The cases of this watch are an entirely new invention composed of six different metals combined, rolled together and plan-ished, producing an exact imitation of 18 carat gold, called Arcana, which will always keep its color. They are as beautiful as solid gold, and are afforded at one-eighth the cost. The case is beautifully designed with Panel and shield for name, with Patent Pash Pin, and engraved in the exact style of the celebrated Gold Hunting Levers, and are really handsome and desirable, and so exact an imitation of gold as to defy detection. The movement is manufactured by the well known St. Jimer Watch Company of Europe, and are

St. Jimer Watch Company of Europe, and are superbly finished, having engraved pallets, fancy carved bridges, adjusting regulator, with gold balance and the improved jeweled action, with line dial and skeleton hands, and is warranted a good time keeper.

These watches are of three different sizes, the smallest being for Ladies, and are all Hunting Cases. A case of six will be sent by Mail or Express for \$125.00. A single one sent in a handsome Morocco Case for \$25; will readily self for three times their cost. We will readily sell for three times their cost. We re sole agents for this watch in the United States, and none are genuine which do not bear our Trade mark. Address GIRARD W. DEVAUGH & CO., Importers, 15 Maiden Lanc. N. Y.

CAUTION FROM THE AMERICAN WATCH COMPANY.

It having come to our knowledge that imtutions of the American Watch have been put upon the market in great number, calculated by their utter worthlessness to injure the reputation of our genuine products, to protect our own interests and the public from mposition, we again publish the trade marks by which our Watches may invariably be cnown.

We manufacture four styles of Watches. The First has the name "AMERICAN WATCH CO., Weltham

Mass.," engraved on the inside plate. The Second has the name "APPLETON, TRACE & CO., Waltham. Mass.," engraved on the inside plats.

The Third has the name "P. S. BARTLETT, Waltham, Mass.," en-

graved on the inside plate. All the above styles have the name American Watch Co. painted on the dial, and are warranted in every respect.
The Fourth has the name

on the inside plate, and is not named on the

cases, as may be required.

It is hardly possible for us to accurately describe the numerous imitations to which we have alluded. They are usually inscribed with names so nearly approaching our own as to escape the observation of the unaccustomed buyer. Some are represented as made by the "Union Watch Co., of Boston, Mass." no such company existing. Some are named the "Soldier's Watch," to be sold as our Fourth or Wm. Ellery style, usually known as the "Soldier's Watch." Others are named the "Appleton Watch Co.;" others the P. S. Bartley," instead of our "P. S. Bartlett;" besides many varieties named in such a manner as to convey the idea that they are the veritable productions of the American

Watch Company.
We also caution the public, and particuin the miso caution the public, and particularly soldiers, against buying certain articles called watches, so freely advertised in illustrated papers as "Army Watches," "Officer's Watches," "Arging Time Observers," "Argana Watches," Ec., the prices of which are stated to helfrom seven to sixteen dollers. be from seven to sixteen dollars. A good watch, in these times, cannot be afforded for

any such money.

A little attention on the part of buyers will protect them from gross imposition.
