THE peculiar taint or infection which we call SCROPULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to surtain the vital forces in their vigorous action, and

leaves the system to

decay. The scrofulous contamination is variously caused by mercarial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, origin, it is hereditary in the constitution, descending "from parents to children onto the third and fourth generation;" indeed; it seems to be the rod of Him who says; "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the clands, swellings which suppurate and beglands, swellings which suppurate and be-come ulcerous sores; in the stomach and bowels, derangements which produce indi-gestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and tion of the plood. Furry the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

We should like some of our correspondents to give us the benefit of their experience in the control of the contro Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Alexa Sersaparilla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power.
