Gensumptives, do not despair till you have tried ATE's
CHERRY PECTORAL. It is mude by one of the best medical
chemists in the world, and its cures all around us bespeak
the high merits of its virtues.— Philadelphia Ledge.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unthey cure the every-day complaints of every body but also formidable and dangerous diseases that have baffed the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they'are pleasant to take; and being purely vegetable, are free from any risk of harm. Cure have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have leat their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.
