should be knit with one finger, to allow a free use of the first finger and thumb. It is said there were more soldiers disabled in the Crimean war from frost bitten fingers than from any other cause. Capt. Jones sends this direction with the hope that the people would take the matter into consideration and make enough to supply his company. Cold weather will soon be upon them, and if the friends at home wish to do them a real kindness now is the time. Well wishes are very good in their place, but mittens are preferred just at present.

PATRONIZE YOUR OWN—No one should ever go abroad for what he can purchase at home. Home mechanics are always safe to trade with because we know them. The safest place for children is the roof-tree of their paternal home. So with everything else. Home products are the best. But in nothing is it more important to look after home than selecting your reading matter. Do not send to the cities for your newspapers, but first encourage those published in your own locality. City papers are all well enough in their place, but they cannot pay attention to your local matters. By all means take your county paper whatever you do, and advertise in it, for business is more inspired by a knowledge of what is buying and selling than by any other cause. A man who has local pride and public spirit enough to give adequate support to his own local paper, isn't very likely on the whole to do much good to himself or anybody else either.

As we go to press the **TRIBUNE** brings a report that the Fleet had taken the Port Royal Forts, had contemplated attacking Beaufort, had taken **CHARLES TON**, and that the Rebel Fleet had been dispersed. It also again reports the capture of the pirate Sumter. There is a report of a mutiny in the Rebel Army and the burning of the Norfolk Custom-House. These are reports and of course exaggerated.

Well, the thing is done! Fremont has been removed! And the patriot who gathered around him, by his own popularity, by the bent of a genius that has never known failure, by the real worth and honor of the man, an army sufficient to baffle and defeat the enemy of the whole country and the interested enemies of half-slave Missouri; just at the moment when the people of the whole North were looking to him for glorious results from his active and energetic preparations, he is sacrificed upon the altar of political envy; those who placed him there being fearful that the gallant standard bearer of '56 would acquire too great an influence with the free minds of the North. No better evidence of the true patriotism of the man is wanted than his conduct upon receiving his order of removal: he was just on the eve of battle, the end that he had toiled for so long was about to be accomplished, the men who had sworn to follow him to the death were impatient and eager for the fray, the army was prepared to raise Freedom's Banner on a more noble eminence than that of the desert mountain, the morning sun was to shine on a more glorious contest for Freedom in the West; but "Republics are ungrateful," the hand that was raised in power must fall lifeless to the side, and the patriotic hope and ambition must be crushed, while envy, jealousy and fear seek a solace in his removal. When the army heard of the removal, great excitement and indignation prevailed; whole companies threw down their arms and refused to march under any other Commander, officers threatened to resign and go home leaving the field, unfought, to the Secessionists; but, Fremont, with the same power that had gathered them together, calmed the angry storm, and while yet smarting under the great injustice, spoke noble words of patriotism, urging them not to look to the individual but to the Nation. What could be more noble! Holding a power in his hand with which he could have made the whole Nation tremble, he gives it up without a murmur, hoping that in his removal his Country may be benefited.

Why the Government removed him and why they suffered as baseless a report as that of "Thomson" to be published as an official paper, a report that has been riddled to pieces and shown to be a miserable mass of slander and mis-statements by correspondents who are acquainted with the "Department of the West," is to us incomprehensible. The people were with great unanimity agreed to all the movements he had made, and he had almost cleared Missouri of Rebels, his Department had cost the Government less than any other one Department and the entire confidence of Northern Western Freedom was reposed in him and in his Generals. But, it is done, and if future revelations can sustain the decision of those who removed him, well and good; if not, the vengeance of a free people wronged, will fall upon their guilty heads. Of this the abettors in this movement may be certain, that if by this course they thought to overthrow Major Gen. Fremont's popularity with the people of the North they have most signally failed.

It is always with pleasure that we copy from journals outside of our own State notices of the real worth and ability of Pennsylvania's sons. The following we clip from the New York Tribune of the 4th inst., and as it comes from a source which a few weeks since was not wont to compliment Gen. Cameron, our readers may believe that there is truth in its forcible statements: "The Secretary of War and the Secretary of the Treasury arrived in this city on Saturday night, both on business connected with their Departments. They timed their visit to the journey of Gen. Scott, and made that the occasion of a demonstration of personal respect to the veteran commander on his way to retirement from his labors and his rank. Mr. Chase's visit was connected with the interests of the Financial Department over which he so ably presides. Secretary Cameron inspected yesterday the fortifications which guard our harbor. He will go to-day to West Point, and thence to Springfield in Massachusetts to examine the United States Army. He will probably continue his journey to Boston to inspect the defenses of that city against attack from sea. Mr. Cameron's great labors in raising equipment, and organizing the army with which the rebellion is to be crushed—the vigilance, wisdom, and practical ability with which he has guarded the public interests while providing for the sudden expansion of the military power of the nation from eighteen thousand men to half a million, are at last recognized by the country, and will soon be a matter of history. At the age of 63, and in the possession of an ample fortune acquired in business enterprises, the Secretary took charge of the War Department at a time when its duties were more burdensome than ever rested upon any War Minister of France in the years of her greatest struggles; whether under the Republic or under the Empire. The National impatience has demanded impossibilities—When the magnitude of the contest was engaged in has been appreciated by the people, and their determination to succeed, has set into an inflexible moral principle, justice will be done to Simon Cameron's administration of his enormous trust.

On the subject of continuous advertising, a French editor has remarked, that the first time a man sees an advertisement in his newspaper he takes no notice of it; the second time he looks at the name; the third time he looks at the price; the fourth time he reads it; the fifth time he speaks of it to his wife; the sixth time he buys.

Notice to the Families of Volunteers.
THE COUNTY COMMISSIONERS having made arrangements for securing a loan at the next December Term of Court, the Board of Relief will continue to issue orders in all such cases as shall seem equitable and proper. The next meeting of the Board will be on Tuesday, the 10th day of December next. That justice may be done to all parties the Board require that all applications for Relief shall be made in writing, stating that the applicant has volunteered in the service of the United States under the orders of the Governor of this Commonwealth, also stating the exact circumstances of the family of said Volunteer at the time of the application, and to be certified by an affidavit of some responsible citizen acquainted with all the facts of the case.

It is further understood by the Board that the Relief granted is only for present necessity, and that the Volunteer as soon as practicable will forward a portion of his wages for the use of his family.
By order of the Board of Relief:
L. B. COLE, Com's Clk.
Commissioner's Office, Nov. 13, 1861.

Prospectus OF THE SCIENTIFIC AMERICAN.
SEVENTEENTH YEAR.
A new volume of this widely circulated paper commenced on the 6th of July. Every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are expressly for its columns. The Scientific American is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce and the Industrial Pursuits generally, and is valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library and the Reading Room.
The Scientific American has the reputation, at home and abroad, of being the best weekly publication devoted to mechanical and industrial pursuits now published, and the publishers are determined to keep up the reputation they have earned during the six years and a half since connected with its publication.
TERMS.
To mail subscribers:—Two Dollars a Year or One Dollar for six months. One Dollar pays for one complete volume of 416 pages; two volumes comprise one year. The volumes commence on the first of January and July.
CLUB RATES.
Five Copies, for Six Months \$4
Ten Copies, for Six Months \$8
Ten Copies, for Twelve Months \$15
Fifteen Copies, for Twelve Months \$22
Twenty Copies, for Twelve Months \$28.
For all clubs of Twenty and over, the yearly subscription is only \$1.40. Names can be sent in at different times and from different Post-offices. Specimen copies will be sent gratis to any part of the country.
Western and Canadian money of Post-office stamps taken at par for subscriptions. Canadian subscribers will please to remit 25 cents extra on each year's subscription to pre-pay postage.
No. 37 Park-row, New York.

Gov. Curtin gives notice that no pardons will hereafter be granted without due notice in the county once a week for two consecutive weeks of the application, full notice to the District Attorney and consultation with the Judge who presided at the trial.

\$25! EMPLOYMENT! \$75!
AGENTS WANTED.
We will pay from \$25 to \$75 per month, and all expenses, to active Agents, or give a commission. Particulars sent free. Address: ERIC SWING MACHINE COMPANY, E. JAMES, General Agent, Milan, Ohio, Oct 21/61

SPECIAL NOTICE To Consumptives.
THE Advertiser, having been restored to health in a very few weeks by a very simple remedy after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge), with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. The only object of the subscriber in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing and may prove a blessing.
Parties wishing the prescription will please address Rev. EDWARD A. WILSON, Williamsburg, Kings County, New York.

NOTICE
Is hereby given to all those indebted to STEBBINS & KELLY, either by note or book account, to call and make settlement before the first day of January next, and thereby save costs.
H. J. CLMSTED, S. D. KELLY.
Coudersport, Nov. 5, 1861.

THE LADY'S FRIEND.
GODEY'S LADY'S BOOK for 1862.—The world's favorite. For 32 Years the Standard Magazine. Pronounced by the Press of the United States, the best Lady's Magazine in the World and the Cheapest.
The Literature is of that kind that can read aloud in the family circle, and the clergy in immense numbers are subscribers for the Book.
The best Lady Writers in America contribute to its pages, and we have some that write for no other Magazine.
The Music is all original, and would cost 25 cents (the price of the Book) in the music stores; but most of it is copyrighted, and cannot be obtained except in "Godey."
Our Steel Engravings.—All efforts to rival us in this have ceased, and we now stand alone in this department giving us more money more and infinitely better engravings than are published in any other work.
Godey's Inkless Double-Sheet Fashion-Plates.—Containing from five to seven full length Colored Fashions on each plate. Other Magazines give only two.
Far Ahead of any Fashions in Europe or America.—Godey's is the only work in the world that gives these immense plates, and they are such as to have excited the wonder of publishers and the public. The publication of these plates cost \$10,000 more than Fashion-plates of the old style, and nothing but our wonderfully large circulation enables us to give them. Our other magazines cannot afford it. We never spare money when the public can be benefited. These fashions may be relied on. Dresses may be made after them, and the wearer will not subject herself to ridicule, as would be the case if she visited the large cities dressed after the style of the plates given in some of our so-called fashion magazines.
Our Wood Engravings, of which we give twice or three times as many as any other magazine, are often mistaken for steel.
Imitations.—Beware of them. Remember that the Lady's Book is the original publication and the cheapest. If you take Godey you want no other magazine.
Drawing Lessons.—No other Magazine gives them, and we have given enough to fill several large volumes.
Our Receipts are such as can be found nowhere else. Cooking in all its varieties—Confectionery—the Nursery—the Toilet—the Kitchen—the Laundry.—We originally started this department, and have peculiar facilities for making it most perfect.
Ladies Work Table.—This department comprises engravings and descriptions of every article that a lady wears.
Model Colleges.—No other Magazine has this department.
Terms, Cash in advance: 1 copy one year, \$3; 2 copies one year \$5; 3 copies one year, \$6; 4 copies one year \$7. Five copies one year, and an extra copy to the person sending the club, \$10. Eight copies one year, and an extra copy to the person sending the club, \$15; Eleven copies one year, and an extra copy to the person sending the club, \$20. And the only magazine that can be introduced into the above clubs in place of the Lady's Book is Arthur's Home Magazine.
Treasury Notes and Notes of all solvent banks taken at par. Be careful and pay the postage on your letter.
Address: L. A. GODEY, 323 Chestnut Street, Philadelphia, Pa.

AYER'S CATHARTIC PILLS.
Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the result of a bilious or nervous illness. Some of the ailments which require their use should be averted by a timely use of the right remedy. They cleanse the bowels, purify the blood, and let the fluids excrete naturally. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs the natural functions. These, if not removed, rest upon themselves and the surrounding organs, producing general aggravation, suffering and disease. While in this condition, oppressed by the derangement, Ayer's Cathartic Pills are used directly they restore the natural action of the system, and with it the buoyant feeling of health again! What is true also is apparent in this trivial and common complaint, is also true in many of the most dangerous and dangerous diseases. The same purgative effect exists there. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and surely cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure. Statements from leading physicians in some of the principal cities, and from other well known public persons.
From a Flourishing Merchant of St. Louis, Feb. 4, 1856.
Dr. J. C. Ayer: Your Pills are the purgative all that I know. I have used them for a long time, and they have cured me of a bilious disorder, and of a complaint of the bowels which was incurable for years. Her mother has been long given to the use of your pills, and she has been cured, and so has her child. After our child was cured, she also tried your Pills, and they have cured her.
ASA HORNBIDGE.

As a Family Physic.
From Dr. J. W. Carter of New Orleans.
Your Pills are the prince of purgatives. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effective in their action on the bowels; which makes them invaluable to us in the daily practice of medicine.
Headache, Sick Headache, Foul Stomach.
From Dr. E. W. Preble, Baltimore.
Dear Dr. Ayer: I cannot answer you what complaint I have cured with your Pills better than to say all that I ever read with a purgative medicine. I place great dependence on your pills in my daily practice, and believe as I do that your Pills afford us the best we have, I do not value them highly.
ED. W. PREBLE, Clerk of Steamer Curlew.

Bilious Disorders—Liver Complaints.
From Dr. Theodore B. B. of New York City.
Not only are your Pills admirably adapted to their purpose, but I find their medicinal effect on the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any other remedy I can mention. I sincerely trust that we have not found a purgative which so thoroughly cures the disease of the profession as your Pills.
DEPARTMENT OF THE INTERIOR, Washington, D. C., Feb. 1856.
I have used your Pills in my general and hospital practice ever since you made them, and cannot locate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, compared with any other remedy, when given in small doses for that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.—E. W. HALLE, D. M., Physician of the Marine Hospital.

Dysentery, Diarrhoea, Belax, Worms.
From Dr. J. G. Green of Quincy.
Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best agents I have ever found. Their alternative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.
Dyspepsia, Impurity of the Blood.
From Mrs. J. F. Hines, Pastor of Baptist Church, Boston.
Dr. Ayer: I have tried your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, is the very best remedy I have ever known, and I can confidently recommend them to my friends.
Yours, J. F. HINES.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, &c.
From Dr. J. A. Langin, Montreal, Canada.
Too much cannot be said of your Pills for the cure of constipation. I believe they are the most effectual remedy for the relief of the bowels, when given in small doses for that complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe constipation originates in the liver, and your Pills affect that organ and cure the disease.
From Mrs. E. Smart, Physician and Midwife, Boston.
I find one or two large doses of your Pills, taken at the proper time, are excellent purgatives of the natural secretions when wholly or partially suppressed, and also very effectual to cleanse the stomach and bowels, and to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M.D.

Rheumatism, Gout, Neuralgia, Dropsy, &c.
From Dr. J. A. Langin, Montreal, Canada.

Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.—E. W. HALLE, D. M., Physician of the Marine Hospital.

Dysentery, Diarrhoea, Belax, Worms.
From Dr. J. G. Green of Quincy.
Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best agents I have ever found. Their alternative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.
Dyspepsia, Impurity of the Blood.
From Mrs. J. F. Hines, Pastor of Baptist Church, Boston.
Dr. Ayer: I have tried your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, is the very best remedy I have ever known, and I can confidently recommend them to my friends.
Yours, J. F. HINES.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, &c.
From Dr. J. A. Langin, Montreal, Canada.
Too much cannot be said of your Pills for the cure of constipation. I believe they are the most effectual remedy for the relief of the bowels, when given in small doses for that complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe constipation originates in the liver, and your Pills affect that organ and cure the disease.
From Mrs. E. Smart, Physician and Midwife, Boston.
I find one or two large doses of your Pills, taken at the proper time, are excellent purgatives of the natural secretions when wholly or partially suppressed, and also very effectual to cleanse the stomach and bowels, and to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M.D.

Rheumatism, Gout, Neuralgia, Dropsy, &c.
From Dr. J. A. Langin, Montreal, Canada.
