

There will be a Teacher's Institute held at Lewisville, March 14. A full attendance is earnestly desired.

Three men towards our Borough's quota have been sent to Harrisburg, and the balance are ready to go.

Most of the townships around us have increased the bounties to volunteers by a town bounty of \$100.

Coudersport pays \$700 (including Government and County) bounty to new recruits and \$800 to veterans. Apply to either D. F. Glassmire, D. C. Larrabee, or C. S. Jones.

We had intended publishing "D. H. P.'s" example, but find we have no mathematical characters that suit, and therefore it must "go by the board."

THE ENROLLMENT ACT. This important measure was passed by Congress last week.

The draft is to be made, if at all, by wards, precincts, or townships; the proportion or quota of each is to be ascertained, as nearly as possible, taking into the account the number previously furnished by it, not only for the army but also for the naval service.

Any person enrolled may furnish, previously to the draft, a substitute not liable to the draft, and shall be exempt during the time for which his substitute shall be exempt.

Any person drafted may furnish a substitute, and if the latter is not liable to draft, shall be exempt during the time the substitute is exempt, but not exceeding the term for which he was drafted. If the substitute is liable the principal shall be liable in filling further quotas.

Members of religious denominations conscientiously opposed to bearing arms, and so declaring by oath or affirmation, may be assigned, when drafted, to hospitals, or may pay \$300 for the benefit of sick and wounded soldiers.

Aliens who have voted or held office shall be liable to draft. Mariners or able seamen drafted may within eight days enlist in the naval service for a period not less than the term of the draft; the whole number of such transfer enlistments not to exceed 10,000. Districts to be credited with such enlistments as if the drafted men had entered the military service.

Persons physically or mentally unfit, persons actually in the military or naval service, and persons who have served two years during the war and have been honorably discharged, are exempt.

Only sons, "mother's dependent on their sons," and that class of exemptions are stricken out.

The two "classes" in the old act are consolidated.

The enrollment lists are to be thoroughly revised, so as to add the names of all who have reached the arms-bearing age since they were made, and to drop all who have passed forty-five since then.

For the benefit of white men in the slave states, upon whom the former law bore oppressively, it is provided that the enrollment shall include blacks and slaves; thus the non-slaveholding will no longer have to bear the burden of their wealthy slaveholding neighbors. Slaves are not exempt, but to their masters is given the government bounty; and a government commission is to sit, in each slave state, to award just compensation to those whose slaves have been drafted and made free.

Persons resisting the enrollment, or aiding and abetting resistance, or resisting any officer charged with duties under these acts, shall be punished by fine not exceeding five years, or both.

Persons procuring exemption by fraud shall be deemed deserters, and punished as such, and held to service for the full term of the draft.

Whoever procures or attempts to procure a false report from the surgeon as to his physical condition, shall be imprisoned for period of the draft.

Surgeons guilty of misfeasance shall be punished by fine and imprisonment.

No member of the Board of Enrollment or other officer shall be concerned in procuring substitutes on equality of fine and imprisonment.

Mr. Elliott's School, in the Academy, opens on Monday.

We had intended saying something in favor of the action of the Commissioners in paying a county bounty, but the people have sustained them so enthusiastically and unanimously that we think it would be time wasted.

Those who have the Extra Borough Tax for Volunteers to pay, should hand the money over to Mr. Glassmire immediately.

The Hospital Aid Society meets in the Basement of the M. E. Church on Thursday afternoon of every week. The friends of the cause are earnestly invited to be present.

On last Wednesday and Thursday mornings the Thermometer indicated 25° below zero.

There is no sleighing at present—the weather having been quite moderate during the last five days.

Don't forget the Soldier's Party to-morrow night. The friends are all invited to be present. A fine Band of Music and an Excellent Supper may be confidently expected.

The Smethport stage slipped over the dug-way last night, about three miles below town. There were four passengers but none seriously injured.

Our streets during the last few days have been quite lively with "blue-coated boys" of the 46th. They look "gay and happy." Well, we heartily wish them a life-time of happiness here, and after their toils here are over, a better and more enduring happiness.

The Donation.

There was no winter in '3; an autumn 'twas that grew the more by reaping. Yielding on last evening, One Hundred and Six Dollars. My generous friends, your gifts are, to me, pledges of good will, and blessings from the Lord; and, to you, I hope,

"Gives at interest in the land above." My heart glows with gratitude to God and you for them, and I pray for grace to use them to His glory, to serve Him more efficiently, and you.

Yours Truly, J. J. ROBERTS. Parsonage, Sat., 13th

WELL EXPRESSED.—The Saturday Evening Post touches the true point when it says that too many of the Polish "patriots" only want liberty for themselves and particular classes, while other classes they would tread under foot. There is far too much of the same "liberty" sought in Italy, France, Ireland, England, &c.

Nor is America free from the same inconsistency, if not hypocrisy. Generation after generation have the slaveholders been fierce for their own freedom, but put other human beings in the greatest, worst of bondage. And thousands of so called "Democrats" at the North, have either approved, or silently acquiesced in, wholesale oppression of one race or caste by another race or caste.

Poland, Italy, and Ireland, can never be truly free until they render freedom to all. And the bloody baptism of this Union is to end in establishing the principles of Equality of Rights for all men. Aristocracy may hate it, but to that it must and will come at last.

Just so.—In one of the detected letters of Mr. Lamar, a Rebel emissary, occurs the following precious revelation: "Drive gold coin out of the country, and induce undue importations of foreign products, so as to strike down the financial system. You can have no further hope for foreign recognition. It is evident the weight of arms is against us; and it is clear that we can only succeed by striking down the financial system of the country."

Such is the foreign Rebel's advice to his brethren at home—and the Copperhead leaders are carrying out the same policy. They have done all they could to make "greenbacks" odious—to drive out gold—to increase consumption of foreign goods—and to produce extravagance in the army. After all this, they try to shake the people's confidence in the government, and to discourage them about the War, so that the Rebels can dictate terms, and rule again.

Mr. J. O. Bryant, the resident principal of the Buffalo Commercial College has inaugurated a new department of instruction in that already popular institution. Something over a year ago he established in connection with the other branches of study, a Telegraphic department for the purpose of fitting young men for practical operators. The success of this department together with the great and increasing demand for operators has rendered it necessary to increase the facilities for instruction. Additional instruments have therefore been put up, and arrangements have been made with Mr. Charles S. Jones the present gentlemanly superintendent of the Buffalo office of the Western Union Telegraphic Co., to give instruction in this department. Mr. Jones stands at the head of his profession and a rare opportunity is here offered for young men to become skillful operators.

The Draft. The following has been sent to us by Capt. BLAIR for publication:

PROVOST MARCHAL'S OFFICE, WILLIAMSPORT, Pa., Feb. 19, 1864.

The following instructions being the latest received at this office on the subject referred to, are published for the information of those concerned; 1st. That the several sub-districts receive credit for all such volunteers as may have been mustered into the service of the United States, since the last draft, and that the number so credited be deducted from their quota under the recent call.

2d. If the men receive any local bounty from any particular locality, they are to be credited to that locality.

3d. If they do not receive any local bounty, they are to be credited to the place at which they enlist or their actual residence, if they have one, as they may select.

4th. Veterans, re-enlisted in the field, will be credited according to their muster-rolls, provided, that their residences, or the locality to which their credit is due, is noted therein. Muster-rolls defective as to these statements will be completed by supplementary muster-rolls, to be made out by the respective company commanders, and forwarded by them to the office of the Acting Assistant Provost Marshal General at Harrisburg, with the certified copies of the defective rolls.

5th. The assignment, decision, announcement and bestowal of credits for this district will be either by the Provost Marshal General, or under his direction, by the Acting Assistant Provost Marshal General at Harrisburg.

6th. The Provost Marshal General has directed that the premiums of \$25 and \$15 will be paid to any non-commissioned officer, private or citizen who presents an accepted recruit.

7th. No transfers can now be made in the enrollment, unless specially authorized by the act now before Congress—the time for all alterations having expired Jan. 5th.

8th. It should be borne in mind that the quotas heretofore published will not in all cases be correct. The real quotas are much larger, but are to be reduced by deducting from them:

1st. The number of volunteers furnished by each sub-district subsequent to the late draft and prior to the 31st of Jan. 1864, and duly reported as such. 2d. The number of men held to service under the late draft or who paid commutation or furnished substitutes.

This balance thus ascertained constitutes the number to be drafted from each sub-district subject to a credit for such volunteers as each may furnish between Feb. 1st and Feb. 29, 1864.

W. H. BLAIR, Capt. and Provost Marshal, 15th Dist.

We publish, again, the approximate quotas for this county, because we think that if it is raised by volunteers there will be no draft. Too much dependance should not be placed on the credit of veterans, for two reasons: 1st. The veterans are credited according to the muster-rolls in the Adjutant General's office, and 2nd. Many of the men who have re-enlisted do not know where they are credited to, at least are not certain of it, and in consequence different towns are sometimes claiming the same man. The time is so short that every possible effort should be made to avoid mistakes of this kind, for fear that after a town thinks they have their quota filled, they find these veterans have not been credited as they expected. This difficulty in regard to proper credit on the first muster-rolls arises from the fact that at the time of enlistment no one expected a draft and consequently no special effort was made to see that the correct township or borough was placed opposite each man's name.
