They rapidly spread until they formed a loathsome and vivulent fore, which covered his face, and actually blinded his eyes for some days. A skilfal physician applied his eyes for some days. A skilfal physician applied his eyes for some days. A skilfal physician applied his reason of the state of silver and other remedies, without any apparent effect! For lifteen days we gnarded his hands, lest with them he should tear open the festering and corript wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSATARILLA, and applying the iodide of potash lotion, as you direct. The side began to heal when we had finished the second.
