NEW VOLUME:

On the seventh of September, 1861, the New York WEEKLY TRIBUNE commenced the twenty-first year of its existence; the DAILY TRIBUNE being some months older and the SEMI-WEEKLY TRIBUNE somewhatyounger. For more than twenty years, this journal has labored in what its conductors have felt to be the cause of humanity, Justice and Freedom, endeavoring to meliorate the condition of the oppressed and unfortunate, to honor and en-courage useful exertion in whatever sphere, and to promote by all means the moral, intellectual, and material advancement of our country. It has aimed to be right rather than popular, and to espouse and commend to-day the truth that others may not be willing to accept till to-morrow. In pursuing this course, mistakes have doubtless been made and faults committed, but, have in all things incited our readers to think and judge for themselves rather than adopt blindly our own or others' conclusions, we believe we may fairly claim for this journal the credit of having qualified its readers to detect and expose even its errors. To envelope the minds of the young by the most general, thorough and practical Education, and to encourage and stimulate Productive Industry through free grants of Public Lands to actual settlers and cultivators, as also the protection of immature or peculiarly exposed branches from too powerful foreign competition, are among the aims to which this journal has adhered through good and evil report, and which it steadfastly commends to American patriotism

country we hold it to have originated in a Rebellion more wanton, wicked, inexcusable, Having done all we could without a surrennessed the forbearance, meckness and longsought to avert its horrors, we hold it our clear duty, with that of every other citizen, to stand by the nation and its fairly chosen rulers, and to second with all our energies their efforts to uphold the Union, the Constitution and the supremacy of the laws. And. though the Rebellion has become, through usurnation, deception, terrorism, and spoilation, fearfully strong, we believe the American Republic far stronger, and that the unan-imous, carnest efforts of loyal hearts and hands will insure its overthrow. But on all questions affecting the objects, the scope and duration of this most extraordinary contest. we defer to those whom the American People have clothed with authority, holding unity of purpose and of action indispensable in so grave an emergency.

In a crisis like the present our columns

must be largely engrossed with the current history of the War for, the Union, and with elucidations of its more striking incidents .-We shall not however remit that attention to Progress, to Crops, Markets, &c., &c., which lattack immediate relief from pain and sick-sults in cases of this description:—Kings area by we trust, won for THE TRIBUNE ness will be obtained. Literature, to Foreign Affairs, to Agricultural an honorable position among its cotempora-ries. Our object is and shall be to produce a comprehensive newspaper, from which a careful reader may glean a vivid and faithful history of the times, not merely in the domain of Action but in that of Opinion also. As our tacilities for acquiring information increase with years, we trust that an improvement in the contests of our journal is perceptible, and that, in the variety and fullness of intelligence afforded, we may still hope to "make each day a critic on the last." In this hope we solicit a continuance of the generous measure of patronege hitherto accorded to our jour-strength of the whole system.

MOFFAT'S LIFE PILLS AND PHENIX BITTERS

THESE MEDICINES have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the Globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the Vegetable Life Medicines

Are well known to be infallible. DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow, of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ili-Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspensia, will vanish, as a natural consequence of its cure. COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave

the bowels costive within two days.
FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL. Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by con-bustion in Hydrogen. Sanctioned by the bustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europa and the United States, and prescribed in their practice.

The experience of thousands daily prove that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicates its necessity in almost very conceivable case. Innoxious in all maladies in which it has

seen tried, it has proved absolutely curative kept on hand, or immediately procured in each of the following complaints, viz: In Debitity, Nervous Affections, Emanciation, Dyspepsid, Constipation, Diarrhea, Dysentery, Incipient Consumption, Scrofulous Tuberculous, Satt Rheum, Mismenstruation, Whites, Chlorosi, Liver Complaints, Chronic Headaches, Rheuma-tism, Intermittent Favers, Pimples on the Fau,

In eases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested to female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical clianges, and that complication

In Nervous Affections of all kinds, and for reasons familial to medical men, the operation of this preparation of iron must necessarily be salutary, for unlike the old oxide, it is rigorously tonic without being exciting and overheating; and gently, regularly aperient even in the most obstinate cases of costine-

single box of these Chalybeate Pilis has often sufficed for the most habitual cases, in In unchecked Diarihoa, even when advanced to Dysentery, confirmed, emaciating, and ap-purently malignant; the effects have been

equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent heetic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.
In Scrofulous Tuberculosis, this medicated

ron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities. The attention of females cannot be too can-

fidently invited to this remedy and restorator; in the cases peculiarly affecting them. In Rheumatism, both chronic and inflamy in immense numbers are subscribers for matory—in the latter, however, more decided by the Book.
