

Local and General.

Gold is 43 cts. premium in New York. Mr. Benson picked the first strawberries in his garden on the 10th inst.

M. W. McAlarney has been appointed Deputy Provost Marshal for Potter county.

The Sewing Circle of the Hospital Aid Society will meet in the basement of the M. E. Church on Saturday afternoon at 2 o'clock.

The crops in the county look better now than they have for years back. It promises to be a fruitful year.

Hon. Oswald Thompson, of Philadelphia, is named for the Supreme Bench of this State.

The enrollment of this county is about completed. When the draft will take place no one can tell, it depends entirely on circumstances.

An order from the Provost Marshal General requires Provost Marshals to wear the uniform as prescribed in the army regulations, of a Captain of the general staff.

From a letter of a member of the 53d Regiment, we learn that "Capt. Jones is in command of the regiment, and Lieut. Mann in command of company G."

The copperheads have nominated G. W. Woodward, of Luzerne, as their candidate for Governor, and Walter B. Lowrie, of Allegheny, for Judge.

Don't fail to attend the Festival to be given for the benefit of the Hospital Aid Society, on Friday Evening of this week, in the old Court House.

Gov. Curtin has issued a general order stating that colored troops will be mustered into the United States service by authority of the War Department, and forbidding colored men from leaving the State to join organizations in other States.

The law passed by the last Congress fixes the rate of postage on newspapers as follows: Daily, per quarter, 45 cents; six times a week, 30 cents; Tri-Weekly, 10 cents; Semi-Weekly, 10 cents; Weekly, 5 cents. Weight not to exceed four ounces. The new rates take effect July 1st 1863.

We are informed that such discharged soldiers as intend to apply for a pension, should do so within a year from the date of their discharge, or they will lose a whole year's pension. All applications made after the expiration of a year will only secure the pension from the date of said application, but if made within the year, their pension will commence with their discharge.

The concurrent testimony of deserters leaves no doubt that the long smouldering fires of revolution are breaking out in the interior of North Carolina, and the disaffection has reached a point far beyond the few significant intimations of the generals. Several thousand armed refugees from the conscription have been for weeks entrenched in the mountains, with artillery, successfully defying the Confederate authority.

We are glad to see that true patriot and earnest man Henry Winter Davis, nominated for Congress, in the III District of Maryland. He accepted the nomination in a speech in which he declared for the most complete support of the policy of the Administration—Emancipation and all. His election is certain and Maryland thus secures the services in the National Congress of one of her most loyal and able men.

It is said that the Government has decided that the 25th section of the Conscription act, relative to the arrest of persons resisting the draft, shall be strictly adhered to. It provides that if any person shall resist the draft, or counsel any one to do it, he shall be subject to summary arrest by the Provost Marshal, and be forthwith delivered to the civil authorities, where, upon conviction, he shall suffer fine and imprisonment.

Owing to Rebel raids into our State, the War Department has created two new military districts to provide for the defence of Pennsylvania. The western district designated as the Department of Monongahela, embraces the territory west of Johnstown and Laurel Ridge. Maj. Gen. Brooks in command, headquarters at Pittsburgh. The eastern district, embracing the balance of the State, under command of Maj. Gen. Couch, headquarters at Chambersburg. Each has full authority to organize an army corps, consisting of infantry, cavalry and artillery.

In another column we publish the latest items of intelligence as to the Rebel raid and the movements of their armies. As yet they have not destroyed much private property. The Government is very active and thousands of troops are arriving in the Southern portion of the State daily. A large battle will undoubtedly soon be fought, as to its results we have no fears. The Rebels cannot help being driven back to their old line. Their foray into the State was stimulated by a desire to gain something for the loss of Vicksburg and Port Hudson, and also to procure many articles which had become necessary to their army. We do not think it will amount to anything more than a raid.

To Arms! To Arms!

The Governor has called and is still calling earnestly for six months volunteers, why cannot we have a company from Potter? Eighty men will make a company and by that means we can perhaps avoid a draft. Let one or two earnest, energetic men take the lead and raising a company will only be a question of time. Let the ball be set in motion. The Rebels are polluting our State. Arouse, men of Potter! and re-endorse the favorable opinion Gov. Curtin has conceived of you.

A Word of Advice.—In view of the approaching conscription, it would be well for any young man contemplating matrimony, to ascertain to a certainty whether his adorable possesses the requisite "rhino" to legally resist the draft. A generous understanding of this point might save trouble.

During the afternoon of last Saturday the cry of fire was sounded, occasioned by the bursting of a fluid can in the saloon of Mr. Glassmire's Hotel. One of the boys, while engaged in filling the lamps, poured some of the fluid into the hand of a boy standing by, who took a match and fired the fluid in his hand, burning him he endeavored to get the fluid off, when the blaze ignited the fluid in the can, exploding it, knocking one of the boys over, burning the other severely, and scorching the ceiling of the saloon. This may prove a warning to boys not to play with fluid and fire at the same time.

That miserable demagogue and traitor, O. L. Vallandigham, has been nominated by the copperheads of Ohio as the candidate for Governor. The convention met and out of 461 votes he received 448! Can anything be more humiliating to a free North than such slavish servility to Jeff Davis and his wishes by a party claiming to be in favor of a restoration of the Union! What honest Democrat can view the acts of this body of demagogues and not feel that the old flag of democracy has been stained red with the whole hand of Treason? There can be no more doubt as to the position of one party in Ohio. We are apt to judge, in our intercourse with men, what principles will be likely to govern them, more by the company they keep than by what they say, and more from the character of those who sympathize with them than from their own outward appearances. "Evil communications corrupt good manners." "A man is known by the company he keeps." As soon as Vallandigham reached the Rebel lines he was received by Rebel Generals, feasted and feted by his companions in treason, and their indignation at his arrest was only equalled by their indignation at his employing negroes as soldiers. And why should they not feel indignant? Their defender and eulogist in the American Congress has had his name blackened for their sakes, has tasted the bitter cup that they might live! The man who voted against supplies for our army, against confiscation of Rebel property, against employing negroes in the army for any purpose, against the Conscription Bill, which later act he denounced as unconstitutional, advising the people to resist it, and who has been a zealous advocate of Anarchy in the North, is surely entitled to some consideration, not only from Rebels in arms but also from those who are too cowardly to take up arms in defence of their sympathies and principles. Vallandigham, first nominated by the Chattanooga (Alabama) Rebel, which nomination acquiesced in by all Rebeldom could not be set aside by the convention of demagogues in Ohio. It now remains to be seen in what manner the loyalists of the Buckeye State will treat this insult.

There was quite a large number of commonwealth suits not disposed of.

The week passed off quite peaceably, most of the visitors leaving on Wednesday. We were surprised and mortified to notice the large number of drunken men on our streets during the whole week. We are assured that the hotels sold none, and if got in town, as it undoubtedly was, it was sold illegally. While our druggists and landlords do not and are not allowed to sell the "cursed stuff," it should be the duty of every law-abiding citizen to expose and bring to trial the conduct of such private citizens as appear determined to violate one of our most just and humane laws.

YOUTH LOCAL PRESS.—It is the pride of Americans that in proportion to our population we have more than double the number of newspapers of any other country in the world. This is fully regarded as an evidence of the higher intelligence of our people. It is not claimed that our first scholars are better educated than are those of the Old World; but it is claimed that the great body of our people are more intelligent than are the working classes of Europe; and if this newspaper press is not the cause, it is an evidence of the fact. In ordinary times newspapers are cheaper here than there, and every family not on the list of paupers may enjoy its weekly visits; and we do know that families in which the paper is a regular visitor, are more intelligent, virtuous, and respectable than they would be without it. Hence we urge upon all readers to "support your local paper," do not let it stand idle; for the war, nor the high price of paper cause a suspension of its regular issue; better do without some luxury than this necessity. Pay the printer as you would your school-teacher, your preacher, or your physician. If you must drop either, drop your tea, your coffee, or your tobacco; but do not drop your local paper. Are you poor? Then save the amount from off your back, and put it in your head.
