**ILLUSTRATED** SCIENTIFIC AMERICAN. The Best Machanical paper in the World. EIGHTEENTH YEAR.

**VOLUME VIII.**—NEW SERIES.

A new volume of this popular Journal comed weekly, and every number contains sixteen pages et useful information; and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns. To the Methanic and Manufacturer. No

To the Methanic and Manufacturer. No person engaged in any of the mechanical or manufacturing pursuits should this action of the United States, machines and inventions, which cannot be until their final culmination in the Great Rebellion

found in any other publication. To the Iquentor.—The Scientific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all, the Patents issued from the United States Patent Office during the week thus placing in our possession all that is transpiring in mechanical science and art in these Id countries. We shall ) continue to transfer journals of whatever we may deem of interest to our readers.

A pamphiet of instructions as to the best mode of obtaining Letters Patent on new in-ventions, is furnished free on application. Messrs. Munn & Lo. have acted as Patent Bolicitors for more than seventeen years, in

enters for whom they have done business. No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability. Chemists, Architects, Millwringts and Far-mers.—The Scientific American will be found

a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not, overlooked; all the new inventious and discoveries appertaining to these pursuits being published from week to week. Useful and practical information-pertaining to the interests of millwrights and mill-owners will be found in the Scientific American, which information they can

not possibly obtain from, any other source .-Subjects in which farmers are interested will be found discussed in the Scientific American; and mest-of the improvements in agri-cultural implements being illustrated in its

columns TERMS .- To mail subscribers : Three Dollars a year, or One Dollar for four months .-The volumes commence on the first of Janua-

gratis to any part of the country: Western and Cagadian money or Post-Office stamps taken at par for subscriptions. Canadian subscribers will please to remit twentyfive cents extra on each year's subscription to

prepay-postage. MUNN & CO., Publishers, 37 Park Row, N. Y.

THE PRIDE OF NEW YORK. Grand Mirror of American Genius

"Correct with spirit eloquent with ease, Intent to reason, or polite to please.'

The New York Mercury. FOR THE NEW YEAR.

It is with no fear of War's effect upon their subscribers, and announce to them and to all,

THE BEST WORK FOR CANVASSING AGENTS. HARPER'S PICTORIAL HISTORY THE GREAT REBELLION S. Mann, where he is prepared to do IN THE UNITED STATES.

Messrs, Harpers J. Brothers have commenc-ed the issue in Numbers of a complete History

of the Great Rebellion in the United States. The work has been for many months in course

inct account of the formation of the Confed-

manufacturing pursuits should think of "do-ing without" the Scientific American. It ment; the origin, development and progress sosts but six cents per week; every number of the doctrines of Nullification and Secession, soqtains) from six 'to th sugravings of new and the various phases which they assumed

The History comprises a full account, drawn from the most authentic sources, of all the Events of the War; the intrigues of the Southern leaders at home and abroad ; the gradual defection of one section ; the great Uprising of the People for the maintenance of the National Life and Existence; the rapid creation of an immense Army and Navy; and the Bat-tles by Land and Sea.

The Illustrations comprise Portraits of all those who have borne a prominent part in the struggle; Maps of the different localities; Plans of the leading actions ; Views of every scene of interest, and of the most important, to our columns copions extracts from these Battles. These illustrations are mostly from drawings taken on the spot by artists deputed for that purpose to accompany every division

of our 'Army and Navy. Every facility at the command of the Pub-

lishers has been employed in the preparation and execution of this work; and they confidently believe it will form the most trustworconnection with the puplication of the Scien-thy and valuable history which can be pre-liftic American, and they refer to 20,000 pat-pared of the Great Struggle for the American hion, being a useful and invaluable appendage to Mode and Terms of Publication : The work the Sewing-Bird. Jnion, 🝸

from clear type, upon fine paper, and will probably be completed in Twenty Numbers. The numbers will be issued at intervals, it possible, of about three or four weeks. The price of each number, which contains matter equivalent to an ordinary volume, will

be Twenty-five Cents. The Illustrations in each number are alone worth the price asked. Men out of employ-ment, especially Sick or Disabled Sold'ers, can find no other work so sure of ready sale and good profits.

For further particulars apply to the publisher HARPER & BROTHERS, Franklin Square, New York.

Ayer's Cathartic Pills,

THE sciences of Chemistry and Medicine have been taxed their atmost to produce this best, most perfect purgative which is known to man. Innumerable produ-are shown that these Pitas have written which surpress in excellence the ordinary methicines, and that they win upprecedentedly upon the esteem of all men. They are not pleasant to take, but powerful to curs. Their penetrating properties stimulate the vital activities of the body, remove the obstractions of its organs, purify the blood, and expel disease. They purge out the foul humors which but experiments. They infigure the four infiners which breed and grow distarper, simulate slaggible or disor-dered organs into their natural action, and import headthy tone with strength to the whole system. Not only go they enrie the overy-day complaints eff every body, but also formidable and dangerous diseases that have buffled the best of human skill. While they predice powerful effects they are at the sume time, in Anti-iffed dates the the test of mining sain. While they predice powering effects, they are at the same timo, in dominished doses, the safest and best physic that can be employed for children. Being angur-conted, they are pleasant to take' and being purely regatable, are free from any tick of furm. Curve have been made which surpass baller were they not subtantiated by men of such excited position and characta se to forbid the suspicion of untrath: Many eminent clergymen and physicians have leat their names to certi-It to the public the reliability of m7 remedies, while others bave sent me the assurance of their conviction that my Preparations contribute in measurely to the steller of my

flicted, enficting fellow-men.
