Fifteen Years Ago HOSTETTER'S STOMACH BITTERS was struggling into notice against the prejudices which, every-thing new, however excellent, is doomed to encounter.

TO-DAY
It stands at the head of all the tonic and alterative preparations in existence. Its ecibbrity has evoked many ilmitations but no rivals. Physicians promounce it the only safe atimulant that has ever been introduced into the sick chamber. In the Hospitals of the Army and Navy, the surgeons find it the very best tonic for convalencents, and report it as invaluabe of or austaining the vigor of troops on the march, as a remedy for scurvy and all scorbatic affections, and as the only specific for sea-sickness. California and Australia have emphatically indersed it as the Miner's Medicine Par Excellence. And in Spanish America and all the tropical climate, it is considered theology reliable autidate to epidemic fevers.

There is no mystery about the causes of its success. TO-DAY

There is no mystery about the causes of its success. It is the only stomachic and alterative in which are combined the grand requisites of a mild, pure, and unvitiated vegetable stimulant, with the finest selection of tonic, anti bilious, anti scorbutic, aperient and depurative herbs, plants, proots, and barks that have ever been intermixed in a medical preparation.

The Bitters have this distinctive quality, which is not shared, it is believed, by any tonic, tineture or extract in the world; they do not excite the pulse, though they infuse a wonderful degree of vigor into the nervous system, and strongthen and sustain the whole physical organization.

whole physical organization.

It is also proper to state, the Bitters are sold exclusively in glass, and never under any circumstances by the gallon or the barrel. Impostors and imitators are abroad, and the only ansexuard the public has against them is to see that the Bitters they buy bear the engraved label and note of hand of Messrs. Hostetter & Smith, and the government stamp over the cork of the bottle.
