**ILLUSTRATED SCIENTIFIC AMERICAN.**  
The Best Mechanical paper in the World.  
**EIGHTEENTH YEAR.**  
**VOLUME VIII.—NEW SERIES.**  
A new volume of this popular Journal commences on the first of January. It is published weekly, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.  
To the Mechanic and Manufacturer.—No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the Scientific American. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication.  
To the Inventor.—The Scientific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of invention in this country.—We are also receiving the best Scientific Journals of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.  
A pamphlet of instructions as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application to Messrs. Munx & Co., Publishers of Patent Solicitors for more than seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.  
No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.  
Chemists, Architects, Millwrights, and Farmers.—The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found in the Scientific American, which information they can not possibly obtain from any other source.—Subjects in which farmers are interested will be found discussed in the Scientific American, and most of the improvements in agricultural implements being illustrated in its columns.  
**TERMS.**—To mail subscribers: Three Dollars a year, or One Dollar for four months.—The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.  
Western and Canadian money or Post-Office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.

**THE BEST WORK FOR CANVASSING AGENTS.**  
**HARPER'S PICTORIAL HISTORY OF THE GREAT REBELLION IN THE UNITED STATES.**  
Messrs. Harper & Brothers have commenced the issue in Numbers of a complete History of the Great Rebellion in the United States. The work has been many months in course of preparation, by a writer every way qualified for the task.  
The Introduction contains a clear and succinct account of the formation of the Confederacy of the States; the formation and adoption of the Constitution of the United States, and the establishment of the National Government; the origin, development and progress of the doctrine of Nullification and Secession, and the various phases which they assumed, until their final culmination in the Great Rebellion.  
The History comprises a full account, drawn from the most authentic sources, of all the Events of the War; the intrigues of the Southern leaders at home and abroad; the gradual defection of one section; the great Uprising of the People for the maintenance of the National Life and Existence; the rapid creation of an immense Army and Navy; and the Battles by Land and Sea.  
The Illustrations comprise Portraits of all those who have borne a prominent part in the struggle; Maps of the different localities; Plans of the leading actions; Views of every scene of interest, and of the most important Battles. These illustrations are mostly from drawings taken on the spot by artists deputed for that purpose to accompany every division of our Army and Navy.  
Every facility at the command of the Publishers has been employed in the preparation and execution of this work; and they confidently believe it will form the most trustworthy and valuable history which can be prepared of the Great Struggle for the American Union.  
Mode and Terms of Publication. The work will be issued in Numbers, consisting of 24 pages of the size of Harper's Weekly, printed from clear type, upon fine paper, and will probably be completed in Twenty Numbers.  
The numbers will be issued at intervals, if possible, of about three or four weeks.  
The price of each number, which contains matter equivalent to an ordinary volume, will be Twenty-five Cents.  
The Illustrations in each number are alone worth the price asked. Men out of employment, especially Sick or Disabled Soldiers, can find no other work so sure of ready sale and good profits.  
For further particulars apply to the publishers **HARPER & BROTHERS,** Franklin Square, New York.

**The New York Tribune 1863.**  
THE NEW YORK TRIBUNE, first issued in 1841, now in its twenty-second year, has obtained a larger and more widely diffused circulation than any other newspaper ever published in America. Through its columns is disseminated to every part of the world the opinions of its patrons to serve in the War for the Union, its circulation on the 6th of December, 1862, is as follows:  
DAILY 50,125  
SEMI-WEEKLY 17,250  
WEEKLY 148,000  
Aggregate 215,375.  
Prominently a Journal of News and Literature, The Tribune has political convictions which are well characterized by the single word **REPUBLICAN.** It is Republican in its hearty adhesion to the great truth that "God has made of one blood all nations of men"—Republican in its assertion of the equal and inalienable rights of all men to life, liberty and the pursuit of happiness.—Republican in its steadfast earnest hostility to every scheme and effort of the slave power, from the Annexation of Texas to the great Rebellion, to grasp the Empire of the New World and wield the resources of our country for its aggrandizement.—Republican in its antagonism to the aristocrats and despots of the Old World, who fondly hail in the perils and calamities that befall us by their American counterpart the overthrow and ruin of the Model Republic.—Republican in its hope and trust, its faith and effort, that this atrocious Rebellion must result in the signal overthrow of its plotters, and the firm establishment of equal rights and equal laws throughout the whole extent of our country, wherein Liberty and Union shall indeed be one and inseparable! henceforth and forever.  
The Tribune devotes attention to calmer times, and to some extent in these, to Education, Temperance, Agriculture, Inventions, and whatever else may minister to the spiritual and material progress and well-being of mankind; but for the present its energies and its columns are mainly devoted to the investigation and progress of the War for the Union. Its special correspondents accompany every considerable army and report every important incident of that great struggle which we trust is soon to result in the signal and conclusive triumph of the National arms and in the restoration of Peace and Thrift to our distracted and bleeding country. We believe that no otherwise can a fuller or more accurate view of the progress and character of this momentous conflict be obtained than through the regular perusal of our columns. And we earnestly solicit the co-operation of all friends of the National cause, which we regard and uphold as that of Universal Humanity, to aid us in extending its circulation.

**TERMS:**  
The enormous increase in the price of printing paper and other materials used in printing newspapers, compels us to increase the price of the Tribune. Our new terms are:
