

"Nigger on the Brain"
Conservative doctors report an abatement of this epidemic, but assert that it is still so prevalent as to justify general alarm and systematic counteraction. To this end they suggest lectures, addresses, and the concerted circulation of sedative documents and tracts throughout the winter just before us. A careful diagnosis of the disease would seem to be one of the first steps to be taken in the premises. Among the recorded symptoms of the disease, the following are the most important and striking. The person attacked betrays the ravages of the malady by calmly and steadily asserting and maintaining, as if in perfect mental and bodily sanity, the following incredible propositions:

- I. That no man should be the owner in fee-simple of another man's wife and children;
- II. That when one man receives and profits by the labor of another, he ought to pay for it, even though one of them should be white and the other black;
- III. That no woman should be sold at the auction block into compulsory prostitution, even though the seller should claim to be at once her owner and her father;
- IV. That the ability of one man to earn \$10 per day, while another can earn but \$1, gives the former no natural or moral right to take to himself three-fourths of the latter's earnings, compelling him to live on twenty-five cents or less per day;
- V. That the religion which justifies and upholds this exaction must be a bogus or damned article, as unlike that of Jesus Christ as can well be conceived;
- VI. That a Government assailed and imperiled by deadly treason should not regard any of its lawful subjects as rightfully the chattels of implacable traitors, but should exhort all such to quit serving traitors and aid in counteracting their efforts, and thus secure their own freedom;
- VII. That fighting on the defensive, delaying, holding off, intrinsching, waiting to be attacked, and of course fighting only when the rebels are strongest, will never put down a gigantic Rebellion;
- VIII. That Generals who agree with the rebel chief in the fundamental principles on which they are based and still justify their treason, and who are anxious that they shall be whipped only just enough to satisfy them that slavery is safer in than out of the Union, are not likely to crush out the rebellion;
- IX. That Generals should be selected by the President for their presumed capacity, energy, efficiency, and not forced on him by military cabals and threats of bringing in Stonewall Jackson if their demands shall not be complied with;
- X. That those politicians who have ten words of criticism and reproach for the Administration and its unqualified supporters, to every one for the rebels menacing the existence of the Republic, are not likely to fight the traitors very resolutely, or seek to reduce them to unconditional submission.

Such absurd notions so thoroughly refute themselves that it cannot be necessary to bombard them by arguments.—*Tribune.*

HOW A LAWYER HEADED OFF A DRAFT COMMISSIONER.—Says the Reading (Pa.) Times—It is well known that Commissioner Kupp was very precise and exact in his proceedings; always keeping an eye to the interests of the country, while dealing honorably with all. Now it happened that among the able bodied men drafted from one of the Heidelbergers, there was an obese specimen of humanity, but whom the chances hit as one of the elect. When he received his "ticket for soup," he hastened to reading, and knowing where lived the cutest specimen of a lawyer he went straight to his office. Said he:
"I'm drafted!"
"The dues you are; it must have been a strong man that drafted you."
"Well, I'm drafted, and I want to get out. Can't march. I'll pay well."
"Very well."
The train proceeded to the office of Commissioner.
"Here," said the lawyer; "Commissioner, I have got a substitute."
Commissioner looked at the wheezy specimen for some time. "He won't do; can't march."
"But he must do," blustered out the lawyer; "and you know he will."
"He can't march; he won't do; and I can't take him."
This was what our smart friend wanted.
"He won't do; eh?"
"No, he won't."
"Well then, scratch his name off the list; he is drafted and wants to be exempted!"
The Commissioner looked at the lawyer for about a minute; then regarded the fat draft, and without speaking a word, scratched off his name!

THE BEST WORK FOR CANVASSING AGENTS.
HARPER'S PICTORIAL HISTORY OF THE GREAT REBELLION IN THE UNITED STATES.
Messrs. Harpers & Brothers have commenced the issue in Numbers of a complete History of the Great Rebellion in the United States. The work has been for many months in course of preparation, by a writer every way qualified for the task.
The introduction contains a clear and succinct account of the formation of the Confederacy of the States; the formation and adoption of the Constitution of the United States; and the establishment of the National Government; the origin, development and progress of the doctrines of Nullification and Secession; and the various phases which they assumed until their final culmination in the Great Rebellion.
The History comprises a full account, drawn from the most authentic sources, of all the Events of the War; the intrigues of the Southern leaders at home and abroad; the gradual defection of one section; the great Uprising of the People for the maintenance of the National Life and Existence; the rapid creation of an immense Army and Navy; and the Battles by Land and Sea.
The Illustrations comprise Portraits of all those who have borne a prominent part in the struggle; Maps of the different localities; Plans of the leading actions; Views of every scene of interest, and of the most important Battles. These illustrations are mostly from drawings taken on the spot by artists deputed for that purpose to accompany every division of our Army and Navy.
Every facility is afforded to the Publishers has been employed in the preparation and execution of this work; and they confidently believe it will form the most trustworthy and valuable history which can be prepared of the Great Struggle for the American Union.
Mode and Terms of Publication The work will be issued in Numbers, consisting of 24 pages of the size of *Harper's Weekly*, printed from clear type, upon fine paper, and will probably be completed in Twenty Numbers.
The Numbers will be issued at intervals, if possible, of about three or four weeks.
The price of each number, which contains matter equivalent to an ordinary volume, will be Twenty-five Cents.
The Illustrations in each number are alone worth the price asked. Men out of employment, especially Sick or Disabled Soldiers, can find no other work so sure of ready sale and good profits.
For further particulars apply to the publishers HARPER & BROTHERS, Franklin Square, New York.
Employment.
For upwards of three years past, I have been engaged in a business, which has yielded me at the rate of Three Thousand Dollars per annum, but being desirous of going to Europe in the course of a few months for the purpose of these introducing the business, I am willing to teach to any one who will send me One Dollar. The business is no humbug, but of highly useful and general character, adapted both to cities and villages, and one that any person of ordinary capacity, young or old, male or female, can acquire with a few hours' practice, and by which they can secure a very handsome income. Several young ladies who have received instructions from me, both in New York State and Pennsylvania, are earning in excess of Fifteen Dollars per week by it, and there is no reason why any one else should not do the same. Invalids, even, can do well by it, as it is no peddling affair, but a business that is perfectly respectable. Gentlemen and ladies of leisure who would like to learn the business for their own amusement or pleasure, will find the practice of it a pleasant pastime, and one that they will take great interest in. On receipt of One Dollar I will send printed instructions by which any person can readily acquire the art, and these instructions will also contain every particular relative to the carrying it on so that it will be highly profitable. The purchaser of the printed instructions will also be authorized to teach to others; and I have sometimes received as high as Two Hundred Dollars for teaching it personally to a single individual. I would state further, that Two Dollars and Fifty Cents or Three Dollars will buy everything that is necessary to commence the business with, and the articles can be got almost anywhere, in city or country, or, if preferred, I can furnish them.—Address,

National Family Journal.
The Home Journal for 1863.
We have much pleasure in informing the public that one of our contributors for the coming year will be our friend and colleague THEODORE S. PAI.
We confess to uncommon pride and pleasure in this renewal of intercourse with the friend and intimate of other days; and we look to be felicitated for it, by the established readers who constitute the family of the Home Journal. But we have in preparation, for the coming year, several
VERY THRILLING STORIES.
Some of the ablest of living pens are engaged for us, in translating from the French and German; and our own original narrative writers are among the first.
We are fortunate also, in travelers gone abroad who are literary contributors, and we are anticipating for our readers a most agreeable surprise in the quality of these
Sketches of Travels and adventures.
But the feature of our journal which we have not yet mentioned is perhaps the most recherche of all, its prominence as
The Exponent of Refined Society.
Our correspondence with the leaders of fashion in New York and the other capitals, is especially valuable in this respect, keeping us unmistakably informed of the changes and progress of what is commonly understood by the "gay world." As we have taken some pains to arrange the resources of this new feature, we speak confidently of its promise of entertainment to our large circle of readers. In this department, foreign journals are endlessly inventive; and, with our industrious ransack, of these, we are sure to select, for the peculiar taste to which we minister, a most refreshing banquet.
THE EDITORS
Will give the Journal their constant attention, as before. Of the goings on, in the eventful scenes and places of the country, Mr. Willis' pen will give photographs, as usual. General Morris's Songs and Sketches will be embroidered on the trend of the passing moment, as they have always been. Some of the best intellects of the land are enlisted for us, also, and we think we are promised to hold our place as the journal which best enables the Family to keep conversant with the World.

AYER'S
Cathartic Pills,
(SUGAR-COATED.)
CLEANS THE BLOOD AND CURE THE SKIN.
Invalids, Fathers, Mothers, Physicians, Philanthropists, rest their hearts, and Judge of their Virtues.
FOR THE CURE OF
Headache, Sick Headache, Roulstomach,
Pruritus, Pa. May 1, 1855.
Dr. J. C. Ayer: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which cleans at once. If they will cure others as they do me, the fact is worth knowing.
Yours with great respect,
ED. W. PEEBLE,
Clerk of Superior Court.
Bilious Disorders and Liver Complaints.
DEPARTMENT OF THE STRONG, (The Intestines, &c.)
Sm: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we ever used. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of this organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.
Externally yours,
ALONZO HALE, M.D.,
Physician of the Marine Hospital.
Dysentery, Relaxa and Worms.
Post Office, Haverhill, Mass. July 20, 1854.
Dr. Ayer: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. I sent off to be doctored at great expense, but got no better. Then she commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had had, and my wife cured him with your Pills. Your Pills, while they do not cure biliousness, cure all other biliousness, and most much time, without being cured entirely. Such a medicine as yours, which is actually good and honest, will be prized hereafter.
GEO. J. GRIFFIN, Physician.
Indigestion and Impurity of the Blood.
From Rev. J. F. Himes, Pastor of Advent Church, Boston.
Dr. Ayer: I have long and frequently used your Pills in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.
Yours,
J. V. HIMES.
WARREN, Vermont Co., N. Y., Oct. 24, 1855.
DEAR SIR: I have been afflicted with a bilious disease, and find them an excellent purgative to cleanse the system and purify the impurities of the blood.
Yours,
W. M. D.
Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Sick Rheum.
From a Respecting Merchant of St. Louis, Feb. 4, 1856.
Dr. Ayer: Your Pills are the paragon of all that is great in medicine. They have cured me of the worst case of Erysipelas I ever had, and have been found to be a most valuable remedy for all the other ailments of the skin. After our child was cured, the doctor gave me your Pills, and they have cured her.
ASA MORRIDGE.
Rheumatism, Neuralgia, and Gout.
From the Rev. Dr. Hawkes, of the Methodist Episc. Church, Franklin, Mass., June 1, 1857.
HONORED SIR: I should be ungrateful for the fact that your Pills have brought me out of a most distressing case of Rheumatism in my limbs, which was cured by your Pills. I had been in the hospital for several weeks, and was unable to get up. My limbs were swollen and painful, and I was in the most deplorable condition. Your Pills have cured me of this disease, and I am now in perfect health. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.
SENATE CHAMBER, Boston, Mass., 5 Dec. 1855.
Dr. Ayer: I have been entirely cured by your Pills of Rheumatism Gout—a painful disease that had afflicted me for years.
WILLIAM SLIDELL.
For Dropsy, Plethora, and kindred complaints, requiring an active purge, they are an excellent remedy.
For Costiveness or Constipation, and as a Diarrhoea Pill they are agreeable and effectual.
Fits, Suppression, and Inflammation, even Deafness, and kindred ailments, have been cured by the alternative action of these Pills, and they have cured many other ailments.
Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its use. These contain no mercury or mineral substance whatever.
AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INFLUENZA, INFLUENZA.
and for the relief of consumptive patients in advanced stages of the disease.
We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it all but known. Nay, few are the families in any civilized country on this continent without some personal experience of its efficacy; and fewer yet the communities any where which have not chosen them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful and safe yet known remedy for the most delicate and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. It will cure all have it in store against the insidious enemy that steals upon them unperceived. We have abundant grounds to believe the Cherry Pectoral is the best remedy for the consumption it prevents than those it cures. Keep it by you, and cure your child while they are curable, or neglect them until no human skill can master the insupportable cancer that fastened on the vitals, and your child is lost. All know the dreadful fatality of lung disorders, and as they know to the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, and take no toll to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.
