Fredrika Bremer, the popular Swedish authoress, has written an address to her American friends congratulating them on the issuing of President Lincoln's Message in favor of emancipation She praises the President NOTICE TO EVERYBODY very highly, and thinks that the nation is now about to be redeemed from the great evil of Slavery which has so long divided its coun sels and retarded its prosperity.

The President recently transmitted t the Senate a Message, in response to a resolution, to the effect that Gen. Stone was arrested at his instance and by his order, and that he should have as speedy a trial as was consistent with the public interest; but that the exigencies of the service were such that meither officers to form, nor witnesses to attend, a Court martial could at present be spared from the field.

BEAUTIFY YOUR HOMES,—It is a pleasant sight to see the surroundings of dwellings beautified with trees, shrubbery, painted or white-washed fences, etc.; and we are pleased to note that some of our citizens are improving and beautifying their homes with these additions. God has provided us with shelters from the heat and cold, and it conduces to both our health and pleasure to make them as attractive as possible.

WHAT EYES !- A lady, writing a sensa tion story, thus hugely describes the eyes of her heroine:

"There was no flickering light, like the twinkling of a star, in her large black eyes-

Surely, such a remarkable girl must have a history. "Two great plants!", That'll do.

REPUBLIC OF SALVADOR .- M. Lorenzo Mondufar last week , resented his credentials as Minister of the Republic of Salvador. He said his Government had ordered him to say that it earnestly desires the peace, prosperty and glory of the United States, over which the President presides; adding that the people of Salvador are progressive, and eminently American, and that they offer up their vows to Heaven that the people of the United States may continue prosperous. The President replied in appropriate terms. -

This season is pronounced by persons of a fervid imagination and a poetic fancy to be the season of beauty, of splendid and gaudy imagery, of gorgeous and sublime scenery the season which inspires the heart with all the tender emotions and love-sick sentimentalities which were ever conceived by bard or artist, when the truth is, it is nothing else than the ragged and filthy end of winter, or the muddy, dirty vestibule of summer. I have cured many investigate cases of Lencorrhoon by it, and some where the complaint was caused by ulceration of the ulcrue. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dancerous overrian tumor on one of the females in my family, which had defied all the remedles we could omploy, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and, it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayra: Sir, I cheerfully comply with the repeated of your agent, and report to you some of the effects I have crealized with your Sarsaparilla.

I have crealized with it, in my practice, most of the complaints for which it is recommended, and have found in a ffects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic micers in his throat, which were consuming his palate and the top of his month. Your Sarsaparilla, steadly takess, ared him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration lead atten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers leaded, and he is well again, not of course without some disfiguration to his face. A womany-we had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so remaitive to the weather that on a damp day she suffered extructed entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this treparation from your bloratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fratermally yours, G. V. LARIMER, M. D.;

Dn. J. C. Aven: Sir, I have been afflicted with a palaful chronic Hiteumotism for a long time, which harded the
skill of physicians, and stuck to me in 'spite of all the
emedical could find, until I tried your Sarasparilla. One
sottle cared me in two weeks, and restored my general
scalts so much that I am far better than before I was
uttacked. I think it a wonderful medicine. J. FREAM. Jules Y. Getchell, of St. Louis, writes: "I hav, been afflicted for years with an offiction of the Lies, which festioved my health. I tried every thing, and or y thing falled to relieve me; and I have been a broken-down men latiet to relieve me; and I have been a proken-down man-for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try year Sarsquarilla, because he said he knew you, and any thing you made was worth trying. By the bless-ing of God it has tured me, and has so purified my bood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement Ulceration, Carles and Exfoliation of the Bones. A great variety of cases have been reported to us wivers cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspensia, Heart Disease, Fitz, Epllysy, Melancholy, Negralgia

Many remarkable cures of these affections have been ande by the alterative power of this medicine. It stimmed that the vital functions into vigorous action, and thus yvercomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will be for them all that medicine can do.
