Missouri has since the Governor's Message, abolished Slavery, instantly and unconditionally.

Hon. Edward Everett, one of America's greatest statesmen, died at his residence, in Boston, on Saturday morning last.

The person who took from the hotel of D. F. Glassmire a Soldier's overcoat almost new, is reminded that "honesty is the best policy," and sometimes the most convenient.

The New Anniversary.—The second anniversary of the Proclamation of Emancipation, was celebrated with great spirit by the colored people of New Orleans, Hilton Head, New York, Boston, Washington and other cities.

A Traitor Convicted.—Cox of Ohio, one of the leading traitors in our Congress, confessed that he has not heretofore believed the stories of cruelties, practised by the rebels, on Union prisoners, but that he has now the testimony and is compelled to yield.

Regarding the Deeds.—The wife of Gen. Grant has been presented by the citizens of that city, with a residence in Philadelphia, costing \$50,000, and the widow of Gen. D. B. Birney, with a home costing \$10,000 while \$20,000 have been invested for her benefit. Good for the Quaker City.

Cemeteries.—The New York World has come out in favor of abolishing slavery by constitutional amendment, and in favor of the "Democrats" maintaining the institution to the state. It says that the "Democrats" should not tie themselves to a dead body. What will the slavery worshippers say to this?

A Traitor Testifies.—That a traitor, James Brooks, said in Congress the other day that he would be delighted to go South, if the President would allow him. We have no doubt he would be glad to go, but do not doubt that he would readily be put to pass on condition that he would remain with the rebels in Egypt. He will go by all means.

Bills will be made out and sent to each and all who are indebted to the Journal Office for anything. They will be made up to the 20th of February and if not paid before the 1st of March measures will be taken to collect them.

De Calmar.—The season has come when fires are the most common and it becomes everybody's duty to be on their guard to avoid them. A small quantity of ashes put in a wooden vessel, making a block of saltpetre, is a good fire extinguisher from a hole in the stove, a fire from a defective chimney, with the same result. If you do not want to be burned, or have one of these cold fires, or lose your stock and goods, be careful of fire.

The Harbinger.—The Harbinger, published by George Dargatzis, Esq., will be published daily to make it more convenient for our readers and in the same number for a shorter period. The Harbinger is published in a convenient sheet in 10 or 15 copies for \$1.50. The Harbinger furnishes full reports of legislative proceedings and gives the latest news by telegraph. It is a capital paper and we are glad to hear it is in a most prosperous condition.

An Editorial Criticism.—A Reading paper proposes an Editorial note to be published in that city on the 17th of January. This is too soon, for we do not intend to have been given. Harbinger will be better accommodated than Reading. There would be no expense for a Harbinger note. What has become of the old Editorial Association? Why does it not call a convention to consider the expediency of the times, as bearing on editors and publishers?

We have a letter from the Editor of the Standard, in which he states some observations of the weather in December: 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st. We would like to see the proposition of Mr. Baker but have no facilities at this end of the line. The mercury stood this morning, the 18th, 20 degrees below at 7 a. m.; the coldest morning we have had this winter. Last winter the coldest day was the first of January, when it was 10 degrees below. The thermometer indicated 4 degrees below.

The General.—The January number of this well known agricultural journal is received. We cordially recommend it to all our readers who are in any way interested in agriculture or horticulture. It is only one dollar a year. It is one of the best and cheapest journals published. Send your name back in a letter to the publisher, Joseph H. Harris, Rochester, N. Y., and you will receive the paper for a year, then show the number to your neighbors and they will subscribe also. The publisher of the paper offers to send a copy of the paper to all who wish to examine it before subscribing.

Three-Cent Fractional Currency.—The Printing Department in the Treasury has nearly completed the plates and machinery for the issue of three-cent notes. It is understood that Secretary Fessenden favors the designation of currency, in order that the people may be relieved from the exactions of speculators who obtain control of the market and two-cent pieces as fast as issued from the Mint, and compel dealers requiring them to pay a premium of ten to fifteen cents to obtain a necessary supply for the transaction of business.

The Crops of 1864.—The yield of 1864 is given as follows in the interesting report of the Agricultural Bureau: The wheat crop is 161,000,000 bushels, against 141,000,000 last year; corn, 531,000,000 bushels against 440,000,000 last year; rye, 25,000,000 bushels or about 100,000 less than last year; barley, 11,000,000, or half a million less than last year; oats, 117,000,000, or 1,000,000 more than last year; buckwheat, 10,000,000 bushels—3,000,000 more than last year; potatoes, 96,000,000 bushels—4,000,000 less than last year; tobacco, 108,000,000 pounds, being 70,000,000 pounds less than last year, and hay, 18,000,000 tons, being 2,000,000 tons less than each of the two preceding years. The fax-seed crop is from one to four per cent. larger than last year.

Neglected Coughs and Colds.—Few are aware of the importance of checking a Cough or "Common Cold," in its first stage; that which, in the beginning, would yield to a mild remedy, if neglected, soon presses upon the Lungs, "Bronchitis, Tracheitis, or Cough Laryngitis, afford instant relief.

Lincoln's Cabinet.—Since Mr. Lincoln's inauguration in March, 1861, there have been five changes in his Cabinet: Mr. Stanton for Mr. Cameron, Mr. Usher for Mr. Smith, Mr. Fessenden for Mr. Chase, Mr. Dennison for Mr. Blair, and Mr. Speed for Mr. Bates. The seats in the Cabinet are now filled as follows:

Secretary of State—Wm. H. Seward. Secretary of War—Edwin M. Stanton. Secretary of Treasury—Wm. P. Fessenden. Secretary of the Navy—Gideon Wells. Secretary of the Interior—John P. Usher. Postmaster General—Wm. Dennison. Attorney General—James Speed.

Periods Accepted.—Dr. Thomas F. Duncan, Surgeon and Medical Examiner of drafted men in this District, met with a serious and painful accident on Monday of last week, near Millheim, while on his road to Williamsport. He was within a quarter of a mile of the above place, when the harness of his horse, and in the attempt to catch the horse suddenly took flight, causing Dr. Duncan to fall forward over the dasher, and getting fast in the iron, was dragged into Millheim before the animal could be stopped. A small boy with him at the time remained in the sleigh unharmed. We did not hear the extent of his injuries, but suppose them to be from the nature of the case, of a serious character.—Daily Free Press.

Real Estate.—The attention of parties holding unrecorded Deeds is directed to the provisions of the Act of Assembly, which requires that—

All deeds and conveyances for real estate in this Commonwealth, shall be recorded in the office for Recording Deeds in the County where the lands lie, within six months after the execution of such deeds and conveyances, every such deed and conveyance not so recorded, shall be adjudged FRAUDULENT AND VOID against any subsequent purchaser for a valuable consideration, unless such deed be recorded before the recording of the deed or conveyance under which such subsequent purchaser, or mortgagee, shall claim.

What a Chance!

Governor Hall, in his final message to the Legislature of Missouri, shows that his sentiments have undergone a complete revolution relative to the "domestic institution." When he was chosen, or rather when as Lieutenant Governor he succeeded Governor Gamble, he was "conservatively" on the question of slavery as the subject of the "chance" could desire. His views, however, have since been opened—very widely opened; inasmuch that in the message referred to, he looks upon the institution as dead—as the cause of all our troubles; and counsels the legislature to adopt such measures as may be necessary, with the assistance of the Constitutional Convention, to which the delegates have been recently elected, and which would shortly assemble, so as to give it a sudden and not even a decent burial. Mr. Hall does not say of gradual or even compensated emancipation. He refers to the election as the will of the people on this great disturbing question, which cannot be ignored or disregarded. But the change is not only with Governor Hall; it is with the masses of the people, who have by their action, announced the doom of slavery without even benefit of clergy. Missouri, under the banner of Freedom will, within ten years, become one of the foremost States of the Union.

Attention, Eggheads.—Mr. C. H. Simmons wishes to purchase in the village of Wellsville a good house and lot. He also wishes to sell or exchange the following property, situated in Oswayo, Pa.: One large new dwelling house, which cost \$25,000, with 270 acres also one farm on the Oswayo, Pa., which is cleared one-half acre and 120 acres improved; also one lot of land in Michigan, near East Saginaw, of 120 acres. The above lands are all suitable for farms, and very valuable for their hemlock timber and some pine, also, will sell the property known as the Lyman property at Oswayo Village, one of the best dwelling houses, barn, and other buildings, with about 16 acres of land. A good and suitable, warranted well, will be given for part of the whole. This property is all of the highest value, or can be sold for cash, farm or other property. For further particulars inquire of C. H. Simmons, Wellsville, N. Y.

PENNSYLVANIA IMPERIAL OIL COMPANY,

OFFICE 130 SOUTH FIFTH STREET, PHILADELPHIA. 50 PER CENT. SAVED AT REGULATORS Nos. 1 & 2, OSWAYO, PA., AND WELLSVILLE, N. Y.

This Company has 120 acres of land, in fee, on Allegheny River immediately opposite Oil City, and adjoining Laytonia, with 170 rods front on the river, and 75 rods front on Lay's Run. Hon. C. P. Ramsell, editor of the Oil Creek Monitor, and agent for this land, estimates the Company that it will sell in lots for \$100,000, reserving the oil right which is worth \$100,000 additional. Landslide revenue will be derived for the Company from the sale of these lots; and the Company have two road engines with complete fixtures to operate immediately for oil. The territory in this immediate locality has never failed to produce profitably.

Also, one hundred acres, in fee simple, in the celebrated Cherry Run District, immediately adjoining Cherry Run Petroleum Company, whose stock is now worth over \$30 per share. The Company now have offers, which will be accepted, for sinking wells on these lands, without any cost to the corporation and one-half the proceeds to go to the Company. The Cherry and St. Nicholas Companies are in this immediate locality, and their stock is now devalued at a large premium. In addition, the Company has 40 acres, in fee simple, on Cherry Tree Run, which empties into Oil Creek, and is the best producing section of the Oil Territory, and 110 acres in fee simple, on Walnut Bend, five miles above the mouth of Oil Creek, and not over two miles from the celebrated Reed well, now producing over 100 gal. daily.

Also, the lease of three tracts of land, two on Oil Creek, each producing over the barrels per day, and one on Allegheny River, producing ten barrels per day of heavy oil, worth now \$21 per barrel. The Company now receives three-fourths of the proceeds of the last named well, and one-fourth of the other two. Each of these tracts will be developed by the Company by sinking additional wells, and the earnings and returns are now on hand to \$911.

The owners of the Cherry Run section concede the development of these lands, most economically, and they have entire confidence that they will yield very large dividends on the capital stock.

Subscriptions may be made promptly, as more than one-half of the stock is already paid for.
