In the beginning of the last year, when its present proprietors assumed control of THE KNICKERBOCKER, they announced their determination to spare no pains to place it in its true position as the leading literary Monthly in America. When rebellion had raised a successful front, and its armies threatened the very existence of the Republic, it was impos-sible to permit a Magazine which in its circu-lation reached the best intellects in the land, to continue in a purely literary course, as if insensible or indifferent to the dangers which threatened the Union. The proprietors accordingly gave notice that it would present in its pages forcible expositions with regard to the great question of the times: How to preserve the United States of America in their integrations.

GOOD FOR CONSUMPTIVES.

GOOD FOR CONSUMPTIVES. rily and unity. How far this pledge has been redeemed, the public must judge. It would, SPALDING'S THROAT CONFECTIONS however, be mere affectation to ignore the seal placed on these efforts. The proprietors gratefully acknowledge this, and it has led them to embark in a fresh undertaking, the publication of THE CONTINENTAL MONTHLY, deof approbation which the public has already voted to literature and national policy, in which Magazine those readers who have followed with sympathy the political and social views to forcibly expressed of late in our pages, may find them still further enforced by most eminent and energetic minds in

America. The Knickerbocker, while it will remain firm in support of the Union, will be found, according to the originally expressed intention of the publisher, devoting itself more exclusively to of the Throat, to get a Package of my Throat tain remedy for the worst cases of GRAVEL.

L. A. GODEY. 323 Chestnut Street, Philadelphia, Pa. The Rochester Straw-Cutter.

machine, in this county. It is covenient durable, and CHEAP. Dec. 1, 1860. 12

An aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicates its necessity in almost every conceivable case.
Innoxious in all maladies in which it has

been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Affections, Emanciations, Dysperial, Constitution, Diarrhaa, Dysentery, Incipiest Consumption, Scrofulous Tuberculosis, Satt Rheum, Mismenstruation; Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face;

fc. In cases of General Debility, whether the result of acute disease, or of the continued aiminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bedridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested to female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, eritical changes, and that complication

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for unlike the old oxide, it is vigorously tonic without being exciting and overheating; and gently, regularly aperient even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkable effectual and permanent a remedy for Piles, upon which it ilso appears to exert a distinct and specific action, by dispersing the local tendency which In Dyspepsia, innumerable as are its causes a single box of these Chalybeate Pilis has of-

ten sufficed for the most habitual cases, including the attendent Costiveness. In unchecked Diarrhoa, even when advanced to Dysentery, confirmed; emaciating, and apparently malignant, the effects have been

equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.
In Scrofulous Tuberculosis, this medicated

iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known lia-The attention of females cannot be too confidently invited to this remedy and restorative,

read aloud in the family circle, and the clergy in immenso numbers are subscribers for the Book.
