It stands at the head of all the tonic and alterative preparations in existence. Its celebrity has evoked many imitations but no nivals. Physicians pronounce it the only safe stimulant that has ever been introduced into the sick chamber. In the Hospitals of the Army and Navy, the surgeons find it the very best tonic for convalescents, and report it as invalually of or sustaining the vigor of troops on the march, as a remedy for scurvy and all scorbutic affections, and asthe only specific for sca-sickness. California and Australia have emphatically indersed it as the Miner's Medicion PAREXECLENCE, and in Spanish America and all the tropical climate, it is considered the phly reliable autidate to epidemic fevers.

The Bitters have this distinctive quality, which is not shared, it is believed, by any tonic, tincture or extractin the world; they do not excite the pulse, though they infuse a wonderful degree of vigor into the nervous system, and strengthen and sustain the whole physical organization.

Hostetter & Smith, and the government stamp over the cork of the bottle.
