AN IMMENSE EMIGRATION. An immense emigration will pour into the Southern States with the restoration of peace. Thousands of cities of the North, will return to the thousands of northern soldiers will move in the same direction, and settle in the closest bonds of union, among their southern brethren; and, in obedience to the laws of demand and supply, thousands of northern farmers, mechanics, and laborers, will swell the mighty volume for the re-peopling and rebuilding the waste places of the "Gunny South."

In anticipation of this grand diversion of the tide of emigration, the proprietors of HOSTETTER'S CELEBRATED STOMACH BITTERS are putting up additional thousands of boxes of their universally popular tonic and alterative.

We have the testimony of soldiers, sailors, travelers, farmers, miners, emigrants, refugees, and all classes of men, North and South, "in a cloud of witnesses," that as a safe and reliable remedial agent, and as a protection against all the complaints incident to exposure, privations, changes of climate, diet, water, and habits of life, HOSTETTER'S BITTERS, used as directed, are worth their weight in gold, North or South.—[Cont.]

It is also proper to state that the Bitters are sold exclusively in glass, and never under circumstances by the gallon or the barrel. Impositors and imitators are abroad, and the only safeguard the public has against them is to see that the Bitters they buy have the engraved label and note of Messrs. Hostetter & Smith, and our proprietary stamp over the cork of the bottle.

STRANGE, BUT TRUE. Every young lady and gentleman in the United States can hear something much to their advantage by returning mail (free of charge) by addressing the undersigned. Those who have fears of being "bugged" will oblige by not noticing this card. All others will please address their obedient servant, THOS. F. CHAMMAN, 821 Broadway, New York.—[175th St.]

TO CONSUMPTIVES. The advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered for several years with a severe form of consumption, and after having been anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a SURE CURE for Consumption, Cough, Bronchitis, Catarrh, Croup, and all Throat and Lung Affections. The only object of the advertiser in sending the receipt of the remedy is to convey to the afflicted and spread information which he considers to be invaluable, and he hopes every sufferer will try the remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, &c., by return mail, will please address: REV. EDWARD A. WILSON, Williamsburgh, Kings Co., New York.—[175th St.]

ERRORS OF YOUTH. ALLCOCK'S POROUS PLASTERS CURE LUMBAGO, PAINS OF THE SIDE, RHEUMATISM, SORE CHEST, &c. An Electrician, who has great experience of their effects in local rheumatism, in the dorsolux, and deep-seated nervous and other pains, and in affections of the kidneys, etc., etc., attributes all their sedative, stimulative, and pain-relieving effects to their electric qualities. He asserts they restore the healthy electric condition (equilibrium) of the part, and that being restored, pain and morbid action cease.

LAME BACK. Brantford House, New York, Nov. 23, 1861. To Allcock & Co.—Gentlemen: I lately suffered severely from a weakness in my back. Having heard your Plasters much recommended in cases of this kind I procured one, and the result was all that I could desire. A single Plaster cured me in a week. Yours, res. &c., J. G. BRIGGS, General Agency, Brantford House, New York. Sold by all Dealers in Medicines.

DR. TOBIAS' VENTILATION LINIMENT. MORE TESTIMONY! THIS IS TO CERTIFY that for the last five years I have used in my family Dr. Tobias' celebrated Ventilation Liniment, and in every instance have found it fully equal to his recommendations. I have found it to give almost instantaneous relief in cases of toothache, cramp, bilious colic, sore throat, pain in the chest and back, and rheumatism, and I cheerfully recommend it to every one afflicted with any of the above-named diseases.

THE POTTER COUNTY JOURNAL

Coudersport, Tuesday Evening, Feb. 27, 1865.

Local and General.

Don't forget the Academical Exhibition in the New Court House on Wednesday evening of this week.

It has been very warm for the last few days and now as we go to press it is raining heavily and has all the appearance of a flood.

The Donation for the Rev. Mr. Stevens was very generally attended. The receipts amounted to upwards of \$130.

We have not the room to notice properly the lectures delivered under the auspices of the Temperance Division by the Rev. Mr. Emerson, of Wellsville. Our people were pleased and hope to hear Mr. Emerson again.

It is not generally known that soldiers who have lost limbs in the service of the United States, are entitled to artificial substitutes, that can be procured upon the presentation of evidence of honorable discharge, and that the wound causing the loss of limb was received in service. They are furnished free of charge, and do not affect any pension or bounty claim the soldier may have against the government.

The Concert given in this place by the "Independence Boys," of Whitesville, N. Y., we bear spoken of in very flattering terms. The singing was good, the selections fine, and the conduct gentlemanly. We hope to see them again under more favorable auspices. It was stated by a gentleman, one of the audience, that with one exception, they had all been prisoners of war. That fact shows them to have a good record for patriotism, and entitles them to favor and commendation.

We hear a rumor that a man named Chappell, living on Pine Creek, was killed a few weeks ago, by his son and another young man, but know of nothing certain connected with the murder. It appears that the young man came home drunk, got into a difficulty with the old man who did not sustain a very high character for sobriety, pounded him, and thinking they had killed him, fled the country. A day or two after the old man died and was buried, but it is said, denied, before his death, that his son had injured him. No doubt foul play was practiced but the character of the parties is such that the people in the neighborhood do not seem to concern themselves much about it.

We see a desire expressed on the part of some of the editors of Republican papers in various parts of the State for a meeting of publishers to take place at Harrisburg about the time of the State Convention, for the purpose of considering matters connected with National and State affairs. We are in favor of it, and shall endeavor to be present. Further, we think it would be good idea for all publishers, of whatever party, to meet at Harrisburg on the 6th to devise means of counteracting the outrageous prices imposed upon us by paper-dealers. We are now buying more for paper than we did any time during the war and can see no necessity for the continued high prices.

Our February Term of Court was a failure—so far as trials were concerned, and the Jury was of no service at all. The District Attorney expressed his disgust at the criminal record—only one indictment, with no defendant, no prosecutor, and no witnesses. Truly, this is a serious thing. Something must be done. The jury must not remain untried, and we should be represented in the "east." We know of only one remedy: License a dozen grog-shops, and establish a dozen modern doggeries, and our criminal record will present a different appearance. Sheriff Brown will have boards, the District Attorney will pocket fees, and we will then claim to belong to this fast age. As it is, we are an incorrigible pack of "old fogies," ridiculously retaining our faith in the threadbare maxim, "honesty is the best policy," and foolishly believing that "sobriety is next to godliness."

The Rinderpest, the cattle disease that has been so fearfully fatal in Europe during the last year, is said to have appeared in this country. Dr. Hiram Corson, of Montgomery county, a gentleman of high character and attainments and who has given considerable attention to agriculture and stock growing, sent a letter to Senator Worthington in which he stated that the Rinderpest has appeared in his immediate section, and has been fatal in almost every instance. He has called the attention of the County Medical and Agricultural societies to the fact, and on Mr. Worthington's motion a special committee of the Senate, consisting of Messrs. Worthington, Graham, Connel, James and Glutz, has been appointed to make inquiry and report on the subject to the Senate. We shall thus have, we trust, a careful examination into the character and tendency of this disease, and it shall prove to be the cattle disease that has been so fatal in England, the most stringent measures will be taken to arrest its spread throughout the country. We shall await with great anxiety the result of the investigation.

Artemus Ward has been in Portland, and in holding forth at Deering Hall, he referred to the progress of our nation during the last fifty years, and illustrated the progress of our development in railroads, steamboats, telegraphs and women. No other nation had such an array. We had not a woman fifty years ago. Look at Hinton's examples; look at Lucy Stone; look at Miss Dickinson; look at Mrs. Partridge; look at James Doolittle.

A clerk in a mercantile establishment writes to a friend at home: "I have a nice time of it now—a-days—very little work to do—our firm don't advertise."

The Atlantic Monthly for March contains a highly interesting article entitled "An American Picnic." It is the first of a series, and is written by Mrs. Agassiz, who accompanied Professor Agassiz on his scientific expedition to Brazil, and is in full sympathy with his wise enthusiasm. She gives a graphic sketch of the scenery of the Amazon, the luxuriant vegetation, the brilliant plumaged birds, the almost countless species of fishes, before unknown to Science, but now

assuming rapidly their proper scientific places and names under the skillful touch of Prof. Agassiz, and describes the inhabitants and their mode of life. The freshness of the subject, the great interest attaching to the expedition, and the clear, picturesque style of the writer, give to this article unusual attractions.

We wish also to call attention to the great excellence of Charles Reade's story, "Griffith Gaunt," which possesses a vigor and vivacity that rank it among the very best serials of the day. Its satire is genial, and it is pervaded by a healthy tone of hopefulness and good-will. The striking passages from Hawthorne's Note-Books; the story of Dr. Johns, one of remarkable fidelity to nature and charming grace of style; and Mrs. Stowe's suggestive Chimney-Corner Discourses, are continued. Mrs. Child gives in "Poor Chloë," a sad picture of the inevitable woes of Slavery, as it used to be in Massachusetts.

The third number of *Deedie's Monthly* will sustain the pleasure which greeted the first, and is already among the pleasantly looked for and cherished periodicals of the day. The typography is excellent and the contents selected with a true perception of the public wants. Published by BRADLEY & CO., No. 113 William Street, New York.

SARATOGA WATER.

It is our misfortune that there is a natural desire and physical necessity for a drink different from that which Nature evidently intended. This is not because of any extrinsic causes but of mistakes connected with our habit of living and which are handed down from father to child. Our coffee and tea are evidences of this truth, and the recognition of it has been urged as an excuse for those who forget manhood and become "wine-bibbers." But these simply act as stimulants, and do not give the system more healthy action nor prepare it in any greater degree to combat the evils of our present "fast living," but in great measure serve to increase them. We publish below two letters from gentlemen who are known personally by reputation to every intelligent American, giving their opinion of the value of Saratoga Water. It is not a new thing; it has been in use for more than half a century; it drank by people of all nations, whose testimony is harmonious as to its medicinal properties; and cures effected by its use are numerous and well-known. Our reasons for noticing it at this time are these: Heretofore its sale has been confined to the Springs and our large cities, but lately its control has passed into the hands of a new party who are determined that it shall be within the reach of all who wish to test its healing and strengthening qualities. Messrs. HORTCHISS & SONS, of New York, are preparing to ship it, not only to all parts of the United States, but to all parts of the world and it will not be a great while before its sale will be limited only by the commerce of our country.

Letter from THURLOW WEED. Astor House, New York, Jan. 6 1866.

Messrs. HORTCHISS & SONS:— Since you informed me that you had become the proprietors of the "Congress" and "Empire" Springs at Saratoga, I have reflected a good deal upon your idea of extending the use of these healthful waters. I hope you will make an effort, for in thus promoting your own interests, you confer a great benefit upon all who are brought to a knowledge of the virtues of your Springs. I have visited Saratoga annually, for nearly forty years, and during that long period, I have kept the Congress Spring Water continually at my residence, partaking of it two or three times a week. In my voyages to Europe and the West Indies, I have taken several dozens with me. Indeed, I have taken it to cross the Atlantic without Congress Water. I have drunk it in the Tropics, in England, in France, in Germany, and in Italy, with the same beneficial effect as when drawn fresh from the Spring. To me, Congress Water, aside from its medicinal qualities, is a delightful beverage. The Empire Spring, though but recently reported for bottling, furnishes very good water, and like the Water of the Congress Spring, presents its healing qualities as long as air is included. It is so rare that we find in the medicine required to cure the "flits that flesh is heir to," a pleasant beverage, that I hope you will send it to many thousands who will gratefully remember you as a public benefactor. Truly yours,

THURLOW WEED.

Letter from Dr. MOTT, of New York. New York, Jan. 5 1866.

Gentlemen: In reply to your inquiry, I take pleasure in stating that I have been acquainted with the medicinal value of the Congress and Empire Spring Waters of Saratoga, for many years, and consider them both useful and highly beneficial in many chronic diseases and a perfectly safe remedy to recommend to the public.

Very respectfully, ALEX. B. MOTT, Professor of Surgery, Bellevue Hospital Medical College.

Republican Caucus.

At a meeting of Republicans held in the Court House on the 23d day of February, for the purpose of selecting Delegates to the Union State Convention, W. B. GRAVES was elected Chairman, and DAN BAKER, Secretary.

On motion, Hon. John S. Mann, was nominated for Senatorial Delegate with power to appoint his own Conferees.

On motion, M. W. McAlarney was elected Representative Delegate.

A motion was made, and carried, requesting the Delegates to support Gen. John W. Geary for Governor.

At the same time the following were selected as a County Committee for the ensuing year: P. A. STEBBINS, Jr., Chairman; W. W. BROWN, J. P. TAGGART, W. E. GRAVES, H. S. BEEBE, BURTON LEWIS, B. CONWAY, Seneca Pomeroy. Signed by the Officers.

"Another miner spoke of the recent speech of Mr. Bright at Rochdale, and asked why he and those of his class were not allowed to have a vote as well as a nobleman. They were both governed by the same laws. How could they qualify themselves for a vote when they received such low wages? They only wanted a fair remuneration for their labor, but they scarcely dare mention the subject in their own cabins. At the colliery where he was employed the average day's wages for ten or twelve hours work is only 3s. 4d. How was it possible for them to make any provision for the future? What was to become of their wives and children? They might go to the parish!" [London Colliery Guardian, Jan. 27.]

Seventy-four cents for eleven hours work and such slavery to employers that the laborer dares not even in the domestic privacy of their poor huts talk of an increase of wages! That is the competition which the advocates of British Free Trade would force upon American workmen. Their only protection against such ruinous and debasing competition is the present Tariff. Let them jealously see to it that this breastwork of their labor is strengthened and maintained.

Lyon's Periodical Drops!

The Great Female Remedy for Irrregularities. These drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Strappings. Being liquid, their action is quick and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppurations of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are equally laudable for the cure of all Female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating how they may be used, and explaining when and why they should not be used, without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with written signature of JOHN L. LYON, without which none are genuine.

PETITION.

To the Honorable, the Judges of the Court of Common Pleas of Cameron county, in the Commonwealth of Pennsylvania:

The petitioners of the subscribers, Members of the Methodist Episcopal Church on the Potomac City, and respectfully shew that your petitioners are desirous of associating themselves together as a body and corporate, in conformity with the laws of the Commonwealth, that is to say: Your petitioners are desirous of being constituted a body corporate, under the name and style of the "First Methodist Episcopal Church of Emporium, Borough District, Potter County, Pennsylvania," and in the direction of the Trustees, viz: Lemuel Leore, Jr., Dr. Wm. S. Hamilton, George Metzger, Rev. J. Child, Wm. B. Hamilton, Joseph Houser, which said Trustees and their successors in office shall have perpetual succession, and to be elected as hereinafter directed, who shall be, and are hereby empowered under the name and style aforesaid, liable to sue and be sued, plead and be impleaded, in all Courts of Record and elsewhere, and to execute in Law and Equity to take and hold to themselves and their successors in office, for the use of said Society, lands, tenements, hereditaments, goods and chattels, of whatsoever quality, real, personal or mixed, by gift, grant, bargain, sale, conveyance, demise or bequest, from any person or persons capable of making the same, and the same from time to time to grant, bargain, sell, lease, alien and dispose of for the use and benefit of said Society; and generally to do all such other and singular matters and things necessary and lawful for the management of its affairs. And the trustees and their successors shall have full and entire power to borrow, for the use of said Society, any sum not exceeding Five Thousand Dollars, when said sum or sums so borrowed shall be applied by the trustees, or by the debts growing out of the expense of building the church property aforesaid. And the said Trustees or their successors, shall have full and entire authority to secure the payment of the debts now existing, or that may accrue by reason of loan having to be made, to mortgage the real property of the church aforesaid and the real estate connected therewith.

And further, that the Trustees above named shall continue in office until the session of the last Quarterly Meeting Conference for the year A. D. 1866, at which time the members of said Conference shall elect their successors. And thereafter an election of Trustees shall take place at each session of the Quarterly Meeting Conference in each Conference year, by the members of the said Quarterly Meeting Conference, and the same from time to time to grant, bargain, sell, lease, alien and dispose of for the use and benefit of said Society; and generally to do all such other and singular matters and things necessary and lawful for the management of its affairs. And the trustees and their successors shall have full and entire power to borrow, for the use of said Society, any sum not exceeding Five Thousand Dollars, when said sum or sums so borrowed shall be applied by the trustees, or by the debts growing out of the expense of building the church property aforesaid. And the said Trustees or their successors, shall have full and entire authority to secure the payment of the debts now existing, or that may accrue by reason of loan having to be made, to mortgage the real property of the church aforesaid and the real estate connected therewith.

George Metzger, William Lewis, W. S. Hamilton, H. C. Lewis, A. E. Kelly, C. C. Crum, W. B. Hamilton, J. Childwick, Jr., J. Doolittle, Lemuel Leore, Jr.

And now, January 12, A. D. 1866, the Court having examined and perused the within petition, and the objects, articles and conditions therein set forth appearing lawful and not injurious to the community, direct the said writing to be filed, and notice to be inserted in one newspaper printed in the County, three successive weeks. By the Court, A. E. KELLY, Prothy.
