The President has signed the joint resolution of the two Houses of Congress for terminating the Reciprocity Treaty with Great Britain. The Secretary of State has doubt-less given the stipulated notice, so that in a few months the treaty will be abrogated.— This is only the beginning of the end.

We refer our readers to the oil articles in another column. A Company is to be formed in this place for the purpose of testing the Oil in this county and particularly within the limits of our Borough, early in the Spring. That there is oil here there can be very little doubt—that it can be had in sufficient quantities to pay for boring is to be demonstrated at an early day. A fine open ing is presented for capitalists.

### VARIOUS MATTERS.

ED. JOURNAL: I have been thinking for some time past that there was danger that the people of this county had become so much absorbed in the war, and in the raising of money to pay bounties to fill quotas, that they would neglect other important matters.

The Temperance cause, how does that stand? Is there a single Temperance organ-ization alive in this county? If not, is it creditable to the philanthropic or christian perches to a post, thence east by line of part of our population? Is any decent citical aforesaid lot No. 40 71 perches to the place part of our population? Is any decent citizen of this county willing to go back to the days of drankenness and its attendant vices?

Two-Tenths acres more or less, on which are about Fifteen acres improved, with a shanty to prevent such a calamity? As yet, though we have unfortunately, chiefly through the influence of pretended medicines or Bitters, gone down hill, we are still on high ground, and the people who assemble at the County Seat on all public occasions, give evidence of the glorious work done-so much so that it is always mentioned by strangers who come

here on such occasions.

Then there is the Educational interest. Are we doing justice to that? Do we fully appreciate that this is the best place in the State to raise up men and women, and that to raise them in perfection is a hundred times more profitable than to raise big crops of wheat or shining fat horses? There is an excellent School kept in the Coudersport Academy at this time. If the number of scholars in attendance were one hundred instead of fifty, it would be more to the credit of our people, and would promise bet-

ter for our coming men and women. streaks of dawn are stready shooting up in if desired. the east. Let us wake up to the demands of 3m23: No. 10. West State St., Harrisburg. the hour, and prepare to carry forward the great moral interests that have been nearly J.S.M. neglected for four years past.
