An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by com bustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily protes that no preparation of from can be compared with it. Impurities of the blood, depression with it. of vital energy, pale and otherwise sickly complexions indicates its necessity in almost every conceivable case.

Innoxious in all maladies in which it has

been tried, it has proved absolutely curative in each of the following complaints, viz: Dyspesia, Construption, Berofulous, Dysentery, Incipient Consumption, Serofulous Tuberculous, Salt Rheum, Mismenstruction, Whites, Chlorom Liver Complaints, Chronic Headaches, Rhennaism, Intermittent Fevers, Pimples on the Paci,

In cases of General Debility, whether the result of acute disease, or of the continued disminution of nervous and muscular energy from chronic complaints, one trial of this reswhich no description nor written presented would render credible. Invalids so long bed. ridden as to have become forgotten in their own neighborhoods, have suddenly re-ap-peared in the busy world as if just returned from protracted travel in a distant land.

Some very signal instances of this kind are attested to female Sufferers, emacrated victime of apparent marasmus, sanguineous exhaus-tion, critical changes, and that complication of nervolus and despeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for ensons lumiliar to medical men, the operation of this preparation of iron must necessarily be salutary, for unlike the old oxide it is rigrously tonic without being exciting and overheating; and gently, regularly aperient even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkable effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes In unchecked Diarrhoad even when advanced We have also on hand and manufacture the to Dyschtery, confirmed, emaciating, and ap-

parently malignant, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent heetic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and ia-

eresting instances. In Scrofulous Tuberculosis, this medicated ron has had far more than the good effect of
