Those who have promised to bring WOOD on subscription, will oblige us very much by attending to it an early day.

Those who have friends in the army and wish them to see any matter of interest published in the JOURNAL, had better cut out the article and send it in an envelope, as we hear that they do not get papers sent them.

Again we say, have you tried J. H. DeLand & Co.'s Chemical Saleratus? If not, get a paper at once and be astonished at its happy results. It is for sale by all reliable wholesale and retail dealers and at wholesale by the manufacturers, at Fairport, Monroe Co., N. Y.

We learn from a private letter that MARK L. FRENCH, of this place, has been appointed Adjutant in the 1st Pennsylvania Regiment of Reserve Cavalry, McCalls division. This is gratifying to his friends and complimentary to "little Coudersport." We give him our best wishes and wish him much success in this doubtless well-deserved promotion, and may he long live to fight under the old "Stars and Stripes."

DIED: In the Hospital near Camp Pierpont, in the vicinity of the Chain Bridge, on Wednesday the 13th inst., of Consumption, D. W. STRAUS, of Capt. Barr's Company, in Campbell's Artillery. Mr. Straus is from the Ouzayo in this county, and was one of the first when war was declared, to shoulder his musket and march to the defence of his country. We learn from a citizen of this place who was in Camp at the time of his death, that he was much respected as a soldier and friend by his comrades in arms.

If John C. Fremont could spend \$5,000,000 in three months in the capacity of a General with 8000 troops, how much would he have spent among 100,000 Republicans in four years, had he been elected President in 1856?—*Leisurely Argus.*

If James Bushanan had not proved himself a traitor and delivered over to his Southern brethren all the munitions of war possible, how many lives and how much treasure would have been saved which is spent in pay for his imbecility?

And, were not the people "slightly fooled" when they elected the Old Public Fancied in place of the true and gallant Fremont?

The Rev. J. C. Fletcher gave us a brilliant lecture on the religion, customs and people of Brazil. Seldom have we relished anything more than the picture he laid before his audience of that exuberant garden of the tropics laden with its strange variety of fruits and flowers, teeming with perpetual harvest for the hand of man. Surely that country must be the garden of the world, and if its people had the enterprise which moves this Yankee nation, imagination could not set a bound to the results they would produce there. As relevant to this comparison the Rev. gentleman stated that the best Remedies employed there for the diseases to which they are subject, are invented and supplied to them by our well known countryman, Dr. J. C. Ayer of Lowell, Mass., and that not the people only, but the priesthood and the court of the Emperor down, have constant recourse in sickness to the widely celebrated American Chemist.—*Legder, Boston.*

PENNSYLVANIA MOLASSES.—The Chester county *Phoenix* says that the Chinese Sugar Cane has been successfully cultivated this year by many farmers in the western part of Chester county. The crop is quite abundant and Mr. Cloum, near Cochranville, has a mill that is running day and night in the manufacture of molasses by steam power.—The apprehension that sugar would be dear induced the farmers to go extensively into the cultivation of the Sorghum. The same paper is also informed in Upper Oxford township, Chester county, a mill has been erected for the manufacture of Sorghum molasses, which is now grinding sufficient cant to make from seventy-five to one hundred gallons per day. The charge for grinding the cane and making it are, under fifty gallons, fifteen cents per gallon; for fifty gallons or over, twelve and a half cents per gallon. Thus it appears that molasses may in time become one of the staple products of the Keystone State. Would it not be well for our farmers to pay particular attention to the fact of its being possible to raise their own molasses and perhaps have some for market where the ground happens to be adapted to its culture. Since secession has taken such a strong hold upon our friends in the South, who have been in the habit of supplying us with this necessity, it might be well for those North to act upon this fact and hereafter be even more independent than formerly. Let the people of Potter try this the next year, and see whether this climate favors its culture.

OUR PRESENT DUTY.

The American people with all their pretended desire for change and for attaining something better than that found in the present, are yet slow to grasp facts and are invariably opposed to anything that threatens to set aside old-time customs. Other countries which are older and calmer than the youths of their governments by centuries, have some reason for a dislike of change. Their laws and institutions have been weighed in the balance of experience; but we have not lived long enough to know from effects what causes should be thrown into the scale, and therefore should be more willing to act upon anything that promises reform. The United States is not yet out of its childhood, the natural principles of its people have not yet been harmonized, it keeps under the same roof and feeds with the same hand systems entirely antagonistic, with one hand it raises freedom's flag, with the other binds the chains of slavery.

The people, at the present time, do not appear to have a full appreciation of the troubles which have come upon them, do not feel that they who are fighting against the country are any more than mere party enemies, and seem to think that as we have lived upwards of eighty years and have conquered past troubles, so now it is but an angry cloud that is darkening our sky, which a few short hours may scatter and leave us but another pledge of our strength and greatness. This is a mistake which must be corrected, and the sooner the better for the good of the country. We must act towards our southern enemies as we would toward a foreign foe. We must use every possible means for the speedy ending of the war. Whenever or wherever we can weaken their power we must do so. If slavery is to them a source of pecuniary and physical aid, wipe it out; and, if our Congress needs a stimulant for this work, the people should give it in the shape of well-filled petitions. If slavery is the cause of our troubles—as a majority of the people in the North think it is—the surest way to free us from the effect is to remove the cause. By some, this may be called bigoted-funational-abolitionism, that in the troubles of the country cares more for the fulfillment of its one idea than for the people's good; but, different persons may have different opinions and both be honest—and we believe there are a majority of the people in the North to-day in favor of freeing the slaves of every Rebel, and who honestly believe that in so doing they not only do what the country should have done years ago, but what is particularly best suited at the present time to cripple the fast expiring energies of the Southern Rebellion. We hope this idea will be made general (in the form of petitions) throughout the whole North, and that when Congress meets, as it will in a few days, it will have laid before it the desire of all free America, saying, "make loose the bonds of the slave and let the oppressed go free." Last year this course might not have been politic, as it would have caused needless agitation and affected no end either for the white man or for the slave. Now, when the South is in arms for the perpetuation of this blighting system, the free part of the nation are under no obligation either to keep or help perpetuating it, but by all the laws of war and of self-defense would be just and right in abolishing the whole system. The following was the opinion of John Quincy Adams, given on the floor of Congress: "I lay this down as the law of nations. I say the military authority takes, for the time, the place of all municipal institutions, slavery among the rest. Under that state of things, so far from its being true that the States where Slavery exists have the exclusive management of the subject not only the President of the United States, but the Commander of the Army has power to order the universal emancipation of the slaves."

From the instant that your Slave-holding States become the theatre of war, civil service, or foreign, from that instant, the war powers of Congress extend to interference with the institution of slavery, in every way in which it can be interfered with—from a claim of indemnity for slaves taken or destroyed; to the cessation of the State burdened with slavery to a foreign power.

If civil war come, if insurrection come, is this besieged Government to see millions of its subjects in arms, and have no right to break the fetters which they are forging into swords? No! The War Power of the Government can sweep this institution into the Gulf.

PETerson's MAGAZINE.—We are in receipt of this popular Lady's Magazine for December. It is a splendid number. The title page for 1861 is the handsomest we ever saw. "Peterson" will be greatly improved in 1862. It will contain 1000 pages of double column reading matter; 14 steel plates; 12 colored steel fashion plates; 12 colored patterns in Berlin work, embroidery, or crochet, and 800 wood engravings—proportionally more than any other periodical gives. Its stories and novelets are by the best writers. In 1862, Four Original Copyright Novelets will be given. Its Fashions are always the Latest and Prettiest! Every neighborhood ought to make up a club. Its price is but Two Dollars a year, or a dollar less than Magazines of its class. It is the Magazine for the Times! To clubs, it is cheaper still, viz:—three copies for \$5, five for \$7.50, or eight for \$10. To every person getting up a club, the Publisher will send an extra copy gratis, as a premium. Specimens sent (if written for) to those wishing to get up clubs. Address, post-paid, CHARLES J. PETERSON, 306 Chestnut Street, Philadelphia.

The Cleveland Leader says the mails are flooded with circulars appealing for contributions to the "U. S. Humane Society," which professes to act by consent of the Government, and under its authority, in obtaining funds for the army ambulances and hospital supplies. The modest sum of only thirty thousand dollars is required, and subscriptions from a dime and upwards are solicited. It is needless to say that the whole thing is a humbug, and a gross attempt to swindle the patriotic public.

APPOINTED.—Hinton Rowan

Helper, the author of the "Impending Crisis," has been appointed Consul to Buenos Ayres, and will leave in a few days for his post of duty. This announcement so seemingly important is yet fraught with something of more vital interest than the mere appointing of some man to a Consulate. It is but a few short years ago that men holding the views on National subjects that Mr. Helper does, were not only thought constitutionally unfit for any office, but were considered amenable to the law as practitioners of treason, and the feeling against them was almost as bitter as against the supposed witches of Massachusetts. And to-day we consider it an evidence of a more healthy and liberal state of feeling in the whole country when a Chief Magistrate appoints, and with few dissenting voices, one of the first advocates of the principles that a few years ago consigned Loredjoy to his grave and a printing-press to the waters of the Ohio. But such are the steps that Liberty is taking and such the landmarks she so proudly plants along her path. The days of witch-burning and the days when the anti-slavery men of the country could not open their mouths for fear of the hemp, are past never more to return.

MANHOOD.
HOW LOST, HOW RESTORED.
Just published, in a sealed envelope, Ouzayo, N. Y., THEATRE, AND RANICK'S, CURATIVE, of Seminal Weakness, Sexual Debility, Nervousness and involuntary emissions, producing impotency, Consumption and Mental and Physical debility.
BY DR. J. C. AYER, M. D.

The important fact that the awful consequences of self-abuse may be effectually cured without internal medicines or the dangerous applications of caustics, instruments, medicated bolgies, and other empirical devices, is here clearly demonstrated, and the entirely new and highly successful treatment, as adopted by the celebrated author fully explained, by means of which every one is enabled to cure himself perfectly, and at the least possible cost, thereby avoiding all the advertised nostrums of the day. This lecture will prove a boon to thousands and thousands.

A YER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.
And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Bells, Itchings, and all Skin Diseases.

Dr. J. C. Ayer & Co. Gentls: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous Tendency, I suffered from it in various ways for years. Some of the symptoms were in my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago I broke out on my head and neck, covered my face and neck with eruptions, which was painful and beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disease grew worse the longer I was obliged to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent for it, and used it in small doses at a teaspoonful every month, and used almost three bottles. New and itching eruptions began to appear, but they were less and less while I used it. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, I hold you to be the best of the medicine of the age, and remain ever gratefully,
Yours,
ALFRED H. AITKEN.

St. Anthony's Fire, Itch of Scrofulous Tetter and Salt Rheum, Scald Head, Ringworm, Scare Eruptions, Etc.
Dr. Robert M. Preble writes from Salem, N. Y., 1859, that he has cured an intractable case of Dropsy, which threatened to terminate fatally, by the persevering use of your Sarsaparilla, and clearing the blood with one cure, which was rendered more effectual by the use of your Symplytic by his constantly.
Bronchocels, Gout or Swelled Neck.
Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me of Gout, and relieved me from swelling on the neck, which I had suffered from over two years."
Leucorrhoea or Whites, Gonorrhoea, Hemorrhoids, Uterine Obstruction, Piles, etc.
Dr. J. H. S. Clanning, of New York, writes: "I most cheerfully comply with the request of your agent to say I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which we employ such a variety of medicines, and which render the use of Scrofulous diet. I have cured many intractable cases of Leucorrhoea by it, and some which the complaint was caused by absorption of the secretions, which I had failed to cure by any other means within my knowledge equal to it for these female derangements."
Edward S. Marrow, of Newbury, Ala., writes: "A dangerous scrofulous tumor on one of my legs, which had been treated for length by the use of your Extract of Sarsaparilla. Our physician thought nothing but amputation could afford relief, but I used your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Heretorial Diseases.
New Orleans, 25th August, 1859.
Dr. J. C. AYER, Sir, I cheerfully comply with the request of your agent, and refer you to some of the effects I have realized with your Sarsaparilla.
I have cured with it in my office, and in the country, complaints for which it is recommended, and have found its effects truly wonderful in the cure of Scrofulous and Heretorial Diseases. One of my patients, a young man of Seminal Weakness, Nervousness and involuntary emissions, producing impotency, Consumption and Mental and Physical debility.

Rheumatism, Gout, Liver Complaints.
Ipswich, Essex, Great Britain, 10th July, 1859.
Dr. J. C. AYER, Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which had the effect of paralyzing my arms, and in the spring of almost three months ago, I tried your Sarsaparilla. The first bottle cured me in two weeks, and restored my general health so much that I am far better than I have been in years.
I think it is the best medicine I ever tried.

Dyspepsia, Heart Disease, Pits, Eruptions, Melancholy, Nervousness.
Many remarkable cures of these affections have been made by the alternative power of this medicine. It stimulates the vital functions into vigorous action, and thus cures nervous disorders which would be supposed beyond remedy. Such a remedy has long been wanted by the sufferers of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumption in advanced Stages of the Disease.
This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, than it is needed here to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the world, and its effects are everywhere. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their homes, and others have seen the noble and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
Prepared by Dr. J. C. AYER & CO., Lowell, Mass.
