PA. STATE NORMAL SCHOOL
 MANSFIELD, TIOGA CO, PA.
 This institution was
 Recognized by the State Authorities, in
 December, 1862.

State Normal School
 and formally opened as such in September 1863.

The School is at length placed upon a secure basis—the State appropriation of the current year enabling the Trustees to extinguish the greater portion of the outstanding liabilities, and to make extensive improvements upon the buildings and grounds.

The Spring Term will commence about March 10, 1865.

Prof. F. A. ALLEN, for the past six years in charge of the Chester County (Pa.) Normal School, has been elected Principal, and Prof. J. Strait, of the Edinboro State Normal School, has been appointed to the Professorship of Languages and Mathematics.

Prof. Allen is well known throughout the State as a gentleman of accurate scholarship, possessing a practical experience of fifteen years as an educator of teachers, and a thorough acquaintance with their educational wants, acquired from his connection with County Institutes in every section of Pennsylvania, as well as in other States.

Competent and thorough instructors will be provided for the other departments of the School.

The building has been refitted throughout and provided with furniture of the most approved style, together with an extensive collection of maps, charts, and works of reference. Excellent Chemical and Philosophical apparatus will be in readiness at the opening of the School.

To keep pace with the improvements in education, a gymnasium will be erected, for which a valuable apparatus for the heavier and lighter exercises has already been secured.

The school year is divided into three terms of thirteen weeks each, with no vacation, except the week of Christmas holidays.

It is desirable that students should enter at the commencement of a term, and for a period of not less than thirteen weeks. Tuition, in advance per term, \$6.00. No extra charges for the languages or the higher mathematics. Text books rented at reasonable rates. Vocal and instrumental music at teachers' prices. Boarding in the hall, \$39.00 per term; wood for winter, \$3.00 per term; washing, \$3.25; room rent, \$1.50.

The arrangements now made are of such a nature as to warrant the Trustees in saying that no other institution in the State affords better facilities for the Education of Teachers, or for the preparation of students for college, or for general business.

For further particulars address the Principal, at Mansfield, Tioga county, Pa. W. C. RIPLEY, Pres. Board of Trustees. ALBERT CLARK, Secretary. Mansfield, Dec. 20, 1864.

BROWNING'S CELEBRATED COFFEE.

Whilst trying Coffee of all the various brands, Remember, "BROWNING'S EXCELSIOR" is the best at the head it stands.

True, it's not like others that are "SOLD EVERYWHERE." A little stretch, we all do know, good goods will easily bear. (But a stretch like this—"sold everywhere"—is very apt to tear.)

Now, I can safely say, without any hesitation, There's none like "BROWNING'S EXCELSIOR" in this brightened and notion.

Skilled chemists have not found a Coffee from any store Possessing the same ingredients as "Browning's Excelsior."

Nor is there any one, in or out of the Coffee trade, Who knows the articles from which "Browning's Excelsior" is made.

I'm told it's made from barley, rye, wheat, beans, and peas; Name a thousand other things—but the RIGHT ONE if you please.

But with the Coffee-men I will not hold contention For the many, many things they say—too numerous too mention.

Whilst they're engaged in running round from store to store To learn the current wholesale price of "Browning's Excelsior."

Some who know my Coffee gives perfect satisfaction, Have formed a plan by which they hope to cause a quick reaction.

The case—"is with a few; no doubt 'twill be with more— To name their Coffee after mine, (BROWNING'S) EXCELSIOR."

Some say there's the only brand that will stand a ready test. Now try a little of them all—see which you like the best.

Three years have passed away since I first sold a store; Never have I in your paper advertised before; Nor would I now, or ever consent to publish more.

If like some used by "everybody," "sold everywhere," in "every store." A trade like this I do not wish; the orders I could not fill; My trade is not so very large; still I think I have my share;

But, reader, you may rest assured, this NOT "SOLD EVERYWHERE." Manufactured and for sale by the writer, GEORGE L. BROWNING, No. 20 Market street Camden, N. J.

INCREASE OF RATS.—The Farmer's Gazette (English) asserts and proves by figures that one pair of rats will have a progeny and descendants no less than 631,050 in three years. Now, unless this immense family can be kept down, they would consume more food than would sustain 65,000 human beings.

See "Costar's" adv't in this paper.

1865.
RATS versus BIRDS.—Whoever engages in shooting small birds is a cruel man, whoever kills in exterminating rats is a benefactor. We should like some of our correspondents to give us the benefit of their experience in driving out these pests. We need something besides dogs, cats, and traps for this business. Scientific American, N. Y.

1865.
"COSTAR'S" RAT EXTERMINATOR is simple, safe, and sure,—the most perfect RAT-exterminating agent we have ever attended. Every Rat that can get it, properly prepared according to directions, will eat it, and every one that eats it will die, generally at some place as distant as possible from where the medicine was taken.—Lake Shore, Mich., Mirror.

AYER'S
CHERRY PECTORAL

The scrofulous taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay.

The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth, and filthy habits, the depressing vicissitudes, and, above all, by the depressing infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The disease it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver
