THE peculiar tains or infection which we call Schorula lurks in the constitutions of multitudes of men. It either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid becomes in-competent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and

The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it of twenty years experience in England and tubercles, and finally Consumption; in the America. I am prepared to furnish farmers glands, swellings which suppurate and begranus, swellings which suppurate and become ulcerous sores; in the stomach and
bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on
the skin, cruptive and cutaneous affections.
These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil. or Glandular Swellings, Tumors, Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, on'T fail to call before purchasing and is well made and the material good. Minute reports of individual cases may be found in Ayen's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cares which it has made of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and this leaves its victims far more subject to disage, and its fetal results. more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayer's Sansarantla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purgo out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out
