

ILLUSTRATED SCIENTIFIC AMERICAN.
The Best Mechanical paper in the World.
EIGHTEENTH YEAR.
VOLUME VIII.—NEW SERIES.

A new volume of this popular Journal commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

To the Mechanic and Manufacturer.—No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the Scientific American. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication.

To the Inventor.—The Scientific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of invention in this country.

We are also receiving, the best Scientific Journals of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these Journals of whatever we may deem of interest to our readers.

A pamphlet of instructions as to the best mode of obtaining Letters Patent on new inventions is furnished free on application.

Messrs. Munn & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers.—The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found in the Scientific American, which information they can not possibly obtain from any other source.—Subjects in which farmers are interested will be found discussed in the Scientific American; and most of the improvements in agricultural implements being illustrated in its columns.

TERMS.—To mail subscribers: Three Dollars a year, or One Dollar for four months.—The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or Post-Office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.

THE PRIDE OF NEW YORK.
Grand Mirror of American Genius.

"Correct with spirit eloquent with ease,
 In tone to reason, or polite to please."

The New York Mercury.
 FOR THE NEW YEAR.

It is with no fear of War's effect upon their literary fortunes, that the publishers of The New York Mercury acknowledge the unwavering loyalty of the two hundred thousand subscribers, and announce to them and to all, that the New York Mercury for this year (1863) will be richer in every luxury of Polite Literature than ever before. It is no upstart speculation, no temporary "sensation," but a first-class literary weekly, which has been familiar to the United States for a quarter of a century; and while the wispy-waspy prints of yesterday are cutting down their talent even while they raise their subscription price, The New York Mercury maintains all its great Staff of Romancers, Poets, Humorists, Essayists, Story-Tellers, and Editors, and promises to make it still greater for 1863.

It is the one paper for every home. Its forty columns of reading-matter per week constitute an unparalleled conservatory of the entertaining, and its Novels, Miscellaneous Tales, Beauties of Verse, Gossip, Fictions, Broadside of Humor, and Polished Editorials, combine to epitomize all the charms of wit and sentiment! The husband reads it to his wife, the mother to her children, the lover to his sweetheart, the soldier to his comrades, and the village schoolmaster to the circle around the stove. It is familiar to the sight of every man, woman, and child in our country, and has regular subscribers in several countries of Europe. The New York Mercury is also identified with the grandest patriots of the age, for several members of its brilliant Staff hold high rank in our noble army, and have made themselves as famous with the Sword as with the Pen. The great illustrating artist of The New York Mercury, the inimitable Darley, gives the paper the highest attributes and embellishments, and yet this largest literary weekly of the day promises to surpass itself in all these respects during the New Year!

The first New York Mercury Novelle for the New Year, to be commenced in the issue of January 3, 1863, is called VICTORIA; or The Heiress of Castle Cliff. By Cousin Mary Carleton, Author of "Gipsy Gower," "Sybil Campbell," "Ermine," "La Masque," &c., &c.

The productions of this distinguished authoress need no eulogy. Public opinion long since pronounced them superior to any other novelettes published on this side of the Atlantic; and the true test of their merit is found in the fact that they are eagerly reproduced, after their publication in the Mercury, by the English press. We may add that the new tale, "Victoria," is fully equal in interest and depth of plot to either of those which have secured so large a share of public approval, and we can earnestly recommend it to all story-readers.

The New York Mercury is sold by all news-men and periodical dealers in America. To subscribers it is regularly mailed every Saturday morning, for 2 a year; three copies for \$5; six copies for 9; eight copies for \$12 with an extra copy, free, to the getter up of the club. Six months' subscriptions received. Always write plainly the name of your Post Office, County and State. We take the notes of all solvent banks at par. Payment must invariably be made in advance. Specimen Copies sent free to all applicants. Address all letters and remittances, post paid, to CAULDWELL & WHITNEY, Proprietors of The New York Mercury, 113 Fulton St., N. Y. City.

THE BEST WORK FOR CANVASSING AGENTS.
HARPER'S PICTORIAL HISTORY OF THE GREAT REBELLION IN THE UNITED STATES.

Messrs. Harpers & Brothers have commenced the issue in Numbers of a complete History of the Great Rebellion in the United States. The work has been for many months in course of preparation, by a writer every way qualified for the task.

The Introduction contains a clear and succinct account of the formation of the Confederacy of the States; the formation and adoption of the Constitution of the United States, and the establishment of the National Government; the origin, development and progress of the doctrines of Nullification and Secession, and the various phases which they assumed until their final culmination in the Great Rebellion!

The History comprises a full account, drawn from the most authentic sources, of all the Events of the War; the intrigues of the Southern leaders at home and abroad; the gradual defection of one section; the great Uprising of the People for the maintenance of the National Life and Existence; the rapid creation of an immense Army and Navy; and the Battles by Land and Sea.

The Illustrations comprise Portraits of all those who have borne a prominent part in the struggle; Maps of the different localities; Plans of the leading actions; Views of every scene of interest, and of the most important Battles. These illustrations are mostly from drawings taken on the spot by artists deputed for that purpose to accompany every division of our Army and Navy.

Every facility at the command of the Publishers has been employed in the preparation and execution of this work; and they confidently believe it will form the most trustworthy and valuable history which can be prepared of the Great Struggle for the American Union.

Mode and Terms of Publication. The work will be issued in Numbers, consisting of 24 pages of the size of Harper's Weekly, printed from 6 cent type, upon fine paper, and will probably be completed in Twenty Numbers.

The numbers will be issued at intervals, if possible, of about three or four weeks.

The price of each number, which contains matter equivalent to an ordinary volume, will be Twenty-five Cents.

The illustrations in each number are alone worth the price asked. Men out of employment, especially Sick or Disabled Soldiers, can find no other work so sure of ready sale and good profits.

For further particulars apply to the publishers HARPER & BROTHERS, Franklin Square, New York.

THE NEW YORK TRIBUNE 1863.

THE NEW YORK TRIBUNE, first issued in 1841, now in its twenty-second year, has obtained a larger and more widely diffused circulation than any other newspaper ever published in America. Though it has suffered, in common with other journals, from the volunteering and departure of tens of thousands of its patrons to serve in the War for the Union, its circulation on the 6th of December, 1862, is as follows:

DAILY	50,125
SEMI-WEEKLY	17,250
WEEKLY	148,000
Aggregate	215,375

Prominently a journal of News and Literature, The Tribune has political convictions which are well characterized by the single word REPUBLICAN. It is Republican in its hearty adhesion to the great truth that "God has made of one blood all nations of men"—Republican in its assertion of the equal and inalienable rights of all men to "life, liberty and the pursuit of happiness"—Republican in its steadfast, earnest, defiant hostility to every scheme and effort of the slave power, from the Annexation of Texas to the great Rebellion, to grasp the Empire of the New World and wield the resources of our country for its aggrandizement—Republican in its antagonism to the aristocrats and despots of the Old World, who fondly hail in the perils and calamities thrust upon us by their American counterpart the overthrow and ruin of the Model Republic—Republican in its hope and trust, its faith and effort, that this atrocious Rebellion must result in the signal overthrow of its plotters, and the firm establishment of equal rights and equal laws throughout the whole extent of our country, wherein Liberty and Union shall indeed "be one and inseparable" henceforth and forever.

The Tribune devotes attention in calmer times, and to some extent in these, to Education, Temperance, Agriculture, Inventions, and whatever else may minister to the spiritual and material progress and well-being of mankind; but for the present its energies and its columns are mainly devoted to the investigation and success of the War for the Union. Its special correspondents accompany every considerable army and report every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms and in the restoration of Peace and Thrift to our distracted and bleeding country. We believe that no otherwise can a fuller or more accurate view of the progress and character of this momentous conflict be obtained than through the regular perusal of our columns. And we earnestly solicit the co-operation of all friends of the National cause, which we regard and uphold as that of Universal Humanity, to aid us in extending its circulation.

TERMS:
 The enormous increase in the price of printing paper and other materials, used in printing newspapers, compels us to increase the price of the Tribune. Our new terms are:

SOMETHING NEW!
 Highly Important to the Ladies!
DOWNER'S PATENT HEMMER AND SHIELD FOR HAND SEWING.

Is "just the thing" for all who use the needle. This remarkably simple and neat invention saves one-half the labor of hand-sewing, as it completely protects the finger from a point of the needle, and makes a neat and uniform hem while the operator is sewing.

NO LADY SHOULD BE WITHOUT IT!
 It is cheap, simple, beautiful, and useful. The Hemmer and Shield will be sent free of charge on receipt of the price, **25 cents.**
 Enclose stamp for descriptive circular and terms.

ALSO,
DOWNER'S METROPOLITAN SKEIN-WEINDER AND Sewing-Bird Combined.

Is an article of real merit. It is used for the purpose of winding skeins of Thread, Silk, Cotton, Yarn, Floss, Worsted, &c. It is readily adjusted to the work-table, and will be found indispensable to all using the above articles, being a useful and invaluable appendage to the Sewing-Bird.

Price 50 Cts. to \$1 according to Style and Finish.

\$150 per Month can be Realized by enterprising Agents (wanted in every town and County throughout the United States and Canada) selling the above articles, as sales are rapid, profits large, and has no competition. A liberal discount to the trade.

Employment.

For upwards of three years past, I have been engaged in a business, which has yielded me at the rate of Three Thousand Dollars per annum, but being desirous of going to Europe in the course of a few months for the purpose of introducing the business, I am willing to teach it to any one who will send me One Dollar. The business is no humbug, but of a highly useful and general character, adapted both to cities and villages, and one that any person of ordinary capacity, young or old, male or female, can acquire with a few hours practice, and by which they can secure a very handsome income. Several young ladies who have received instructions from me, both in New York State and Pennsylvania, are earning upwards of Fifteen Dollars per week by it, and there is no reason why any one else cannot do the same. Invalids, even, can do well by it, as it is a sedentary business, but a business that is perfectly respectable. Gentlemen and ladies of leisure who would like to learn the business for their own amusement or pleasure, will find the practice of it a pleasant pastime, and one that they will take great interest in. On receipt of One Dollar I will send printed instructions by which any person can readily acquire the art, and the instructions will also contain every particular relative to the carrying it on so that it will be highly profitable. The purchaser of the "printed instructions" will also be authorized to teach it to others; and I have sometimes received as high as Two Hundred Dollars for teaching it personally to a single individual. I would state further, that Two Dollars and Fifty Cents or Three Dollars will buy everything they will need to commence the business with, and the articles can be got almost anywhere, in city or country, or, if preferred, I can furnish them.
