

PA. STATE NORMAL SCHOOL
MANSFIELD, TIOGA CO., PA.
 THIS INSTITUTION WAS
 Recognized by the State Authorities, in
 December, 1862.
 AS A
State Normal School.
 and formally opened as such in September 1863.

The School is at length placed upon a secure basis—the State appropriation of the current year enabling the Trustees to extinguish the greater portion of the outstanding liabilities, and to make extensive improvements upon the buildings and grounds.

The Spring Term will commence about March 10, 1865.

Prof. F. A. ALLEN, for the past six years in charge of the Chester County (Pa.) Normal School, has been elected Principal, and Prof. J. Straub, of the Edinboro State Normal School, has been appointed to the Professorship of Languages and Mathematics.

Prof. Allen is well known throughout the State as a gentleman of accurate scholarship, possessing a practical experience of fifteen years as an educator of teachers, and a thorough acquaintance with their educational wants, acquired from his connection with County Institutes in every section of Pennsylvania, as well as in other States.

Competent and thorough instructors will be provided for the other departments of the School.

The building, has been refitted throughout and provided with furniture of the most approved style, together with an extensive collection of maps, charts, and works of reference. Excellent Chemical and Philosophical apparatus will be in readiness at the opening of the School.

It is desirable that students should enter at the commencement of a term, and for a period of not less than thirteen weeks. Tuition, in advance per term, \$6.00. No extra charges for the languages or the higher mathematics. Text books rented at reasonable rates. Vocal and instrumental music at teachers' prices. Boarding in the hall, \$3.00 per term; wood for winter, \$3.00 per term; washing, \$3.25; room rent, \$1.50.

The arrangements now made are of such a nature as to warrant the Trustees in saying that no other institution in the State affords better facilities for the Education of Teachers, or for the preparation of students for college, or for general business.

For further particulars address the Principal, at Mansfield, Tioga County, Pa.
 W. C. RIPLEY, Pres. Board of Trustees.

BROWNING'S CELEBRATED COFFEE.
 Whilst trying Coffee of all the various brands, remember "BROWNING'S EXCELSEIOR" at the head it stands.
 True, it's not like others that are "SOLD EVERYWHERE."
 A little stretch, we all do know, good goods will easily bear.
 (But a stretch like this—"sold everywhere"—is very apt to tear.)
 Now, I can safely say, without any hesitation, there's none like "BROWNING'S EXCELSEIOR" in this enlightened nation.
 Skilled chemists have not found a Coffee from any store
 Possessing the same ingredients as "Browning's Excelsior."
 Nor is there any one, in or out of the Coffee trade,
 Who knows the articles from which "Browning's Excelsior" is made.
 I'm told it's made from barley, rye, wheat, beans, and peas;
 Name a thousand other things—but the RIGHT ONE if you please.
 But with the Coffee-men I will not hold contention!
 For the many, many things they say—too numerous to mention,
 Whilst they're engaged in running round from store to store
 To learn the current wholesale price of "Browning's Excelsior,"
 Some who know my Coffee gives perfect satisfaction,
 Have formed a plan by which they hope to gauge a quick reaction.
 The case is with a few; no doubt 'twill be with more.
 To name their Coffee after mine, (BROWNING'S EXCELSEIOR)
 Some say they're the only brand that will stand a ready test.
 Now try a little of them all—see which you like the best.
 Three years have passed away since I first sold a store;
 Never have I in your paper advertised before; Nor would I know, or ever consent to publish more.
 If like some used by "everybody," "sold everywhere," in "every store,"
 A trade like this I do not wish; the orders I could not fill;
 The Factory all Jersey's land would take—leave not a foot to till.
 My trade is not so very large; still I think I have my share.
 But, reader, you may rest assured, 'tis NOT "SOLD EVERYWHERE."
 Manufactured and for Sale by the writer,
 GEORGE L. BROWNING,
 No. 20 Market street Camden, N. J.
 This Coffee is not composed of poisonous drugs, it contains nothing deleterious; many persons use this Coffee that cannot use the pure coffee; it takes but one and a half ounces to make a quart of good strong coffee, the being just one-half the quantity it takes of Java Coffee, and always less than half the price.
 RETAIL DEALERS may purchase it in less quantities than ten gross at my prices from the Wholesale Grocers.
 Orders by mail from Wholesale Dealers promptly attended to.

HOW TO USE THE REMEDIES.
 In Diseases of the Blood, Humors on the Face, or any and every part of the body, use Extract Sarsaparilla, applying to Pimples and all external Humors or Eruptions the Improved Rose Wash.
 Use the Extract Buchu for all diseases requiring the aid of a Diuretic, except those of the Urinary Organs, such as Gonorrhoea and Gleet; in these use the Extract Buchu and Infuse with the Improved Rose Wash.
 THESE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and also are in very general use in all the STATE HOSPITALS AND PUBLIC INSTITUTIONS throughout the land, as well as in private practice, and are considered as invaluable remedies.

U. S. 7-30 LOAN
THIRD SERIES,
\$230,000,000.

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of the United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

7-30 LOAN.
 These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent. GOLD-BEARING BONDS
 These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum to their value, according to the rate levied upon other property. The interest is payable semi-annually by Coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7-30 per cent. amounts to **One cent per day on a \$50 note**
Two cents " " " \$100 " "
Ten " " " \$500 " "
20 " " " \$1000 " "
\$1 " " " \$5000 " "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions.
 The Notes of this Third Series are precisely similar in form and privileges to the Seventy-thirds already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead of 7-30ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe. The delivery of the notes of this third series of the Seventy-thirds will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.
 The return to specie payments, in the event of which only the option to pay interest in Gold is availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency. This is

The Only Loan in Market
 Now offered by the Government, and its superior advantages make it the **Great Popular Loan of the People.**

Less than \$230,000,000 of the Loan authorized by Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within sixty days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and private bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

INCREASE OF RATS.—The Farmer's Gazette (English) asserts and proves by figures that one pair of rats will have a progeny and descendants no less than 651,000 in three years. Now, unless this immense family can be kept down, they would consume more food than would sustain 65,000 human beings.

RATS versus BIRDS.—Whoever engages in shooting small birds is a cruel man, who ever aids in exterminating rats, is a benefactor. We should like some of our correspondents to give us the benefit of their experience in driving out these pests. We need something besides dogs, cats, and traps for this business.

The peculiar taint or infection which we call SCROFULA lurks in the constitution of multitudes of men, it either produces or is produced by an enfeebled, vitiated state of the blood, wherein the vital forces are incompetent to sustain their vigorous action, and leaves the system to all into disorder and decay.

The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending (from parents to children) into the third and fourth generation; indeed, it seems to be the rod of Ham who says, "I will visit the iniquities of the fathers upon their children." The disease originates various names, according to the organs attacked. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual antiseptics that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be traced the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease, and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy simulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has ever been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL,
 The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality keeps up to the best it ever had, and that it may be relied on to do all it has ever done. Prepared by **DR. J. C. AYER & CO.,**

MANHOOD:
 HOW LOST! HOW RESTORED!
 Just published, a new edition of **Dr. Carter's Celebrated Kidney and Bladder Pills** (without medicine) OF SPERMATORRHOEA, or Seminal Weakness, Involuntary Seminal losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, &c., also, Gonorrhoea, Erysipelas, and Fists, induced by self-indulgence or sexual extravagance.

The celebrated author in this admirable essay clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure, at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
